Go to www.vtechphones.com to register your product for enhanced warranty support and latest VTech product news.

Telephones identified with this logo have reduced noise and interference when used with most T-coil equipped hearing aids and cochlear implants. The TIA-1083 Compliant Logo is a trademark of the Telecommunications Industry Association. Used under license.

Introduction
To protect our environment and conserve natural resources, this Abridged user's manual provides you with the basic installation and use instructions. A limited set of features are described in abbreviated form.
Please refer to the online User's manual for a full set of installation and operation instructions at www.vtechphones.com.
Before using this VTech product, please read Important safety instructions on page 13 of this user's manual.

ECO mode
This power conserving technology reduces power consumption for optimal battery performance.
The ECO mode activates automatically during calls. When this mode is on, the handset displays ECO.
Even if you do not subscribe to any conventional telephone service, you can still use the cell lines alone without plugging in a telephone line cord. Use only the power adapters and batteries supplied with this product. To order a replacement, visit our website at www.vtechphones.com or call 1 (800) 595-9511. In Canada, go to www.vtechcanada.com or call 1 (800) 267-7377.

If you subscribe to telephone service from a cable company or a VoIP service provider, contact your cable/VoIP service provider for more information.

**Parts checklist**

Your telephone package contains the following items. Save your sales receipt and original packaging in the event warranty service is necessary.

- Ear hooks (3)
- Ear pad
- Additional earbuds (3)
- Telephone line cord
- Cordless headset with an earbud attached
- Head band
  - (2 for DS6671-3)
  - (3 for DS6671-4/DS6672-4)
- Handset batteries (1 for DS6671-2/DS667V-2F/DS667V-2G/DS667V-2H/DS667V-2J)
  - (2 for DS6671-3)
  - (3 for DS6671-4/DS6672-4)
- Handset battery compartment covers (1 for DS6671-2/DS667V-2F/DS667V-2G/DS667V-2H/DS667V-2J)
  - (2 for DS6671-3)
  - (3 for DS6671-4/DS6672-4)
- Handset charger and charger adapter (1 for DS6671-3)
  - (2 for DS6671-4/DS6672-4)
- Telephone base power adapter

*Install the telephone base and charger as shown below.*

- • Even if you do not subscribe to any conventional telephone service, you can still use the cell lines alone without plugging in a telephone line cord.
- • Use only the power adapters and batteries supplied with this product. To order a replacement, visit our website at www.vtechphones.com or call 1 (800) 595-9511. In Canada, go to www.vtechcanada.com or call 1 (800) 267-7377.
- • If you subscribe to telephone service from a cable company or a VoIP service provider, contact your cable/VoIP service provider for more information.
Battery installation and charging

Install the battery as shown below.

1. Plug!
2. Click!
3. Charge for at least 30 minutes before initial settings.
4. Charge for 12 hours before initial use.

IMPORTANT:
Check for a dial tone by pressing HOME, CELL 1 or CELL 2. If you hear a dial tone, the installation is successful.
If you do not hear a dial tone:
• Make sure the installation procedures described above are properly done.
• It may be a wiring problem. If you have changed your telephone service to digital service from a cable company or a VoIP service provider, the telephone line may need to be rewired to allow all existing telephone jacks to work. Contact your cable/VoIP service provider for more information.

Headset charging

1. Charge for 3 hours before initial use.
2. Light on!

Headset attachments

Earbud
To attach the earbud to the headset earpiece:
Choose an appropriate earbud. Press the earbud towards the earpiece until it clicks into place. Move the earbud around so that the protruding bump on the earbud is pointing towards your mouth when placed on your ear. The protruding bump on the earbud holds the headset securely in your ear.

To remove the earbud from the headset earpiece:
Hold both sides of the earbud and then pull the earbud until it separates from the earpiece.

To attach the earbud to the headset earpiece:
1. Choose an appropriate earbud.
2. Press the earbud towards the earpiece until it clicks into place. Move the earbud around so that the protruding bump on the earbud is pointing towards your mouth when placed on your ear. The protruding bump on the earbud holds the headset securely in your ear.

Ear hook
To attach the ear hook to the headset:
1. Remove any headset attachment (earbud excluded) connected to the headset.
2. Insert the ear hook [A] into the rotating clip [B] on the headset until it clicks into place.
3. Hook the headset on your right ear. Adjust the angle of the headset until the microphone is pointing towards your mouth. Firmly grip the earpiece with one hand whenever adjusting the headset microphone up or down.

To adjust the headset to wear on your left ear:
1. Hold the headset with one hand. Lift the ear hook upward.
2. Twist the ear hook 180° clockwise.
3. Push the ear hook downward.
4. Hook the headset on your left ear. Adjust the angle of the headset until the microphone is pointing towards your mouth.
To use a Bluetooth enabled cell phone with your DS6671/DS6672/DS667V, you must first pair and connect your Bluetooth cell phone(s) with the telephone base. All DS6671/DS6672/DS667V handsets can be used to make or answer calls on the cell lines.

Bluetooth wireless technology operates within a short range (a maximum of approximately 30 feet). When you pair a Bluetooth cell phone to the telephone base, place your Bluetooth cell phone closer to the telephone base to maintain sufficient signal strength. For optimal performance, keep your cell phone within 15 feet of the telephone base while using the cell line.

Pair and connect your first Bluetooth cell phone
1. Press and hold $CELL1/$CELL 2 on the telephone base for about four seconds. You hear a tone and the $CELL1/$CELL 2 light blinks.
2. Turn on the Bluetooth feature of your cell phone. Once your cell phone finds your VTech phone (VTech DS6671/VTech DS6672/VTech DS667V), press the appropriate key on your cell phone to continue the pairing process.
   • Your cell phone may prompt you to enter the PIN of the telephone base. The default PIN of the telephone base is 0000.

Headband
To attach the head band to the headset:
1. Remove any headset attachment connected to the headset.
2. Attach the ear pad to the headset earpiece.
3. To wear the headset on your right ear, insert the end [A] of the head band into the rotating clip [B] on the headset until it clicks into place.
4. Adjust the head band to fit your head. Adjust and rotate the angle of the headset until the microphone is pointing towards your mouth. Firmly grip the earpiece with one hand whenever adjusting the headset microphone up or down.

To remove the head band from the headset:
1. Hold the headset with one hand and the head band with your other hand.
2. Pull the end of the head band until it separates from the rotating clip on the headset.

To wear on your left ear, hold the headset with one hand and the head band with your other hand. Rotate the head band within the rotating clip on the headset.

To remove the ear hook from the headset:
1. Hold the headset with one hand and the ear hook with your other hand.
2. Pull the end of the ear hook up until it separates from the rotating clip on the headset.

To attach the head band to the headset:
1. Remove any headset attachment connected to the headset.
2. Attach the ear pad to the headset earpiece.
3. To wear the headset on your right ear, insert the end [A] of the head band into the rotating clip [B] on the headset until it clicks into place.
4. Adjust the head band to fit your head. Adjust and rotate the angle of the headset until the microphone is pointing towards your mouth. Firmly grip the earpiece with one hand whenever adjusting the headset microphone up or down.

To remove the head band from the headset:
1. Hold the headset with one hand and the head band with your other hand.
2. Pull the end of the head band until it separates from the rotating clip on the headset.

To wear on your left ear, hold the headset with one hand and the head band with your other hand. Rotate the head band within the rotating clip on the headset.

To remove the ear hook from the headset:
1. Hold the headset with one hand and the ear hook with your other hand.
2. Pull the end of the ear hook up until it separates from the rotating clip on the headset.

To attach the head band to the headset:
1. Remove any headset attachment connected to the headset.
2. Attach the ear pad to the headset earpiece.
3. To wear the headset on your right ear, insert the end [A] of the head band into the rotating clip [B] on the headset until it clicks into place.
4. Adjust the head band to fit your head. Adjust and rotate the angle of the headset until the microphone is pointing towards your mouth. Firmly grip the earpiece with one hand whenever adjusting the headset microphone up or down.

To remove the head band from the headset:
1. Hold the headset with one hand and the head band with your other hand.
2. Pull the end of the head band until it separates from the rotating clip on the headset.

To wear on your left ear, hold the headset with one hand and the head band with your other hand. Rotate the head band within the rotating clip on the headset.

To remove the ear hook from the headset:
1. Hold the headset with one hand and the ear hook with your other hand.
2. Pull the end of the ear hook up until it separates from the rotating clip on the headset.

To attach the head band to the headset:
1. Remove any headset attachment connected to the headset.
2. Attach the ear pad to the headset earpiece.
3. To wear the headset on your right ear, insert the end [A] of the head band into the rotating clip [B] on the headset until it clicks into place.
4. Adjust the head band to fit your head. Adjust and rotate the angle of the headset until the microphone is pointing towards your mouth. Firmly grip the earpiece with one hand whenever adjusting the headset microphone up or down.

To remove the head band from the headset:
1. Hold the headset with one hand and the head band with your other hand.
2. Pull the end of the head band until it separates from the rotating clip on the headset.

To wear on your left ear, hold the headset with one hand and the head band with your other hand. Rotate the head band within the rotating clip on the headset.

To remove the ear hook from the headset:
1. Hold the headset with one hand and the ear hook with your other hand.
2. Pull the end of the ear hook up until it separates from the rotating clip on the headset.

To attach the head band to the headset:
1. Remove any headset attachment connected to the headset.
2. Attach the ear pad to the headset earpiece.
3. To wear the headset on your right ear, insert the end [A] of the head band into the rotating clip [B] on the headset until it clicks into place.
4. Adjust the head band to fit your head. Adjust and rotate the angle of the headset until the microphone is pointing towards your mouth. Firmly grip the earpiece with one hand whenever adjusting the headset microphone up or down.

To remove the head band from the headset:
1. Hold the headset with one hand and the head band with your other hand.
2. Pull the end of the head band until it separates from the rotating clip on the headset.

To wear on your left ear, hold the headset with one hand and the head band with your other hand. Rotate the head band within the rotating clip on the headset.

To remove the ear hook from the headset:
1. Hold the headset with one hand and the ear hook with your other hand.
2. Pull the end of the ear hook up until it separates from the rotating clip on the headset.

To attach the head band to the headset:
1. Remove any headset attachment connected to the headset.
2. Attach the ear pad to the headset earpiece.
3. To wear the headset on your right ear, insert the end [A] of the head band into the rotating clip [B] on the headset until it clicks into place.
4. Adjust the head band to fit your head. Adjust and rotate the angle of the headset until the microphone is pointing towards your mouth. Firmly grip the earpiece with one hand whenever adjusting the headset microphone up or down.

To remove the head band from the headset:
1. Hold the headset with one hand and the head band with your other hand.
2. Pull the end of the head band until it separates from the rotating clip on the headset.

To wear on your left ear, hold the headset with one hand and the head band with your other hand. Rotate the head band within the rotating clip on the headset.

To remove the ear hook from the headset:
1. Hold the headset with one hand and the ear hook with your other hand.
2. Pull the end of the ear hook up until it separates from the rotating clip on the headset.

To attach the head band to the headset:
1. Remove any headset attachment connected to the headset.
2. Attach the ear pad to the headset earpiece.
3. To wear the headset on your right ear, insert the end [A] of the head band into the rotating clip [B] on the headset until it clicks into place.
4. Adjust the head band to fit your head. Adjust and rotate the angle of the headset until the microphone is pointing towards your mouth. Firmly grip the earpiece with one hand whenever adjusting the headset microphone up or down.

To remove the head band from the headset:
1. Hold the headset with one hand and the head band with your other hand.
2. Pull the end of the head band until it separates from the rotating clip on the headset.

To wear on your left ear, hold the headset with one hand and the head band with your other hand. Rotate the head band within the rotating clip on the headset.

To remove the ear hook from the headset:
1. Hold the headset with one hand and the ear hook with your other hand.
2. Pull the end of the ear hook up until it separates from the rotating clip on the headset.

To attach the head band to the headset:
1. Remove any headset attachment connected to the headset.
2. Attach the ear pad to the headset earpiece.
3. To wear the headset on your right ear, insert the end [A] of the head band into the rotating clip [B] on the headset until it clicks into place.
4. Adjust the head band to fit your head. Adjust and rotate the angle of the headset until the microphone is pointing towards your mouth. Firmly grip the earpiece with one hand whenever adjusting the headset microphone up or down.

To remove the head band from the headset:
1. Hold the headset with one hand and the head band with your other hand.
2. Pull the end of the head band until it separates from the rotating clip on the headset.

To wear on your left ear, hold the headset with one hand and the head band with your other hand. Rotate the head band within the rotating clip on the headset.

To remove the ear hook from the headset:
1. Hold the headset with one hand and the ear hook with your other hand.
2. Pull the end of the ear hook up until it separates from the rotating clip on the headset.

To attach the head band to the headset:
1. Remove any headset attachment connected to the headset.
2. Attach the ear pad to the headset earpiece.
3. To wear the headset on your right ear, insert the end [A] of the head band into the rotating clip [B] on the headset until it clicks into place.

2. Pull the end of the head band until it separates from the rotating clip on the headset.

To wear on your left ear, hold the headset with one hand and the head band with your other hand. Rotate the head band within the rotating clip on the headset.
VTech Connect to Cell™ application
This application helps you integrate your Android phones with your DS6671/DS6672/DS667V.
For more information and application download, go to http://www.vtechphones.com/app_connect_to_cell

Cell ringer
When you pair an iPhone (with iOS4.1 or above) to your DS6671/DS6672/DS667V, the DS6671/DS6672/DS667V handsets play your iPhone’s ringer when you receive a call on your iPhone.
1. Press MENU when the phone is not in use.
2. Scroll to Bluetooth >> Press SELECT.
3. Scroll to Cell ringer >> Press SELECT.
4. Scroll to choose On or Off >> Press SELECT.

Download phonebook
1. Press MENU when the phone is not in use.
2. Scroll to Bluetooth >> Press SELECT.
3. Scroll to Download PB >> Press SELECT.
4. Scroll to select the desired cell phone >> Press SELECT.
For Android cell phones, you may also download your cell phone directory to your DS6671/DS6672/DS667V via the VTech Contact Share application.
Go to http://www.vtechphones.com/app_contact_share for application download.

Using the handset menu
1. Press MENU when the phone is not in use.
2. Press until the screen displays the desired feature menu.
3. Press SELECT to enter that menu.
   • To return to the previous menu, press CANCEL.
   • To return to idle mode, press and hold CANCEL.

Telephone settings
Default settings are indicated by asterisks(*).

Use the Clr voicemail feature when the telephone indicates there is new voicemail but there is none. For example, when you have accessed your voicemail while away from home. The Clr voicemail feature only turns off the indicators; it does not delete your voicemail messages. As long as you have new voicemail messages, your telephone service provider continues to send the signal that turns on the indicators.

The following are some of the telephone features you may wish to set. Refer to Telephone settings in the online User's manual for detailed instructions for setting all telephone features.

Set date and time
If you subscribe to caller ID service, the day, month and time are set automatically with each incoming call. You can also set the date and time manually.
1. Press MENU when the handset is not in use.
2. Scroll to Set date/time >> Press SELECT.
3. Enter the month, date and year >> Press SELECT.
4. Enter the hour and minute.
5. Scroll to choose AM or PM >> Press SELECT.
Ringer volume
You can adjust the ringer volume level, or turn the ringer off.
1. Press MENU when the handset is not in use.
2. Scroll to Ringers >> Press SELECT twice.
3. Scroll to adjust the volume >> Press SELECT.

If the handset ringer volume is set to off, that handset is silenced for all incoming calls except paging tone.

Quiet mode
You can turn on the quiet mode for a period of time. During this period, all tones (except paging tone) and call screening are muted. When you turn on the quiet mode, the answering system turns on automatically.
1. Press and hold #/viv when the handset is not in use.
2. Use the dialing keys (0-9) to enter the duration >> Press SELECT to save.
   • To turn off the quiet mode, press and hold #/viv when the handset is not in use.

Telephone operation

Make a home call
- Press #/HOME or 0 and then dial the telephone number.
- Press  on the headset to join the call. Hang up the handset at any time to leave the call and the handset continues the call.

Make a cell call
1. Press #/CELL 1 or #/CELL 2.
2. Enter the telephone number >> Press the corresponding #/CELL key to dial.
- Press  on the headset to join the call. Hang up the handset at any time to leave the call and the handset continues the call.

While using the cell line, place your cell phone closer to the telephone base, and make sure that there are no physical obstacles between the telephone base and the cell phone, such as large furniture or thick walls.

Answer a home/cell call
- Press #/HOME, #/CELL 1/#/CELL 2, or any dialing key.
- Press  on the headset.

End a home/cell call
- Press OFF on the handset or put the handset to the telephone base or charger.
- Press  on the headset or put the headset back on the base.

Speakerphone
- During a call, press  to switch between the speakerphone and handset earpiece.

Volume
- During a call, press VOLUME/+ or VOLUME/- on the handset, or +/-volume on the side of the headset to adjust the listening volume.

The headset, handset earpiece and speakerphone volume settings are independent.

Mute
The mute function allows you to hear the other party but the other party cannot hear you.
1. During a call, press MUTE. The handset displays Muted.
2. Press MUTE again to resume the conversation.

Call waiting
When you subscribe to call waiting service from your telephone service provider, you hear an alert tone if there is an incoming call while you are on another call.
- For a home call, press FLASH to put the current call on hold and take the new call, or switch back and forth between calls.
- For a cell call, press #/CELL 1/#/CELL 2 to put the current call on hold and take the new call, or switch back and forth between calls.

Temporary ringer silencing
When the telephone is ringing, you can temporarily silence the ringer of the handset without disconnecting the call. The next call rings normally at the preset volume.
- Press OFF, MUTE or #/quiet on the handset. displays and Ringer muted displays briefly.
- Press /VOL on the telephone base.
- Press MUTE on the headset.
Find handset
Use this feature to find all system handsets and headset.

To start paging:
- Press [FIND HANDSET] on the telephone base. All idle handsets ring and display ** Paging **. The headset rings and blinks in blue.

To end paging:
- Press /HOME, CANCEL or any dialing key on the handset.
- Place the handset in the telephone base or charger.
- Press on the headset.

Do not press and hold [FIND HANDSET] for more than four seconds. It may lead to deregistration.

Redial list
Each handset stores the last 10 telephone numbers dialed.

To review and dial a number from the redial list:
1. Press REDIAL when the phone is not in use.
2. Press , or REDIAL repeatedly until the desired entry displays.
3. Press /HOME, CELL 1 or CELL 2 to dial.

To delete a redial entry:
When the desired redial entry displays, press DELETE.

Join a call in progress
You can use up to four system handsets at a time. You can buy additional expansion handsets (DS6071/DS607V) for this telephone base. You can register up to twelve devices to the telephone base, including a maximum of two cordless headsets.

- When a handset is on a call, press /HOME or the corresponding CELL key on another handset to join the call. Press OFF to exit the call. The call continues until all devices hang up.
- Press on the headset to join the call. Press again to exit the call. The call continues until all devices hang up.

Push-to-talk (PTT)
You can directly broadcast messages from one handset to the speakerphone of one or multiple handsets.

To start a PTT communication:
1. Press PUSH TO TALK when the phone is not in use.
2. Scroll to a desired handset or Group >> Press SELECT.
3. Only one handset can talk at a time.
4. Press and hold PUSH TO TALK while you are talking. Release PUSH TO TALK to let the other party respond.

Intercom
Use the intercom feature for conversations between two handsets.

1. Press MENU on your handset when not in use.
2. Scroll to Intercom >> Press SELECT >> Scroll to the destination handset number >> Press SELECT.
3. To answer the intercom call, press /HOME, CELL 1/CELL 2, or any dialing keys on the destination handset.
4. To end the intercom call, press OFF or place the handset back in the telephone base or charger.

Phonebook
Your phone has three phonebooks, one home phonebook and two cell phonebooks, which are shared by all system handsets. The home phonebook stores up to 200 contacts and each cell phonebook stores up to 1000 contacts.

To add a directory entry to the home phonebook:
1. Press MENU when the phone is not in use.
2. Scroll to Phonebook >> Press SELECT twice.
3. Scroll to Add contact >> Press SELECT.
4. Enter the number >> Press SELECT to move to the name.
5. Enter the name. Additional key presses show other characters of that particular key.
6. Press SELECT to save.

While entering numbers and names, you can:
- Press DELETE to erase a digit or character.
- Press and hold DELETE to erase the entire entry.
- Press ← or → to move the cursor to the left or right.
- Press and hold PAUSE to insert a dialing pause (for entering phone numbers only).
- Press Tone/Ans A to switch the character between upper and lower case (for entering names only).
- Press 0 to add a space (for entering names only).

To review and dial from the phonebook:
Entries are sorted alphabetically.
1. Press MENU when the phone is not in use.
2. Scroll to Phonebook >> Press SELECT.
3. Scroll to the desired phonebook >> Press SELECT twice.
4. Scroll to browse through the phonebook, or start a name search.
5. When the desired entry appears, press HOME, CELL 1 or CELL 2 to dial.

To delete a phonebook entry:
1. When the desired entry displays, press DELETE.
2. When the handset displays Delete contact?, press SELECT.

To remove an entire cell phonebook:
1. Press MENU when the phone is not in use.
2. Scroll to Phonebook >> Press SELECT.
3. Scroll to the desired phonebook >> Press SELECT.
4. Scroll to Remove PB >> Press SELECT.
5. When the handset displays Remove PB?, press SELECT.

Caller ID

This product supports caller ID services provided by most telephone service providers. Depending on your service subscription, you may see the caller’s name, number, date and time of calls that are sent by your telephone service provider after the first or second ring.

Caller ID log

The caller ID log stores up to 50 entries. If you answer a call before the caller information appears, it will not be saved in the caller ID log.

- The handset displays XX Missed calls when there are calls that have not been reviewed in the caller ID log.
- If you want to erase the missed call indicator, press and hold CANCEL on the idle handset.

To review and dial a number in the caller ID log:
1. Press CID when the phone is not in use.
2. Scroll to browse through the caller ID log. When the desired entry appears:
   - Press #/ or repeatedly to show different dialing options.
   - Press 1 repeatedly if you need to add or remove 1 in front of the phone number.
3. Press HOME, CELL 1 or CELL 2 to dial the displayed number.

To save a caller ID log entry to the home phonebook:
1. When the desired caller ID log entry displays, press SELECT.
2. Modify the number when necessary >> Press SELECT.
3. Modify the name when necessary >> Press SELECT to save.

To delete a caller ID log entry:
- When the desired caller ID log entry displays, press DELETE.

To delete all caller ID log entries:
1. Press MENU when the phone is not in use.
2. Scroll to Caller ID log >> Press SELECT.
3. Scroll to Del all calls >> Press SELECT twice.

About answering system and voicemail

Your telephone has separate indicators for two different types of voice messages: those left on the built-in answering system and those left at your telephone service provider’s voicemail. Each alerts you to new messages differently.

- If XX new messages displays on the handset and the message window on the telephone base flashes, there are messages recorded on the built-in answering system. It can record up to 99 messages, depending on the length of each message. Each message can be up to three minutes in length. The total recording time is approximately 14 minutes.
- If New voicemail displays on the handset, your telephone service provider is indicating that it has new voicemail for you. Contact your telephone service provider for more information on how to access your voicemail.
Answering system settings

Default settings are indicated by asterisks (*).

Set number of rings
You can set the answering system to answer an incoming call after 2, 3, 4, 5 or 6 rings; or toll saver. If you choose toll saver, the answering system answers a call after 2 rings when you have new messages, or after 4 rings when you have no new messages.

1. Press MENU when the phone is not in use.
2. Scroll to Answering sys >> Press SELECT.
3. Scroll to Ans sys setup >> Press SELECT.
4. Scroll to # of rings >> Press SELECT.
5. Scroll to choose 2, 3, 4, 5, 6 or Toll saver >> Press SELECT.

Record your own announcement
You can use the preset announcement to answer calls, or replace it with your own recorded announcement. It can be up to 90 seconds in length.

1. Press MENU when the phone is not in use.
2. Scroll to Answering sys >> Press SELECT three times.
3. The handset announces, "Record after the tone. Press 5 when you are done."
After the tone, speak towards the handset microphone. Press 5 when done.

Answering system operation

Turn the answering system on or off
The answering system must be turned on to answer and record messages.
- Press AANS ON on the telephone base to turn the built-in answering system on or off.

Message playback at the telephone base
Press »/PLAY when the phone is not in use.

Options during playback:
- Press ▼/VOL or ▲/VOL to adjust the speaker volume.
- Press ▶/SKIP to skip to the next message.
- Press ◀/REPEAT to repeat the playing message. Press ◀/REPEAT twice to listen to the previous message.
- Press X/DELETE to delete the playing message. The system advances to the next message.
- Press ▶/STOP to stop.

Delete all messages at the telephone base
Press X/DELETE twice when the phone is not in use.

Call intercept
If you want to talk to the person whose message is being recorded, press ◊/HOME on the handset, or press ◊ on the headset.

Expand your telephone system
You can add new handsets (DS6071/DS607V, purchased separately) and new headset (IS6100, purchased separately) to your telephone system. This telephone system accommodates up to 12 devices, including a maximum of two headsets. For more details, refer to the user's manual that comes with your DS6071/DS607V new handset and IS6100 new headset respectively.
Troubleshooting

If you have difficulty with your telephone, please try the suggestions below. For customer service, visit our website at www.vtechphones.com or call 1 (800) 595-9511. In Canada, go to www.vtechcanada.com or call 1 (800) 267-7377.

I cannot add and connect my cell phone to the telephone base.

- Make sure you have cellular coverage.
- Make sure your cell phone is compatible with your DS6671/DS6672/DS667V. Check the Bluetooth compatibility list at www.vtechphones.com.
- Make sure the Bluetooth function of your cell phone is turned on. See the user’s manual of your cell phone for more information.
- Make sure that your Bluetooth cell phone is not connected to any other Bluetooth device.
- To connect your cell phone, make sure that your cell phone is connected and active on the device list.
- Remove VTech DS6671/VTech DS6672/VTech DS667V from your cell phone’s handsfree device history list (see the user’s manual of your cell phone for more information).
- Carefully follow the pairing instructions on page 6 and make sure that your cell phone is not connected to any other Bluetooth device.
- Turn off your cell phone, then turn it on again.
- For some cell phones, you must authorize VTech DS6671/VTech DS6672/VTech DS667V device in your cell phone’s Bluetooth feature. See the user’s manual of your cell phone for more information.
- Manually connect your cell phone to VTech DS6671/VTech DS6672/VTech DS667V. Refer to the user’s manual of your cell phone for more information.
- Reset the telephone base. Unplug the unit’s electrical power. Wait for approximately 15 seconds, then plug it back in. Repeat the above suggestions.

The PIN on the telephone base does not work.

- Make sure you enter the correct PIN. The default PIN is 0000.

My telephone does not work at all.

- Make sure the battery is installed and charged correctly. For optimum daily performance, return the handset to the telephone base or charger after use.
- Make sure the power adapter is securely plugged into an outlet not controlled by a wall switch.
- Make sure the telephone line cord is plugged firmly into the telephone base and the wall jack.
- Unplug the electrical power to the telephone base. Wait for approximately 15 seconds, then plug it back in. Allow up to one minute for the cordless handset and telephone base to synchronize.
- Charge the handset battery in the handset for up to 12 hours.
- If the battery is completely depleted, charge the handset for at least 30 minutes before use.
- Remove the battery and then install it again. If that still does not work, it may be necessary to purchase a new battery.
- Disconnect the telephone base from the telephone wall jack and plug in a working telephone. If the other telephone does not work, the problem is probably in the wiring or telephone service. Contact your telephone service provider.
- If you have changed your telephone service to digital service from a cable company or a VoIP service provider, the telephone line may need to be re-wired to allow all existing telephone jacks to work. Contact your service provider for more information.
- Make sure you enter the correct PIN. The default PIN is 0000.

The display shows No line. I cannot hear the dial tone.

- Disconnect the telephone line cord from your telephone and connect it to another telephone. If there is no dial tone on that other telephone either, then the telephone line cord may be defective. Try installing a new telephone line cord.
- If changing telephone line cord does not help, the wall jack (or the wiring to this wall jack) may be defective. Contact your telephone service provider.
- If you may be using a new cable or VoIP service, the existing telephone jacks in your home may no longer work. Contact your service provider for solutions.

The display shows To register HS, see manual. The handset does not work at all.

- The handset is deregistered from the telephone base. Place the handset in the telephone base to register it back. The handset shows HANDSET X Registered and you hear a beep when the registration process completes. This process takes about 90 seconds to complete.
- The handset is deregistered from the telephone base. Place the handset in the telephone base to register it back. The handset shows HANDSET X Registered and you hear a beep when the registration process completes. This process takes about 90 seconds to complete.

The light on the handset flashes slowly and alternately in red and blue. The handset does not work at all.

- The handset is deregistered from the telephone base. Follow the instructions below to register the handset back to the telephone base.
  1. Press and hold FIND HANDSET on the telephone for about four seconds until the red IN USE light turns off.
  2. Immediately replace the handset in the telephone base. The red IN USE light on the telephone base turns off.
- If the light on the handset turns red when it is registered but not fully charged, or turns blue if it is registered and fully charged. This process takes about 60 seconds to complete.
- The answering system does not record messages.
  - Make sure the answering system is on.
  - Make sure the memory of the answering system is not full. When the answering machine memory is full, it does not record new messages until some old messages are deleted.
  - If you subscribe to voicemail service, change the number of rings so that your answering system answers before your voicemail answers. To determine how many rings activate your voicemail, contact your telephone service provider.
  - If there is a fax machine connected to the same telephone line, try disconnecting the fax machine. If that still does not work, the problem is probably to do with your telephone. Contact your telephone service provider for more information.

I accidentally changed the phone to English.

- Press MENU, then enter 364 2 to reset the language to English.

Common cure for electronic equipment.

- If the telephone is not responding normally, put the cordless handset in the telephone base. If this does not fix the problem, do the following (in the order listed):
  1. Disconnect the power to the telephone base.
  2. Disconnect the battery on the cordless handset.
  3. Wait a few minutes before connecting power to the telephone base.
  4. Install the battery again and place the cordless handset in the telephone base.
  5. Wait for the cordless handset to synchronize with the telephone base. Allow up to one minute for this to take place.
**Important safety instructions**

When using your telephone equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury, including the following:

1. Read and understand all instructions.
2. Follow all warnings and instructions marked on the product.
3. Unplug this product from the wall outlet before cleaning. Do not use liquid or aerosol cleaners. Use a damp cloth for cleaning.
4. Do not use this product near water such as near a bath tub, wash bowl, kitchen sink, laundry tub or swimming pool, or in a wet basement or similar locations.
5. Do not place this product on an unstable table, shelf, stand or other unstable surfaces.
6. Avoid placing the telephone system in places with extreme temperature, direct sunlight, or other external influences. Protect your phone from moisture, dust, corrosive liquids and fumes.

7. Slots and openings in the back or bottom of the telephone base and handset are provided for ventilation. To protect them from overheating, these openings must not be blocked by placing the product on a soft surface such as a bed, sofa or rug. This product should never be placed near or over a radiator or heater register. This product should not be placed in any area where proper ventilation is not provided.
8. This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply in your home or office, consult your dealer or local power company.
9. Do not allow anything to rest on the power cord. Do not install this product where the cord may be walked on.
10. Never push objects of any kind into this product through the slots in the telephone base or handset because they may touch dangerous voltage points or create a short circuit. Never spill liquid of any kind on the product.
11. To reduce the risk of electric shock, do not disassemble this product, but take it to an authorized service facility. Opening or removing parts of the telephone base or handset other than specified access doors may expose you to dangerous voltages or other risks. Incorrect reassembling can cause electric shock when the product is subsequently used.
12. Do not overload wall outlets and extension cords.

13. Unplug this product from the wall outlet and refer servicing to an authorized service facility under the following conditions:
   - When the power supply cord or plug is damaged or frayed.
   - If liquid has been spilled onto the product.
   - If the product has been exposed to rain or water.
   - If the product does not operate normally by following the operating instructions. Adjust only those controls that are covered by the operation instructions. Improper adjustment of other controls may result in damage and often requires extensive work by an authorized technician to restore the product to normal operation.
   - If the product has been dropped and the telephone base and/or handset has been damaged.
   - If the product exhibits a distinct change in performance.

14. Avoid using a telephone (other than cordless) during an electrical storm. There is a remote risk of electric shock from lightning.
15. Do not use the telephone to report a gas leak in the vicinity of the leak. Under certain circumstances, a spark may be created when the adapter is plugged into the power outlet, or when the handset is replaced in its cradle. This is a common event associated with the closing of any electrical circuit. The user should not plug the phone into a power outlet, and should not put a charged handset into the cradle. If the phone is located in an environment containing concentrations of flammable gases, there is adequate ventilation. A spark in such an environment could create a fire or explosion. Such environments might include: medical use of oxygen without adequate ventilation; industrial gas (cleaning solvents; gasoline vapors; etc.); a gas leak; etc.
16. Only put the handset of your telephone next to your ear when it is in normal talk mode.
17. The power adapters are intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet outlet.
18. For pluggable equipment, the socket-outlet shall be installed near the equipment and shall be easily accessible.

**SAVE THESE INSTRUCTIONS**

**Battery**
- CAUTION: Use Only Supplied Battery.
- Do not dispose of the battery in a fire. Check with local waste management codes for special disposal instructions.
- Do not open or mutilate the battery. Released electrolyte is corrosive and may cause burns or injury to the eyes or skin. The electrolyte may be toxic if swallowed.
- Exercise care in handling batteries in order not to create a short circuit with conductive materials. A short circuit can create enough current to cause a fire.
- Charge the battery provided with this product only in accordance with the instructions and limitations specified in this manual.

**Precautions for users of implanted cardiac pacemakers**

Cardiac pacemakers (applies only to digital cordless telephones):

Wireless Technology Research, LLC (WTR), an independent research entity, led a multidisciplinary evaluation of this cordless telephone system and related portable wireless devices by supported cardiac pacemakers. Supported by the U.S. Food and Drug Administration, WTR recommends to physicians that:

**Pacemaker patients**
- Should keep wireless telephones at least six inches from the pacemaker.
- Should NOT place wireless telephones directly over the pacemaker, such as in a breast pocket, when it is turned ON.
- Should use the wireless telephone at the ear opposite the pacemaker. WTR's evaluation did not identify any risk to bystanders with pacemakers from other persons using wireless telephones.

WTR's evaluation did not identify any risk to bystanders with pacemakers from other persons using wireless telephones.

**Operating range**

This cordless telephone operates with the maximum power allowed by the Federal Communications Commission (FCC). The FCC has set and telephone base can communicate over only a certain distance, which can vary with the locations of the telephone base and handset, the weather, and the layout of your home or office.

When the handset is out of range, the handset displays Out of range OR Base no power.

If there is a call while the handset is out of range, it may not ring, or if it does ring, the call may not connect well when you press HOME. Move closer to the telephone base, then press HOME to answer the call.

If the handset moves out of range during a telephone conversation, there may be interference. To improve reception, move closer to the telephone base.
This product meets the applicable Innovation, Science and Economic Development Canada technical specifications.

The Ringer Equivalence Number (REN) for this terminal equipment is .0. The REN indicates the maximum number of devices subject only to the requirement that the sum of the RENs of all the devices does not exceed five.

The Ringer Equivalence Number (REN) for this product is encoded as the 6th and 7th characters in the product identifier in the format US:AAAEQ##TXXXX. This identifier must be provided to your telephone service provider.

This equipment complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

WARNING: Changes or modifications to this equipment not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

If this equipment causes harm to the telephone network, the telephone service provider may temporarily disconnect service. The telephone service provider is required to notify you if such changes are planned. Your telephone service provider may make changes in its facilities, equipment, operation, or procedures that could affect the proper functioning of this product. The telephone service provider is required to notify you if such changes are planned. If this equipment is causing harm to the telephone network, the telephone service provider may temporarily discontinue service. If advance notice is not practical, you will be notified as soon as possible. You will be given the opportunity to correct the problem and the telephone service provider is required to inform you of your right to file a complaint with the FCC. Your telephone service provider may make specific terminal change announcements to customers. A correlation between the telephone jack and modular plug is provided with this product. It is designed to be connected to a compatible modular jack that is also compliant. An RJ11 jack should normally be used for connecting to a single line and an RJ14 jack for two lines. See the installation instructions in the user's manual.

The Ringing Equivalence Number (REN) of this product is .0. This number may vary depending on the number and category of devices that you connect to your telephone line. If you connect .0 or more RENs together, you may experience a reduced volume of the ringer.

The RBRC® seal

The RBRC® seal on the nickel-metal hydride battery indicates that VTech Communications, Inc. is voluntarily participating in an industry program to collect and recycle these batteries at the end of their useful lives, when taken out of service within the United States and Canada.

The RBRC® program provides a convenient and safe recycling option to consumers. An alternative to placing used nickel-metal hydride batteries into the trash or municipal waste, which may be illegal in your area.

VTech’s participation in RBRC® makes it easy for you to drop off the spent battery at local retailers found to comply with this FCC rule and participating in the RBRC® program or at authorized VTech product service centers. Please call 1-800-BATTERY® for information on Ni-MH battery recycling and disposal bans/restrictions in your area.

This program in this program is part of its commitment to protecting our environment and conserving natural resources.

FCC and ACTA regulations

FCC Part 68 and ACTA

This equipment complies with Part 68 of the FCC rules and with technical requirements adopted by the Administrative Council for Terminal Attachments (ACTA). The label on the back or bottom of this equipment contains, among other things, a product identifier in the format US:AAAEQ##TXXXX. This identifier must be provided to your telephone service provider upon request.

The plug and jack used to connect this equipment to premises wiring and the telephone network must comply with applicable FCC Part 68 rules and technical requirements established by the telephone industry. A compliant modular plug and modular jack is provided with this product. It is designed to be connected to a compatible modular jack that is also compliant. An RJ11 jack should normally be used for connecting to a single line and an RJ14 jack for two lines. See the installation instructions in the user's manual.

The Ringer Equivalence Number (REN) is used to determine how many devices you may connect to your telephone line. Check with your telephone service provider to learn what your REN is before adding any new devices to your telephone line. The sum of all RENs should be five (.0) or less. For more information, please contact your telephone service provider.

This equipment may not be used with Party Lines. If you have specially wired alarm dialing equipment connected to your telephone line, ensure the connection of this equipment does not disable your alarm equipment. If you have questions about what will disable alarm equipment, consult your telephone service provider or a qualified installer. If this equipment causes harm to the telephone network, the telephone service provider may temporarily discontinue service. If advance notice is not practical, you will be notified as soon as possible. You will be given the opportunity to correct the problem and the telephone service provider is required to inform you of your right to file a complaint with the FCC. Your telephone service provider may make specific terminal change announcements to customers. A correlation between the telephone jack and modular plug is provided with this product. It is designed to be connected to a compatible modular jack that is also compliant. An RJ11 jack should normally be used for connecting to a single line and an RJ14 jack for two lines. See the installation instructions in the user's manual.

FCC Part 15

NOTE: This device has been tested and found to comply with the requirements listed in Part 15 of the FCC rules. These requirements are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

WARNING: Changes or modifications to this equipment not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

If this equipment is causing harm to the telephone network, the telephone service provider may temporarily discontinue service. If advance notice is not practical, you will be notified as soon as possible. You will be given the opportunity to correct the problem and the telephone service provider is required to inform you of your right to file a complaint with the FCC. Your telephone service provider may make specific terminal change announcements to customers. A correlation between the telephone jack and modular plug is provided with this product. It is designed to be connected to a compatible modular jack that is also compliant. An RJ11 jack should normally be used for connecting to a single line and an RJ14 jack for two lines. See the installation instructions in the user's manual.

The term "IC" before the certification/registration number only signifies that the Industry Canada technical specifications were met.

The Ringer Equivalence Number (REN) for this terminal equipment is 1.0. The REN indicates the maximum number of devices that may be connected to a telephone interface. The termination of an interface may consist of any combination of devices subject only to the requirement that the sum of the RENs of all the devices does not exceed five.

This product meets the applicable Innovation, Science and Economic Development Canada technical specifications.
Mesures de sécurité importantes
Afin de réduire les risques d'incendie, de blessures corporelles ou d'électrocution, suivez toujours ces mesures préventives de base lorsque vous utilisez votre téléphone.

1. Lisez et comprenez bien toutes les instructions.
2. Observez tous les avertissements et mises en garde inscrites sur l'appareil.
4. N'utilisez pas ce téléphone sur un chariot, support ou étagère instables. L'appareil pourrait tomber et être sérieusement endommagé.
5. Évitez de mettre le combiné du téléphone dans les endroits soumis à une température extrême, à la lumière directe du soleil ou à proximité immédiate d'autres appareils électriques ou électroniques. Protégez votre téléphone contre les sources d'humidité, la poussière, les vapeurs et les liquides corrosifs.
6. Le compartiment pour les piles de l'appareil est une source d'oxygène. En certaines circonstances, il peut y avoir la possibilité d'un incendie ou d'une explosion. Ne laissiez pas le téléphone au contact d'une flamme nue ou dans un four chaud.
7. Ne laissez pas cet appareil à une température de moins de 3°C ou d'avantage de 45°C. L'appareil ne peut être correctement réglé à des températures extrêmes. L'endommagement peut survenir à des températures inférieures à 3°C ou supérieures à 45°C.
8. N'utilisez pas ce téléphone dans des endroits où vous tenez un anesthésique ou des médicaments. L'appareil pourrait être à l'origine d'une électrocution lors d'une utilisation incorrecte.

CONSERVEZ CES INSTRUCTIONS

Pile
- MISE EN GARDE : Risque d'explosion si la pile est remplaçée par une pile de types incorrects. Jetez les piles épuisées en respectant les instructions.
- Ne jetez pas la pile au feu. Vériifiez les instructions spécifiques de mise aux rebus auprès des autorités locales sur la manière de jeter les piles.
- L'utilisateurs de stimulateurs cardiaques ne devraient pas mettre une pile non rechargeable de type Mignon (AA) ou C dans le combiné sans fil ou le socle du téléphone sans fil. Les piles au lithium qui sont générées par la batterie de l'appareil ne doivent pas être utilisées dans des équipements de réception radio se trouvant dans la portée du combiné sans fil. Pour cette raison, vous ne devez pas utiliser de piles au lithium dans un combiné sans fil ou un socle de téléphone sans fil de cette manière.
- Ne déposez rien sur le cordon d'alimentation. Installez cet appareil dans un endroit où personne ne pourra trébucher sur le cordon d'alimentation ni le cordon téléphonique modulaire.

Les simulateurs cardiaques implantés dans l'organisme
- Les simulateurs cardiaques (s'applique uniquement aux téléphones numériques sans fil):
- Rechargez la pile incluse avec cet appareil, selon les instructions et limites spécifiées dans ce guide d'utilisation.
- Il est conseillé d'éloigner le téléphone sans fil du téléviseur ou du magnétoscope afin de réduire possiblement les interférences. Pour réduire ou prévenir de telles interférences, ne placez pas le socle du téléphone sans fil près ou sur un téléviseur ou magnétoscope. S'il y a présence de parasites, il est conseillé d'éloigner le téléphone sans fil de l'appareil (téléviseur ou magnétoscope) afin de réduire possiblement les interférences. De plus, ne placez pas l'appareil dans une unité murale ou un cabinet fermé qui ne possède pas d'ouverture adéquate.

Sur les équipements de réception radio:
- Les simulateurs cardiaques (s'applique uniquement aux téléphones numériques sans fil):
- N'ouvrez pas et ne mutilez pas la pile. L'électrolyte qui s'en échapperait est corrosif et pourrait causer des brûlures ou des blessures aux yeux ou à la peau. L'électrolyte est toxique si avalé.
- Ne placez pas la pile près de l'œil ou des blessures aux yeux. Ne gardez pas la pile dans la main ou un autre endroit où elle est accessible aux enfants.
- N'ouvrez pas et ne mutilez pas la pile. L'électrolyte qui s'en échapperait est corrosif et pourrait causer des brûlures ou des blessures aux yeux ou à la peau. L'électrolyte est toxique si avalé.
- Le cordon électrique ne doit pas être coupé ou sectionné.
- Les simulateurs cardiaques (s'applique uniquement aux téléphones numériques sans fil):
- N'ouvrez pas et ne mutilez pas la pile. L'électrolyte qui s'en échapperait est corrosif et pourrait causer des brûlures ou des blessures aux yeux ou à la peau. L'électrolyte est toxique si avalé.

Avant d'utiliser un téléphone (autre qu'un sans fil) pendant un orage. Les éclair peuvent être à l'origine d'une électrocution.
- Si le téléphone est éloigné de la prise murale, il est conseillé de le déconnecter de la prise murale lors d'un orage.
- Si le téléphone est éloigné de la prise murale, il est conseillé de le déconnecter de la prise murale lors d’un orage.
- Si le téléphone est éloigné de la prise murale, il est conseillé de le déconnecter de la prise murale lors d’un orage.
- Si le téléphone est éloigné de la prise murale, il est conseillé de le déconnecter de la prise murale lors d’un orage.
- Si le téléphone est éloigné de la prise murale, il est conseillé de le déconnecter de la prise murale lors d’un orage.
- Si le téléphone est éloigné de la prise murale, il est conseillé de le déconnecter de la prise murale lors d’un orage.
- Si le téléphone est éloigné de la prise murale, il est conseillé de le déconnecter de la prise murale lors d’un orage.
- Si le téléphone est éloigné de la prise murale, il est conseillé de le déconnecter de la prise murale lors d’un orage.
the Product operating instructions. This limited warranty extends only to the Consumer for Products purchased and used in the United States of America and Canada.

What will VTech do if the Product is not free from defects in materials and workmanship during the limited warranty period ("Materially Defective Product"). During the limited warranty period, VTech’s authorized service representative will repair or replace at VTech’s option, without charge, a Materially Defective Product. If we repair the Product, we may use new or refurbished replacement parts. If we choose to replace the Product, we may replace it with a new or refurbished Product of the same or similar design. We will retain defective parts, modules, or equipment. Repair or replacement of the Product, at VTech’s option, is your exclusive remedy. VTech will return the repaired or replacement Products to you in working condition. You should expect the repair or replacement to take approximately 30 days.

How long is the limited warranty period? The limited warranty period for the Product extends for ONE (1) YEAR from the date of purchase. If VTech repairs or replaces a Materially Defective Product under the terms of this limited warranty, this limited warranty also applies to the repaired or replacement Product for a period of either (a) 90 days from the date the repaired or replacement Product is shipped to you or (b) the time remaining on the original one-year warranty; whichever is longer.

Register online to get an additional 3-month warranty!

What is not covered by this limited warranty? This limited warranty does not cover:

1. Product that has been subjected to misuse, accident, shipping or other physical damage, improper installation, operation or handling, neglect, inundation, fire, water or other liquid intrusion, or unauthorized modification; or
2. Product that has been damaged due to repair, alteration or modification by anyone other than an authorized service representative; or
3. Product to the extent that the problem experienced is caused by signal conditions, network reliability, cable or antenna systems; or
4. Product to the extent that the problem is caused by use with non-VTech accessories; or
5. Product whose warranty/quality stickers, product serial number plates or electronic serial numbers have been removed, altered or rendered illegible; or
6. Product purchased, used, serviced, or shipped for repair from outside the United States of America or Canada, or used for commercial or institutional purposes (including but not limited to Products used for rental purposes); or
7. Product returned without a valid proof of purchase (see item 2 below); or
8. Charges for installation or adjustment of customer controls, and installation or repair of systems outside the unit.

How do you get warranty service? To obtain warranty service in the USA, please visit our website at www.vtechphones.com or call 1 (800) 595-9511. In Canada, go to www.vtechcanada.com or call 1 (800) 267-7377.

NOTE: Before calling for service, please review the user’s manual - a check of the Product’s controls and features may save you a service call. Except as provided by applicable law, you assume the risk of loss or damage during transit and transportation and are responsible for delivery or handling charges incurred in the transport of the Product(s) to the service location. VTech will return repaired or replaced Product under this limited warranty. Transportation, delivery or handling charges are prepaid. VTech assumes no risk for damage or loss of the Product in transit. If the Product failure is not covered by this limited warranty, you shall VTech be liable for any indirect, special, incidental, consequential, or similar damages (including, but not limited to lost profits or revenue, inability to use the Product or other associated equipment, the cost of substitute equipment, and claims by third parties) resulting from the use of this Product. Some states/provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

Limitations: Implied warranties, including those of fitness for a particular purpose and merchantability (an unwritten warranty that the Product is fit for ordinary use) are limited to one year from the date of purchase. Some states/provinces do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. In no event shall VTech be liable for any indirect, special, incidental, consequential, or similar damages (including, but not limited to lost profits or revenue, inability to use the Product or other associated equipment, the cost of substitute equipment, and claims by third parties) resulting from the use of this Product. Some states/provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

Please retain your original sales receipt as proof of purchase.
