## **VTech Unveils New HD Wi-Fi Cameras and Touchscreen Monitors in Award-Winning Baby Monitor Line**

*New video monitors feature motion alerts and free live remote access via smartphone and tablet app*

BEAVERTON, Ore., Feb. 15, 2017 – Meeting the needs of busy families looking to stay connected to their little ones from anywhere, today VTech Communications, Inc. announced the addition of two new high-definition Wi-Fi baby monitor cameras to its award-winning baby monitor portfolio. The VM991 Pan & Tilt Expandable Video Monitor and the VM981 Expandable Video Monitor are each supported with a touchscreen parent unit and the new [MyVTech Baby](#) app for [Apple iOS](#) and [Android](#).

“With free, secure, live remote access from a smartphone or tablet, our new baby monitors provide families with the comfort of knowing they always have eyes and ears on their baby, even while on the go,” said Matt Ramage, senior vice president of sales and product management, VTech. “Every family approaches parenting differently, and we’re excited to expand our baby monitor offerings to include modern features that fit a busy lifestyle.”

### **VTech VM981 Wi-Fi HD Video Monitor and Camera**

The easy-to-install VM981 baby monitor gives families peace of mind with an included high-definition color touchscreen parent unit and remote access via the new MyVTech Baby app for Apple iOS and Android. The fixed-position camera can be manually positioned and includes HD video for crystal-clear viewing. Motion alerts allow parents to stay connected to their baby in real time via secure and encrypted video and sound transmissions to a smartphone or tablet. With night vision and support for up to 9 **VTech VM980 Wi-Fi Accessory HD Video Cameras**, the VM981 offers parents the flexibility to grow the system with their family.

### **VTech VM991 Wi-Fi HD Video Monitor and Pan & Tilt Camera**

Families who are on the go can check on little ones from virtually anywhere with the VTech VM991 Wi-Fi Pan & Tilt Camera, thanks to the included 5-inch color touchscreen monitor and real-time motion alerts on the MyVTech Baby app. The VM991’s HD camera uses the home Wi-Fi connection to securely capture video and sound, with the option to record right to the camera with the addition of an SD card. Night vision makes it easy to check on a sleeping baby, and two-way talk lets parents soothe their baby from anywhere. Families can expand the system with up to 9 **VTech VM990 Wi-Fi Accessory Pan & Tilt HD Video Cameras** for even more coverage at home.

From a single easy-to-install camera to check on the newest addition to the family to pan-and-tilt capabilities to keep track of a toddler on the move, and the ability to expand either camera to watch children in more than one room, the latest VTech baby monitor line offers versatility for every home.
