VTech 4 Port N300 Wi-Fi Router

VNT832

Connect your home office or small business with the VTech 4 Port N300 Wi-Fi Router. Its ultra-fast 300 Mpbs wireless speed allows you to stream HD video or surf the internet over one local network—without interruption. Plus, advanced wireless security, like a built-in firewall, secures your internet traffic and guards you against viruses.

VNT832 Key Features

Wireless N speed
The router utilizes IEEE 802.11n for 300 Mbps speed, which is ideal for streaming HD video or surfing the web on Wi-Fi-enabled devices.

Wireless security
Keep your network safe with multiple security options at your fingertips, including a WPS button, WEP 64/128 and WPA2 (AES)/ WPA2 mixed.

4x 10/100 Mbps LAN ports
Share your home or small office internet connection over one local network.

QoS with traffic shaping
Choose the bandwidth management method that's best for you—LAN, port, IP or protocol with four priorities.

Advanced network security options
A built-in firewall helps you stay guarded against viruses. Secure your internet traffic with MAC address, IP address, ports or URLs with keyword filtering.

Denial of service (DoS) prevention
Enable DoS prevention to keep your network running smooth. Choose between these options: anti-DoS attack, anti-port scan, anti-TCP/UDP scan, etc.
