Digital Audio Monitor

CONGRATULATIONS

on purchasing your new VTech product. Before using this product, please read Important safety

This manual has all the feature operations and troubleshooting necessary to install and operate your new VTech product. Please review this manual thoroughly to ensure proper installation and operation of this innovative and feature-rich VTech product.

For support, shopping, and everything new at VTech, visit our website at www.vtechphones.com.

WHAT'S IN THE BOX

DM225

Install the parent unit battery The parent unit runs on rechargeable battery or AC power. To continuously monitor your baby, keep the parent unit connected to AC power. With the battery alone, the parent unit

CONNECT AND CHARGE THE BATTERY

can cordlessly run for a short time only.

· Use only the battery supplied with this product.

If the parent unit will not be used for a long time, disconnect and remove the battery to prevent possible leakage

Replace the battery

To replace the battery, unplug the battery connector from the socket, and then pull the battery out of the battery compartment. Follow the steps above to install the battery.

Connect the baby monitor

- · Use only the power adapters supplied with this product.
- Make sure the baby monitor is not connected to an electric outlet that is controlled by a switch. Connect the power adapters in a vertical or floor mount position only. The adapters' prongs are not designed to hold the weight of baby monitor, so do not connect them to any ceiling, under-the-table, or cabinet outlets. Otherwise, the adapters may not properly connect to the outlets
- Make sure the parent unit, the baby unit and the power adapter cords are out of reach of children. With audio reminder feature preset to ON, the parent unit plays an audio reminder when it is connected to a baby unit.

Charge the parent unit battery

When you have connected the parent unit and installed its battery for the first time or after power outage, the parent unit powers on automatically. The battery icon indicates the battery status (see the following table).

This baby monitor is intended as an aid. It is not a substitute for proper adult supervision, and should not be used as such

Test your audio monitor

BEFORE USE

You may test the baby monitor before initial use, and at regular times thereafter.

(1) CAUTION

- For hearing protection, make sure the parent unit is more than 6.5 feet (2 meters) away from the baby unit. If you hear any high-pitched noise, move the parent unit further until the noise stops. You can also press **VOL** ▼ on the parent unit to lower or
- Make sure your baby unit and parent unit are on.
- 2. Speak towards the microphone of the baby unit. You will hear the sound at the parent unit, and see the visual sound indicators light up.

■ Note

When the parent unit displays NOT LINKED and T flashes, move the parent unit closer to the baby unit (observe the minimum distance of 6.5 feet/2 meters).

Increase the speaker volume of the parent unit if you cannot hear the sounds transmitted from the

Positioning the baby monitor

① CAUTION

- Keep the baby units out of the reach of your baby. Never place or mount the baby units inside the baby's crib or playpen.
- 1. Place the baby units more than 3 feet (1 meter) away from your baby.
- 2. Place the parent unit more than 6.5 feet (2 meters) away from the baby unit.

- The parent unit battery is fully charged after 11 hours of continuous charging.
- · It takes longer to charge the battery when the parent unit is turned on. To shorten the charging time, turn the parent unit off while charging
- The standby time varies depending on the sensitivity level you set, your actual use and the age of the battery.

Battery indicators	BATTERY STATUS	Action	
The battery icon is off.	No battery is installed but operates using AC powerOR- Abnormal battery is detected.	Install the parent unit battery. Charge without interruption (at least 30 minutes).	
The screen displays LOW BATTERY and . The III light flashes.	The battery has very little charge and may be used for only a short time.	Charge without interruption (about 30 minutes).	
The battery icon becomes solid	The battery is fully charged.	To keep the battery charged, connect it to AC power when not in use.	

(1) CAUTION

- The default volume of your parent unit is level 3. If you experience high-pitched screeching noise from your baby monitor while positioning
- Make sure your baby unit and parent unit are more than 6.5 feet (2 meters) apart, OR - Turn down the volume of your parent unit.

Operating range

The operating range of the baby monitor is up to 1,000 feet (300 meters) outdoors. The actual operating range may vary depending on the environmental conditions, and other interferences such as walls, doors, and other obstructions.

USING THE BABY MONITOR

Power on or off the baby unit

• Press 🖰 to power on the baby unit. The power light turns on. • <u>Press and hold</u> \bullet to power off the baby unit. The power light

Power on or off the parent unit

- Press and hold $\dot{\mathbf{U}}$ to power on the parent unit. The screen turns on.
- Press and hold \odot again to power off the parent unit. The screen turns off.

■ Note

The parent unit powers on automatically once it is connected to power socket or battery installed. The baby unit also powers on automatically once connected to power socket.

Adjust the speaker volume for baby unit

- Press VOL ▲ or VOL ▼ on the baby unit at any time.
- Note
- The speaker of baby unit cannot be muted.

Adjust the speaker volume for parent unit

You can adjust the speaker volume from **VOLUME 1** to **VOLUME 5**, or turn it off. The speaker volume is preset to **VOLUME 3**.

Press VOL ▲ or VOL ▼ when the parent unit is not in use.

When the speaker volume is set to **VOLUME OFF**, the screen displays \P .

USING THE BABY MONITOR (CON'T)

Adjust the sound sensitivity of the baby unit

You can choose to hear sounds from the baby unit all the time, or to hear sounds that exceed a certain level. You can use the parent unit to adjust the microphone sensitivity of your baby unit. The higher the sensitivity level, the more sensitive the baby unit is in detecting sounds for transmitting to the parent unit. The VOX sensitivity level is preset to HIGHEST.

VOX SENSITIVITY LEVEL	Highest	High	Medium	Low	Lowest
DESCRIPTION	The parent unit speaker is constantly on, and you will hear all sounds (including background noises) from your baby's room.	The parent unit speaker turns on for soft babbling and louder sounds from your baby. It remains quiet when your baby sleeps soundly.	The parent unit speaker turns on for loud babbling and louder sounds from your baby. It remains quiet when your baby makes soft sounds.	The parent unit speaker turns on for crying and louder sounds from your baby. It remains quiet when your baby makes soft sounds.	The parent unit speaker turns on for loud crying or screeching sounds from your baby. It remains quiet when your baby makes soft sounds.

- 2. Press **SELECT** to select **VOX LEVEL**.
- 3. Press **VOL** ▲ or **VOL** ▼ to choose the desired sensitivity level.

• To enter the **VOX Level** menu of the parent unit, the baby unit must be turned on.

4. Press **SELECT** to confirm your selection. The screen displays **SAVED** and you hear a confirmation tone. ■ Note

Sound alert If you want the parent unit alerts you with sound, especially when the baby unit detects loud

sounds, you can turn on the sound alert feature. This feature is preset to OFF. Once this feature is on, ((a)) is shown on LCD display. When the visual sound indicator hits the red light range, i.e. the baby unit detects loud sounds, your parent unit beeps and ()

- 2. Press VOL ▲ or VOL ▼ to choose SOUND ALERT, then press SELECT.
- 3. Press VOL ▲ or VOL ▼ to choose ON or OFF.
- 4. Press **SELECT** to confirm your selection. The screen displays **SAVED** and you hear a

■ Note

· The sound alert setting on each parent unit is independent.

Vibration alert

You can set your parent unit to vibrate and alert you, whenever the baby unit detects loud sounds. This feature is preset to **OFF**.

Once this feature is on, a shown on LCD display. When the visual sound indicator hits the red light range, i.e. the baby unit detects loud sounds, your parent unit vibrates and 🖳 flashes.

- 1. Press **MENU**/ ★ when the parent unit is not in use.
- Press VOL ▲ or VOL ▼ to choose VIBE ALERT, then press SELECT.
- 3. Press VOL ▲ or VOL ▼ to choose ON or OFF.
- 4. Press **SELECT** to confirm your selection. The screen displays **SAVED** and you hear a confirmation tone.

· Each time you set the vibration alert to ON, the parent unit vibrates briefly after you press SELECT.

• The vibration alert setting on each parent unit is independent.

Night light

You can turn the night light on or off by pressing -o on the baby unit. When the night light is turned on, ¶ displays on the parent unit screen.

Turn on/off the night light using the baby unit:

- 1. Press o turn on the night light.
- 2. Press o- again to turn off the night light

Turn on/off the night light using the parent unit:

- 2. Press VOL ▲ or VOL ▼ to choose NIGHTLIGHT, then press SELECT. 3. Press VOL ▲ or VOL ▼ to choose ON or OFF.
- 4. Press **SELECT** to confirm your selection. The screen displays **SAVED** and you hear

■ Notes

- · The night light on baby unit operates even when the parent unit battery is out of charge or has been turned off. · If the parent unit lost link, the night light icon on its LCD display will disappear, regardless of the night light status.

You can select a language (English, Spanish or French) to be used in all screen displays. The language is preset to **English**.

- 1. Press **MENU/** ★ when the parent unit is not in use.
- 2. Press VOL ▲ or VOL ▼ to choose LANGUAGE, then press SELECT.
- 3. Press VOL ▲ or VOL ▼ to choose ENGLISH, ESPANOL, or FRANCAIS. 4. Press **SELECT** to confirm your selection. The screen displays **SAVED** and you hear
- Note

· The language setting on each parent unit is independent.

Audio Reminder

With audio reminder feature preset to **ON**, the parent unit plays an audio reminder when it is connected to a baby unit. It reminds you to place the baby unit at least 3 feet (1 meter) away from your baby, and keep the cords out of the reach of children.

- 1. Press **MENU/** ★ when the parent unit is not in use.
- 2. Press VOL ▲ or VOL ▼ to choose REMINDER, then press SELECT.
- 3. Press VOL ▲ or VOL ▼ to choose ON or OFF.
- 4. Press **SELECT** to confirm your selection, and you hear a confirmation tone.

• You can press **VOL** \blacktriangle or **VOL** \blacktriangledown to adjust the volume when the parent unit is playing the reminder. · If the speaker volume of the parent unit is turned off, it will change to the default volume level when the

parent unit plays the reminder

Use this feature to restore to the default settings. Restoring the default settings on one

- parent unit will also reset the shared settings for VOX sensitivity level of the other parent unit.
- 1. Press MENU/ ⇒ when the parent unit is not in use.
- 2. Press VOL ▲ or VOL ▼ to choose SET DEFAULT, then press SELECT. 3. Press VOL ▲ or VOL ▼ to choose YES or NO.
- 4. When you choose YES, press SELECT to confirm your selection, and you hear a confirmation tone. When you choose NO, press SELECT to confirm your selection The screen displays the previous menu.

Talk to the baby unit

You can broadcast messages from a parent unit to the baby unit and the other parent unit. If you have two parent units, you can use both of them at the same time to talk to the baby unit.

- 1. Press and hold TALK on the side of the parent unit. The screen displays TALK when the voice connection to the baby unit is made.
- 2. Speak towards the MIC on the parent unit. Your voice is broadcast to the baby unit and the other parent unit.

■ Notes

- · If you have two parent units, and you use one of them to talk to your baby, your voice will be broadcast to both the baby unit and the other parent unit. The other parent unit displays TALKBACK. However, no sound will transmit from the baby unit to any parent unit during broadcasting.
- · If speaker volume of the parent unit has been turned off before the talk, it will change to default volume level after the talk finished.

Find/page the parent unit

- Use this feature to locate misplaced parent units.
- 1. Press **PAGE** on the baby unit. All idle parent units ring and display **PAGING**.
- 2. To end paging, press any key on the parent unit, or press PAGE on the baby unit.

Paging rings all parent units even if the speaker volume of parent unit is set to VOLUME OFF.

• The baby unit cannot page any parent unit that is turned off, out of range, or talking to the baby unit.

IMPORTANT SAFETY INSTRUCTIONS

Follow all warnings and instructions marked on the product. Adult setup is required.

ming pool, or in a wet basement or shower.

11. Unplug the power cords before replacing batteries.

or over a radiator or heat register.

21. Periodically examine all components for damage.

Precautions for users of implanted cardiac pacemakers

Administration, WTR recommends to physicians that:

Pacemaker patients

Electromagnetic fields (EMF)

Cardiac pacemakers (applies only to digital cordless devices):

monitors, cordless phones, scanners, etc.

When using your equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury, including the following:

Adult serior is required.
 This product is not a substitute for adult supervision of the infant. Supervising the infant is the parent's or caregiver's responsibility. This product could cease operating, and therefore you should not assume it will continue working properly for any given period of time. Further, this is not a medical device and should not be used as such. This product is intended to assist you in supervising your baby.
 Do not use this product near water. For example, do not use it next to a bath tub, wash bowl, kitchen sink, laundry tub

or swimming poor, or in a wer pasement or snower.

6. **CAUTION**: Use only the batteries indicated in this manual. There may be a risk of explosion if a wrong type of battery is used for the parent unit. Use only the supplied rechargeable battery or replacement battery pack (BT166342/BT266342) for the parent unit. Do not dispose of batteries in a fire. They may explode. Dispose of used battery according to the information in **The RBRC*** seal.

Use only the adapters included with this product. Incorrect adapter polarity or voltage can seriously damage the product. Baby unit power adapter: Output: 6V DC 400mA; Parent unit power adapter: Output: 6V DC 400mA.

10. Unplug this product from the wall outlet before cleaning. Do not use liquid or aerosol cleaners. Use a damp cloth for cleaning.

8. The power adapters are intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet outlet.

13. Do not allow anything to rest on the power cords. Do not install this product where the cords may be walked on or

This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply in your home, consult your dealer or local power company.
 Do not overload wall outlets or use an extension cord.

17. This product should not be placed in any area where proper ventilation is not provided. Slots and openings in the back or bottom of this product are provided for ventilation. To protect them from overheating, these openings must not be blocked by placing the product on a soft surface such as a bed, sofa or rug. This product should never be placed near

18. Never push objects of any kind into this product through the slots because they may touch dangerous voltage points or

19. To reduce the risk of electric shock, do not disassemble this product, but take it to an authorized service facility.

Opening or removing parts of the product other than specified access doors may expose you to dangerous voltages

22. Be aware of possible loss of privacy while using public airwaves. Conversations may be picked up by other nursery

24. The product is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

SAVE THESE INSTRUCTIONS

Do not expose the product to extreme cold, heat or direct sunlight. Do not put the product close to a heating source. Batteries should not be exposed to excessive heat such as bright sunshine or fire.

What does this limited warranty cover?

The manufacturer of this VTech Product warrants to the holder of a valid proof of purchase ("Consumer" or "you") that the Product and all accessories provided in the sales package ("Product") are free from defects in material and workmanship, pursuant to the following terms and conditions, when installed and used normally and in accordance with the Product operating instructions. This limited warranty extends only to the Consumer for Products purchased and used in the United States of America and Canada.

What will VTech do if the Product is not free from defects in materials and workmanship during the limited warranty period ("Materially Defective Product")?

During the limited warranty period, VTech's authorized service representative will repair or replace at VTech's option, without charge, a Materially Defective Product. If we repair the Product, we may use new or refurbished replacement parts. If we choose to replace the Product, we may replace it with a new or refurbished Product of the same or similar design. We will retain defective parts, modules, or equipment. Repair or replacement of the Product, at VTech's option, is your exclusive remedy. VTech will return the repaired or replacement Products to you in working condition. You should expect the repair or replacement to take approximately 30 days.

The limited warranty period for the Product extends for ONE (1) YEAR from the date of purchase. If VTech repairs or replaces a Materially Defective Product under the terms of this limited warranty, this limited warranty also applies to the repaired or replacement Product for a period of either (a) 90 days from the date the repaired or replacement Product is

Product that has been subjected to misuse, accident, shipping or other physical damage, improper installation, abnormal operation or handling, neglect, inundation, fire, water or other liquid intrusion; or

2. Product that has been damaged due to repair, alteration or modification by anyone other than an authorized service

. Product to the extent that the problem is caused by use with non-VTech accessories; or

Product purchased, used, serviced, or shipped for repair from outside the United States of America or Canada, or used for commercial or institutional purposes (including but not limited to Products used for rental purposes); or

8. Charges for installation or set up, adjustment of customer controls, and installation or repair of systems outside the unit.

NOTE: Before calling for service, please review the user's manual - a check of the Product's controls and features may save

This warranty is the complete and exclusive agreement between you and VTech. It supersedes all other written or oral communications related to this Product. VTech provides no other warranties for this Product. The warranty exclusively describes all of VTech's responsibilities regarding the Product. There are no other express warranties. No one is authorized to make modifications to this limited warranty and you should not rely on any such modification. State/Provincial Law Rights: This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state or province to

Limitations: Implied warranties, including those of fitness for a particular purpose and merchantability (an unwritten warranty that the Product is fit for ordinary use) are limited to one year from the date of purchase. Some states/provinces do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. In no event shall VTech be liable for any indirect, special, incidental, consequential, or similar damages (including, but not limited to lost profits or revenue, inability to use the Product or other associated equipment, the cost of substitute equipment, and claims by third parties) resulting from the use of this Product. Some states/provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you

Avoid putting it near heating appliances and devices that generate electrical noise (for example, motors

- · DO NOT expose it to direct sunlight or moisture.
- Avoid dropping the product or treating it roughly. Clean with a soft cloth.
- DO NOT use cleaning spray or liquid cleaners.
- Make sure the baby unit and parent unit are dry before you connect them to the mains again.
