IMPORTANT SAFETY INSTRUCTIONS

When using your telephone equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury, including the following:
1. Read and understand all instructions.
2. Follow all warnings and instructions marked on the product.
3. Unplug this product from the wall outlet before cleaning. Do not use liquid or aerosol cleaners. Use a damp cloth for cleaning.
4. **CAUTION:** Do not install the telephone base at a height above 2 meters.
5. Do not use this product near water such as near a bath tub, wash bowl, kitchen sink, laundry tub or a swimming pool, nor in a wet basement or shower.
6. Do not place this product on an unstable table, shelf, stand or other unstable surfaces.
7. Avoid placing the telephone system in places with extreme temperature, direct sunlight, or other electrical devices. Protect your phone from moisture, dust, corrosive liquids and fumes.
8. Slots and openings in the back or bottom of the telephone base and handset are provided for ventilation. To protect them from overheating, these openings must not be blocked by placing the product on a soft surface such as a bed, sofa or rug. This product should never be placed near or over a radiator or heat register. This product should not be placed in any area where proper ventilation is not provided.
9. This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply in your home or office, consult your dealer or local power company.
10. Do not allow anything to rest on the power cord. Do not install this product where the cord may be walked on.
11. Never push objects of any kind into this product through the slots in the telephone base or handset because they may touch dangerous voltage points or create a short circuit. Never spill liquid of any kind on the product.
12. To reduce the risk of electric shock, do not disassemble this product, but take it to an authorized service facility. Opening or removing parts of the telephone base or handset other than specified access doors may expose you to dangerous voltages or other risks. Incorrect reassembling can cause electric shock when the product is subsequently used.
13. Do not overload wall outlets and extension cords.
14. Unplug this product from the wall outlet and refer servicing to an authorized service facility under the following conditions:
   • When the power supply cord or plug is damaged or frayed.
   • If liquid has been spilled onto the product.
   • If the product has been exposed to rain or water.
   • If the product does not operate normally by following the operating instructions. Adjust only those controls that are covered by the operation instructions. Improper adjustment of other controls may result in damage and often requires extensive work by an authorized technician to restore the product to normal operation.
   • If the product has been dropped and the telephone base and/or handset has been damaged.
   • If the product exhibits a distinct change in performance.
15. Avoid using a telephone (other than cordless) during an electrical storm. There is a remote risk of electric shock from lightning.
16. Do not use the telephone to report a gas leak in the vicinity of the leak. Under certain circumstances, a spark may be created when the adapter is plugged into the power outlet, or when the handset is replaced in its cradle. This is a common event associated with the closing of any electrical circuit. The user should not plug the phone into a power outlet, and should not put a charged handset into the cradle, if the phone is located in an environment containing concentrations of flammable or flame-supporting gases, unless there is adequate ventilation. A spark in such an environment could create a fire or explosion. Such environments might include: medical use of oxygen without adequate ventilation; industrial gases (cleaning solvents; gasoline vapors; etc.); a leak of natural gas; etc.
17. Only put the handset of your telephone next to your ear when it is in normal talk mode.
18. The power adapter is intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet outlet.
19. For pluggable equipment, the socket-outlet shall be installed near the equipment and shall be easily accessible.
20. **⚠ CAUTION:** Use only the batteries indicated in this manual. There may be a risk of explosion if a wrong type of battery is used. Use only the supplied rechargeable batteries or replacement batteries (BT183342/BT283342).Do not dispose of batteries in a fire. They may explode. Dispose of used battery according to the instruction. Disconnect the telephone line from the equipment before open the battery door.
   • Do not use the battery in following conditions:
     • High or low extreme temperature during use, storage or transportation.
     • Replacement of a battery with an incorrect type that can defeat a safeguard.
     • Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.
     • Leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas.
     • A battery subjected to extremely low air pressure that can result in an explosion or the leakage of flammable liquid or gas.
21. Use only the adapter included with this product. Incorrect adapter polarity or voltage can seriously damage the product.
22. The applied nameplate is located at the bottom or rear of the product.

SAVE THESE INSTRUCTIONS

Battery
• Use only the batteries provided or equivalent. To order a replacement, visit our website at www.vtechphones.com or call 1 (800) 595-9511. In Canada, go to phones.vtechcanada.com or call 1 (800) 267-7377.
• Do not dispose of the battery in a fire. Check with local waste management codes for special disposal instructions.
• Do not open or mutilate the battery. Released electrolyte is corrosive and may cause burns or injury to the eyes or skin. The electrolyte may be toxic if swallowed.
• Exercise care in handling batteries in order not to create a short circuit with conductive materials.
• Charge the battery provided with this product only in accordance with the instructions and limitations specified in this manual.

Precautions for users of implanted cardiac pacemakers
Cardiac pacemakers (applies only to digital cordless telephones): Wireless Technology Research, LLC (WTR), an independent research entity, led a multidisciplinary evaluation of the interference between wireless telephones and implanted cardiac pacemakers. Supported by the U.S. Food and Drug Administration, WTR recommends to physicians that:

Pacemaker patients
• Should keep wireless telephones at least six inches from the pacemaker.
• Should NOT place wireless telephones directly over the pacemaker, such as in a breast pocket, when it is turned ON.
• Should use the wireless telephone at the ear opposite the pacemaker.
WTR's evaluation did not identify any risk to bystanders with pacemakers from other persons using wireless telephones.

ABOUT CORDLESS TELEPHONES

Privacy: The same features that make a cordless telephone convenient create some limitations. Telephone calls are transmitted between the telephone base and the cordless handset by radio waves, so there is a possibility that the cordless telephone conversations could be intercepted by radio receiving equipment within range of the cordless handset. For this reason, you should not think of cordless telephone conversations as being as private as those on corded telephones.

Electrical power: The telephone base of this cordless telephone must be connected to a working electrical outlet. The electrical outlet should not be controlled by a wall switch. Calls cannot be made from the cordless handset if the telephone base is unplugged, switched off or if the electrical power is interrupted.

Potential TV interference: Some cordless telephones operate at frequencies that may cause interference to televisions and VCRs. To minimize or prevent such interference, do not place the telephone base of the cordless telephone near or on top of a TV or VCR. If interference is experienced, moving the cordless telephone farther away from the TV or VCR often reduces or eliminates the interference.

Rechargeable batteries: Exercise care in handling batteries in order not to create a short circuit with conducting material such as rings, bracelets and keys. The battery or conductor may overheat and cause harm. Observe proper polarity between the battery and the battery charger.

Nickel-metal hydride rechargeable batteries: Dispose of these batteries in a safe manner. Do not burn or puncture the battery. Like other batteries of this type, if burned or punctured, they could release caustic material which could cause injury.

WHAT'S IN THE BOX

Your product package contains the following items. Save your sales receipt and original packaging in the event warranty service is necessary.

1 set for DS6611;
2 sets for DS6611-2;
3 sets for DS6611-3

1 set for DS6611-2;
2 sets for DS6611-3

Abridged user's manual
HANDSET OVERVIEW
1 – Handset earpiece

2 – LCD display

3 – MENU/SELECT
• Show the menu.
• While in a menu, press to select an item, or save an entry or setting.

4 – OFF/CANCEL
• Hang up a call.
• Silence the ringer temporarily while the handset is ringing.
• Press and hold to erase the missed call indicator while the phone is not in use.
• Press to return to the previous menu; or press and hold to return to idle mode, without making changes.

5 – #
• Press repeatedly to show other dialing options when reviewing a caller ID log entry.

6 – MUTE/DELETE
• Mute the microphone during a call.
• Delete digits or characters while using the dialing keys.
• Silence the ringer temporarily while the handset is ringing.

7 – REDIAL/PAUSE
• Press repeatedly to review the redial list.
• Press and hold to insert a dialing pause while entering a number.

8 – Microphone

9 – 🔊
• Make or answer a call using the handset speakerphone.
• During a call, press to switch between the speakerphone and the handset.

10 – 0 operator
• Press to add a space when entering names.

11 – ✱ tone
• While you have set the dial mode to pulse and on a call, press to switch to tone dialing temporarily.

12 – 1 ✉
• Press repeatedly to add or remove 1 in front of the caller ID log entry before dialing or saving it to the phonebook.
• Press and hold to set or dial your voicemail number.

13 – 📞/HOME/FLASH
• Make or answer a home call.
• Answer an incoming home call when you hear a call waiting alert.

14 – 📶/CELL
• Make or answer a cell call.
• Answer an incoming cell call when you hear a call waiting alert.

15 – VOLUME/▼/▲
• Review the phonebook when the phone is not in use.
• Increase the listening volume during a call.
• Scroll up while in a menu, or in the phonebook, caller ID log, or redial list.
• Move the cursor to the right when entering numbers or names.

VOLUME/▼/CID
• Review the caller ID log when the phone is not in use.
• Decrease the listening volume during a call.
• Scroll down while in a menu, or in the phonebook, caller ID log, or redial list.
• Move the cursor to the left when entering numbers or names.

16 – CHARGE light
• On when the handset is charging.

TELEPHONE BASE OVERVIEW
1 – IN USE light
• Flashes when there is an incoming call, or another telephone sharing the same line is in use.
• On when the handset is in use.

2 – ❤ CELL 1 and ❤ CELL 2/HEADSET lights
• On when the telephone base is paired and connected with a Bluetooth device.
• Flashes when the telephone base is in discoverable mode.

3 – 📞/FIND HANDSET
• Press to page all system handsets.

4 – ❤ CELL 1 and ❤ CELL 2/HEADSET
• Press to connect the paired cell phones or headset.
• Press and hold to add or replace a cell phone or a headset.

5 – Charging pole

CHARGER OVERVIEW
1 – Charging pole

DISPLAY ICONS OVERVIEW

Icon	Description
🔋	The battery icon flashes when the battery is low and needs charging.
🔋➔	The battery icon animates when the battery is charging.
🔋	The battery icon becomes solid when the battery is fully charged.
ECO	The ECO mode activates automatically to reduce power consumption when the handset is within range from the telephone base.
✉	There are new voicemail received from your telephone service provider.
🏠	On when the home line is in use or there is an incoming home call. Flashes when there is an incoming home waiting call.
❤₁	There are Bluetooth devices connected on the cell devices list.
((•))	On when the cell line is in use or there is an incoming cell call. Flashes when there is an incoming cell waiting call.
NEW	There are new caller ID log entries.
🔕	The handset ringer is off.

CONNECT

You can choose to connect the telephone base for desktop usage or wall mounting.

NOTES
• If you subscribe to digital subscriber line (DSL) high-speed Internet service through your telephone line, make sure you install a DSL filter (not included) between the telephone line cord and telephone wall jack. Contact your DSL service provider for more information.
• Use only the adapters provided.
• Even if you do not subscribe to any conventional telephone service, you can pair a Bluetooth enabled cell phone to your telephone base (see **Bluetooth**), and use the cell line alone without plugging in a telephone line cord.

TIP
• If you subscribe to digital subscriber line (DSL) high-speed Internet service through your telephone line, make sure you install a DSL filter (not included) between the telephone line cord and telephone wall jack. Contact your DSL service provider for more information.

Connect the telephone base

Connect the charger

Mount the telephone base
The telephone comes ready for tabletop use. If you have already installed the telephone for tabletop use, unplug the telephone line cord from the telephone wall jack, and unplug the telephone base power adapter from the wall outlet before mounting your telephone on a wall. Follow the steps below to mount your telephone on a wall.
1. Route the telephone line cord through the rectangular hole on the wall mount bracket. Then plug the two ends of the telephone line cord into the telephone base and the wall outlet as shown.

2. Align the holes on the bracket with the standard wall plate and slide the bracket down until it clicks securely in place.

3. Align the grooves on the telephone base with the tabs on the wall mount bracket, and then slide it down until it clicks securely in place.

4. Connect the power adapter to the telephone base and an electrical outlet not controlled by a wall switch.

INSTALL AND CHARGE THE BATTERY

Install the battery
Install the battery as shown below.

NOTES
• Use only supplied battery.
• If the handset will not be used for a long time, disconnect and remove the battery to prevent possible leakage.

Charge the battery
Place the handset in the telephone base or the charger to charge.

CHARGE light remains on when charging.

Once you have installed the battery, the handset LCD display indicates the battery status (see the table below).

NOTES
• For best performance, keep the handset in the telephone base or charger when not in use.
• The battery is fully charged after 12 hours of continuous charging.

Battery indicators	Battery status	Action
The screen is blank, or shows **Put in charger** and 🔋 flashes.	The battery has no charge or it shows 🔋 flashes.	Charge without interruption (at least 30 minutes).
The screen shows **Low battery** and 🔋 flashes.	The battery has enough charge to be used for a short time.	Charge without interruption (at least 30 minutes).
The screen shows **HANDSET X**.	The battery is charged.	To keep the battery charged, place it in the telephone base or charger when not in use.

BEFORE USE

After you install your telephone or power returns following a power outage, the handset or telephone will prompt you to set the date and time.

Set date and time
1. Use the dialing keys (**0-9**) to enter the month (**MM**), date (**DD**) and year (**YY**). Then press **SELECT**.
2. Use the dialing keys (**0-9**) to enter the hour (**HH**) and minute (**MM**). Then press ▼ or ▲ to choose **AM** or **PM**.
3. Press **SELECT** to save.

Check for a dial tone:
Press #/HOME. If you hear a dial tone, the installation is successful.

If you do not hear a dial tone:
• Make sure the installation procedures described above are properly done.
• It may be a wiring problem. If you have changed your telephone service to a cable company or a VoIP service provider, the telephone line may need to be rewired to allow all existing telephone jacks to work. Contact your cable/VoIP service provider for more information.

Operating range
This cordless telephone operates with the maximum power allowed by the Federal Communications Commission (FCC). Even so, this handset and telephone base can communicate over only a certain distance - which can vary with the locations of the telephone base and handset, the weather, and the layout of your home or office.

When the handset is out of range, the handset displays **Out of range or** and **no pwr at base** alternately.

If there is a call while the handset is out of range, it may not ring, or if it does ring, the call may not connect well when you press 📞/HOME or 📶/CELL. Move closer to the telephone base, and then press 📞/HOME or 📶/CELL to answer the call. If the handset moves out of range during a telephone conversation, there may be interference. To improve reception, move closer to the telephone base.

BLUETOOTH

To use a Bluetooth enabled cell phone or headset with your DS6611, you must first pair and connect your Bluetooth cell phone or headset with the telephone base.

Bluetooth wireless technology operates within a short range (a maximum of approximately 30 feet). When you pair a Bluetooth cell phone to the telephone base, place your Bluetooth cell phone closer to the telephone base to maintain sufficient signal strength.

NOTE
For optimal performance, keep your cell phone within 15 feet of the telephone base while using the cell line.

Pair and connect your Bluetooth enabled cell phone
1. Choose a slot to pair the cell phone. Press and hold ❤ CELL 1 or ❤ CELL 2/HEADSET on the telephone base until you hear a confirmation tone, and the ❤ CELL 1 or ❤ CELL 2/HEADSET light flashes.
2. Turn on the Bluetooth feature of your cell phone. Once your cell phone finds your VTech phone (VTech DS6611), press appropriate key on your cell phone to continue the pairing process.
   • Your cell phone may prompt you to enter the PIN of the telephone base. The default PIN of the telephone base is **0000**.

When the cell phone is connected to the telephone base, the corresponding status icon (❤ or ❤₁) displays. The corresponding device light (❤ CELL 1 or ❤ CELL 2/HEADSET) turns on.

If the pairing fails, turn off the Bluetooth feature on your cell phone and on the DS6611 by pressing ❤ CELL 1 or ❤ CELL 2/HEADSET. Then repeat the steps above to pair and connect again. In some cases, it may take you a few attempts to complete the pairing process.

Pair and connect your Bluetooth enabled headset
1. Press **MENU** on the phone when it is not in use.
2. Press ▼ or ▲ to scroll to **Bluetooth**, and then press **SELECT**.
3. Press ▼ or ▲ to scroll to **Add BT headset**, and then press **SELECT**. The screen displays **Search headset...**
4. Set your headset to discoverable mode. Once your handset finds your headset, press **SELECT**.
   • Enter the PIN of your headset if required. The PIN for most Bluetooth devices is **0000** (refer to the user's manual of your headset), and then press **SELECT**.

When the headset is successfully paired and connected to the telephone base, the ❤ icon displays. The ❤ CELL 2/HEADSET light turns on.

VTech Connect to Cell™ application
This application helps you integrate Android phones with your DS6611. For more information and application download, scan the QR code on the right, or go to https://www.vtechphones.com/app_connect_to_cell.

Download contacts from your Bluetooth cell phone
1. Press **MENU** when the phone is not in use.
2. Scroll to **Bluetooth**, and then press **SELECT**.
3. Scroll to **Download PB**, and then press **SELECT**.
4. Scroll to select the desired cell phone, and then press **SELECT**.
   • For certain cell phones, you may need to press a key on your cell phone to confirm the phonebook download.
   • The performance of phonebook download feature depends on the compatibility of your Bluetooth cell phone. Refer to the user's manual of your cell phone for more information about how that device uses Bluetooth connectivity.
   • Certain cell phones do not support SIM card download. If this is the case, transfer the contacts from your SIM card to your cell phone memory first. Then download from your cell phone memory. For more information on how to transfer contacts from your SIM card to your cell phone memory, see the user's manual of your cell phone.
   • For Android cell phones, you may also download your cell phone contacts to your DS6611 via the VTech Contact Share application. Scan the QR code on the right, or go to www.vtechphones.com/apps/contact_share for application download.

USING THE HANDSET MENU

1. Press **MENU** when the phone is not in use.
2. Press ▼ or ▲ until the screen displays the desired feature menu.
3. Press **SELECT** to enter that menu.
   • To return to the previous menu, press **CANCEL**.
   • To return to idle mode, press and hold **CANCEL**.

CONFIGURE YOUR TELEPHONE

Set language
The LCD language is preset to English. You can select English, French or Spanish to be used in all screen displays.
1. Press **MENU** when the handset is not in use.
2. Scroll to **Settings**, and then press **SELECT** twice.
3. Scroll to choose **English, Français** or **Español**.
4. Press **SELECT** to save.

Set date and time
1. Press **MENU** when the handset is not in use.
2. Scroll to **Set date/time**, and then press **SELECT**.
3. Use the dialing keys (**0-9**) to enter the month (**MM**), date (**DD**) and year (**YY**). Then press **SELECT**.
4. Use the dialing keys (**0-9**) to enter the hour (**HH**) and minute (**MM**). Then press ▼ or ▲ to choose **AM** or **PM**.
5. Press **SELECT** to save.

Temporary tone dialing
If you have pulse (rotary) service only, you can switch from pulse to tone dialing temporarily during a call.
1. During a call, press ✱ tone.
2. Use the dialing keys to enter the relevant numbers. The telephone sends touch-tone signals. It automatically returns to pulse dialing mode after you end the call.

TECHNICAL SPECIFICATIONS

Transmit frequency:	1921.536-1928.448 MHz
DECT frequency:	2400.000-2480.000 MHz
Bluetooth:	2400.000-2480.000 MHz
Channels	DECT: 5
	Bluetooth: 79
Nominal effective range	Maximum power allowed by FCC and IC. Actual operating range may vary according to environmental conditions at the time of use.
Power requirement	Handset: 2.4V Ni-MH battery Telephone base: 6V DC @ 0.4A Charger: 6V DC @ 0.4A
Memory	Phonebook: up to 30 digits and 15 characters 50 memory locations; Caller ID log: up to 24 digits and 15 characters 1000 memory locations (shared between home and cell lines);

♻

♻ Please recycle.

Handset control key panel:

Make a home call
- Press 🏠/HOME or 📢, and then dial the telephone number.
  -OR-
- Enter the telephone number on the handset or base, and then press 🏠/HOME or 📢 to dial.

Make a cell call
- Press 📱/CELL on the handset or base. Enter the telephone number, and then press 📱/CELL to dial.
  -OR-
- Enter the telephone number on the handset or base, and then press 📱/CELL to dial.

🔔 NOTES
- After first pressing 📱/CELL, you may need to choose a cell device. Scroll to select the desired cell device when necessary, and then press SELECT.
- While using the cell line, place your cell phone closer to the base, and make sure that there are no physical obstacles between the base and the cell phone, such as large furniture or thick walls.

Answer a home/cell call
- Press 🏠/HOME, 📱/CELL, 📢, or any dialing key.

End a home/cell call
- Press OFF on the handset, or put the handset to the base or charger.

Speakerphone
- During a call, press 📢 on the handset to switch between speakerphone and normal handset use.

Volume
- During a call, press ✓/VOLUME/∧ on the handset to adjust the listening volume.

🔔 NOTES
The handset earpiece volume setting and speakerphone volume setting are independent.

Mute
The mute function allows you to hear the other party but the other party cannot hear you.
1. During a call, press MUTE on the handset or telephone base. The screen displays Muted.
2. Press MUTE again to resume the conversation. The screen displays Microphone ON.

Call waiting
When you subscribe to call waiting service from your telephone service provider, you hear an alert tone if there is an incoming call while you are on another call.

Call waiting on the home line:
- Press FLASH to put the current call on hold and take the new call.

- Press FLASH to switch back and forth between calls.

Call waiting on the cell line:
- Press 📱/CELL 1 or 📱/CELL 2, to put the current call on hold and take the new call.
- Press 📱/CELL 1 or 📱/CELL 2 to switch back and forth between calls.

Find handset
Use this feature to find all system handsets.

To start paging:
- Press 📢/FIND HANDSET on the telephone base. All idle handsets ring and display ** Paging **.

To end paging:
- Press 📢/FIND HANDSET again on the telephone base.
  -OR-
- Press 🏠/HOME, 📱/CELL, 📢, CANCEL, or any dialing key on the handset.
  -OR-
- Place the handset in the telephone base or charger.

🔔 NOTE
Do not press and hold 📢/FIND HANDSET for more than four seconds. It may lead to handset deregistration.

Join a call in progress
You can use up to two system handsets at a time on a home line call. To add two additional expansion handsets (DS6600) to this telephone base, you can register up to five handsets to the telephone base.
- When a handset is on a home call, press 🏠/HOME or 📢 on another handset to join the call.
- Press OFF to exit the call. The call continues until all handsets hang up.

Intercom
Use the intercom features for conversations between two devices.
1. Press MENU on your handset when not in use.
2. Press ✓ or ∧ to scroll to Intercom, and then press SELECT. Use the dialing keys to enter a destination device number.
3. To answer the intercom call, press 🏠/HOME, 📱/CELL, 📢, or any dialing key on the destination handset.
4. To end the intercom call, press OFF or place the handset in the telephone base or charger.

Transfer a call
While on an outside call, you can use the intercom feature to transfer the call from one handset to another.
1. Press MENU on your handset during a call.
2. Press ✓ or ∧ to scroll to Intercom, and then press SELECT. The current call is put on hold. Use the dialing keys to enter a destination device number.
3. To answer the intercom call, press 🏠/HOME, 📱/CELL, 📢, or any dialing key on the destination handset. You can now have a private conservation before transferring the call.
4. To transfer the call, press OFF on the initiating handset or place the initiating handset back in the telephone base or charger.
5. To end the call, press OFF on the destination handset or place the destination handset back in the telephone base or charger.

Answer an incoming call during an intercom call
If you receive an incoming call during an intercom call, there is an alert tone.
- To answer a home call, press 🏠/HOME. The intercom call ends automatically.
- To end the intercom call without answering the outside call, press OFF. The intercom call ends and the telephone continues to ring.
- To answer a cell call, press OFF to end the intercom call. The telephone continues to ring. Then press 📱/CELL.

Redial list
Each handset stores the last 10 telephone numbers dialed. When there are already 10 entries, the oldest entry is deleted to make room for the new entry.

Review the redial list
1. Press REDIAL when the handset is not in use.
2. Press ✓, ∧, or REDIAL repeatedly until the desired entry displays.

Dial a redial list entry
- Press 🏠/HOME, 📱/CELL, 📢, or 📢 to dial.

Delete a redial list entry
When the desired redial list entry displays, press DELETE.

Phonebook
The phonebook can store up to 1000 entries, which are shared by all handsets. Each entry may consist of a telephone number up to 30 digits, and a name up to 15 characters.

Add a phonebook entry
1. Press MENU when the phone is not in use.
2. Scroll to Phonebook then press SELECT.
3. Press SELECT again to choose Add new entry.
4. Enter the number.
   - Use the dialing keys to enter the number (up to 30 digits).
5. Press SELECT to move to the name.
6. Use the dialing keys to enter the name (up to 15 characters). Additional key presses show other characters of that particular key.
7. Press SELECT to save.

While entering numbers and names, you can:
- Press DELETE to erase a digit or character.
- Press and hold DELETE to erase the entire entry.
- Press ∨ or ▲ to move the cursor to the left or right.
- Press and hold PAUSE to insert a dialing pause (for entering phone numbers only).
- Press 0 to add a space (for entering names only).
- Press ✱/tone to add ✱ (# appears) or # to add # (ℓ appears) (for entering phone numbers only).

Review the phonebook
Entries are sorted alphabetically.
1. Press 📖 when the phone is not in use.
2. Scroll to browse through the phonebook, or use the dialing keys to start a name search (you can enter up to 3 characters for the search).
3. When the desired entry appears, press 📢 or 📢 to dial.

Delete a phonebook entry
1. When the desired entry displays, press DELETE.
2. When the screen displays Delete entry?, press SELECT.

Delete all phonebook entries:
1. Press MENU when the phone is not in use.
2. Scroll to Phonebook, and then press SELECT.
3. Scroll to Delete all, and then press SELECT.
4. When the screen displays Delete all?, press SELECT.

Edit a phonebook entry
1. When the desired entry displays, press SELECT.
2. Use the dialing keys to edit the number, and then press SELECT.
3. Use the dialing keys to edit the name, and then press SELECT to save.

Dial a phonebook entry
- When the desired entry appears, press 📢 or 📢 to dial.

Caller ID
If you subscribe to caller ID service, information about each caller appears after the first or second ring. If you answer a call before the caller ID information appears on the screen, it will not be saved in the caller ID log.

The caller ID log stores up to 50 entries. Each entry has up to 24 digits for the phone number and 15 characters for the name.

If the telephone number has more that 15 digits, only the last 15 digits appear. If the name has more than 15 characters, only the first 15 characters are shown and saved in the caller ID log.

Review a caller ID log entry
1. Press CID when the phone is not in use.
2. Scroll to browse through the caller ID log. When the desired entry appears:
   - Press # repeatedly to show different dialing options.
   - Press 1 repeatedly if you need to add or remove 1 in front of the phone number.
3. Press 📢 or 📢 to dial the displayed number.

Dial a caller ID log entry
- When the desired entry appears, press 📢 or 📢 to dial.

Delete a caller ID log entry
- When the desired caller ID log entry displays, press DELETE.

Delete all caller ID log entries
- Press MENU when the phone is not in use. Scroll to Caller ID log and then press SELECT. Scroll to Delete all and then press SELECT twice.

Save a caller ID log entry to the phonebook
1. When the desired caller ID log entry displays, press SELECT.
2. Scroll to To Phonebook then press SELECT.
3. Use the dialing keys to modify the number, and then press SELECT.
4. Use the dialing keys to modify the name, and then press SELECT to save.

Call block
If you subscribe to caller ID service, you can set the telephone to block unknown calls and certain undesired calls.
The call block list stores up to 20 entries.

Block unknown calls
1. Press MENU when the phone is not in use.
2. Scroll to Call block, and then press SELECT.
3. Scroll to Calls w/o num, and then press SELECT.
4. Scroll to choose Not block or Block, and then press SELECT.

Add a call block list entry
1. Press MENU when the phone is not in use.
2. Scroll to Call block, and then press SELECT.
3. Scroll to Block list, and then press SELECT.
4. Scroll to Add new entry, and then press SELECT.
5. Enter the number.
   - Use the dialing keys to enter the number (up to 30 digits).
6. Press SELECT to move to the name.
7. Use the dialing keys to enter the name (up to 15 characters). Additional key presses show other characters of that particular key.

Save a caller ID log entry to call block list
1. When the desired caller ID log entry displays, press SELECT.
2. Scroll to To Call block then press SELECT.
3. Use the dialing keys to modify the number, and then press SELECT.
4. Use the dialing keys to modify the name, and then press SELECT to save.

Delete a call block list entry
- When the desired call block list entry displays, press DELETE.

Sound settings

Key tone
You can choose from different ringer tones.
1. Press MENU when the handset is not in use.
2. Scroll to Settings, and then press SELECT.
3. Scroll to choose Key tone, and then press SELECT.
4. Scroll to choose On or Off, and then press SELECT.

Ringer tone
You can choose from different ringer tones.
1. Press MENU when the handset is not in use.
2. Scroll to Settings, and then press SELECT.
3. Scroll to choose Key tone, and then press SELECT.
4. Scroll to choose On or Off, and then press SELECT to save.

Review call block list
1. Press MENU when the phone is not in use.
2. Scroll to Call block, and then press SELECT.
3. Scroll to Block list, and then press SELECT.
4. Press SELECT to choose Review.

Edit a call block list entry
1. When the desired entry displays, press SELECT.
2. Use the dialing keys to edit the number, and then press SELECT.
3. Use the dialing keys to edit the name, and then press SELECT to save.

Delete a caller ID log entry
- When the desired caller ID log entry displays, press DELETE.

Delete all caller ID log entries
- Press MENU when the phone is not in use. Scroll to Caller ID log and then press SELECT. Scroll to Delete all and then press SELECT twice.

Ringer volume (handset)
You can adjust the ringer volume level, or turn the ringer off.
1. Press MENU when the handset is not in use.
2. Scroll to Ringers, and then press SELECT.
3. Scroll to choose Home volume or Cell volume, and then press SELECT.
4. Scroll to adjust the volume, and then press SELECT to save.

🔔 NOTE
If the handset ringer volume is set to off, that handset is silenced for all incoming calls except paging tone.

Temporary ringer silencing
When the telephone is ringing, you can temporarily silence the ringer of the handset without disconnecting the call. The next call rings normally at the preset volume.
- Press OFF or MUTE on the handset. The handset displays 🔇.

Retrieve voicemail from telephone service
Voicemail is a feature available from most telephone service providers. It may be included with your telephone service, or may be optional. Fees may apply.

Retrieve voicemail
When you received a voicemail, the handset displays ✉ and New voicemail. To retrieve, you typically dial an access number provided by your telephone service provider, and then enter a security code. Contact your telephone service provider for instructions on how to configure the voicemail settings and listen to messages.

Turn off the new voicemail indicators
If you have retrieved your voicemail while away from home, and the handset still displays the new voicemail indicators, use this feature to turn off the indicators.
1. Press MENU when the handset is not in use.
2. Scroll to Settings, and then press SELECT.
3. Scroll to Clr voicemail, and then press SELECT.

🔔 NOTE
This feature turns off the indicators only, it does not delete your voicemail messages.

Expand your telephone system
You can add new handsets (DS6600), cordless headsets or speakerphones to your telephone system (purchased separately) to your telephone system. Visit www.vtechphones.com for a list of compatible devices. Your telephone base supports a maximum of five devices.

For more details, refer to the user's manual that comes with your DS6600 new handset, cordless headset or speakerphone respectively.

ECO mode
This power conserving technology reduces power consumption for optimal battery performance. The ECO mode activates automatically whenever the handset is synchronized with the telephone base.

General product care

Taking care of your telephone
Your cordless telephone contains sophisticated electronic parts, so it must be treated with care.

Avoid rough treatment
Place the handset down gently. Save the original packing materials to protect your telephone if you ever need to ship it.

Avoid water
Your telephone can be damaged if it gets wet. Do not use the handset outdoors in the rain, or handle it with wet hands. Do not install the telephone base near a sink, bathtub or shower.

Electrical storms
Electrical storms can sometimes cause power surges harmful to electronic equipment. For your own safety, take caution when using electrical appliances during storms.

Cleaning your telephone
Your telephone has a durable plastic casing that should retain its luster for many years. Clean it only with a dry non-abrasive cloth. Do not use dampened cloth or cleaning solvents of any kind.

Frequently asked questions

My telephone does not work at all.	Make sure the telephone base is installed properly, and battery is installed and charged correctly. For optimum daily performance, return the handset to the telephone base after use.
The display shows No line. I cannot hear the dial tone.	Disconnect the telephone line cord from your telephone and connect it to another telephone. If there is no dial tone on that other telephone either, then the telephone line cord may be defective. Try installing a new telephone line cord. If changing telephone line cord does not help, the wall jack (or the wiring to this wall jack) may be defective. Contact your telephone service provider.
	You may be using a new cable or VoIP service, the existing telephone jacks in your home may no longer work. Contact your service provider for solutions.
The display shows To register HS... and ...see manual alternately. The handset does not work at all.	The handset is deregistered from the telephone base. Place the handset in the telephone base to register it back. The handset shows Registered and you hear a beep when the registration process completes. This process takes about 90 seconds to complete.
I cannot add and connect my cell phone or headset to the telephone base.	Make sure you have cellular coverage and the Bluetooth function of your cell phone or headset is turned on. See the user's manual of your cell phone or headset for more information. Make sure that the telephone base is in discoverable mode. Carefully follow the pairing instructions in this manual. Make sure that your Bluetooth cell phone or headset is not connected to any other Bluetooth device, and is connected to the telephone base and active on the device list. Turn off your cell phone or headset, and then turn it on again.

The cell phone reception in my house is poor and I cannot connect it to my DS6611.	If there is a location in your house with no reception, you can leave your cell phone at that location while you use the DS6611 cell line. In order for this to work, the telephone base must be within 30 feet of the cell phone.
I accidentally set my LCD language to Spanish or French, and I don't know how to change it back to English.	While the handset is not in use, press MENU and then ✱364 # to change the handset LCD language back to English.

Need help?
For operations and guides to help you using your telephone, and for latest information and supports, go and check the online help topics and online FAQs.

Use your smartphone or mobile device to access our online help.
- Go to https://help.vtechphones.com/ds6611; OR
- Scan the QR code on the right. Launch the camera app or QR code scanner app on your smartphone or tablet. Hold the device's camera up to the QR code and frame it. Tap the notification to trigger the redirection of the online help.
  - If the QR code is not clearly displayed, adjust your camera's focus by moving your device closer or further away until it is clear.

You can also call our Customer Support at 1 (800) 595-9511 [in US] or 1 (800) 267-7377 [in Canada] for help.

For C-UL compliance only

Mesures de sécurité importantes
Afin de réduire les risques d'incendie, de blessures corporelles ou d'électrocution, suivez toujours ces mesures préventives de base lorsque vous utilisez votre téléphone :
1. Lisez et comprenez bien toutes les instructions.
2. Observez toutes les instructions et mises en garde inscrites sur l'appareil.
3. Débranchez ce téléphone de la prise murale avant de le nettoyer. N'utilisez pas de nettoyeurs liquides ni en aérosol. N'utilisez qu'un chiffon doux et légèrement humide.
4. **ATTENTION**: Ne pas installer le socle téléphonique à une hauteur supérieure à 2 mètres.
5. N'utilisez pas ce produit près de l'eau, tel que près d'un bain, d'un lavabo, d'un évier de cuisine, d'un bac de lavage ou d'une piscine, ou dans un sous-sol humide ou sous la douche.
6. Ne déposez pas ce téléphone sur un chariot, support ou table chancelants. L'appareil pourrait tomber et être sérieusement endommagé.
7. Évitez d'installer le système téléphonique dans les endroits soumis à une température extrême, à la lumière directe du soleil ou à proximité immédiate d'autres appareils électriques ou électroniques. Protégez votre téléphone contre les sources d'humidité, la poussière, les vapeurs et les liquides corrosifs.
8. Le boîter de l'appareil est doté de fentes et d'ouvertures d'aération situées à l'arrière ou en dessous. Afin d'empêcher la surchauffe, ces ouvertures ne doivent pas être obstruées en plaçant l'appareil sur un lit, divan, tapis ou autre surface similaires. Ne placez pas cet appareil à proximité d'un élément de chauffage ni d'une plinthe électrique. De plus, ne l'installez pas dans une unité murale ou un cabinet fermé qui ne possède pas d'aération adéquate.
9. Ne faites fonctionner cet appareil qu'avec le type d'alimentation indiqué sur les étiquettes de l'appareil. Si vous ne connaissez pas le voltage de votre maison, consultez votre marchand ou votre fournisseur d'électricité.
10. Ne déposez rien sur le cordon d'alimentation. Installez cet appareil dans un endroit sécuritaire, là où personne ne pourra trébucher sur la ligne d'alimentation ni le cordon téléphonique modulaire.
11. N'insérez jamais d'objets à travers les fentes et ouvertures de cet appareil, car ils pourraient toucher à des points de tension dangereux ou court-circuiter des pièces, ce qui constituerait un risque d'incendie ou d'électrocution. N'échappez pas de liquides dans l'appareil.
12. Afin de réduire les risques d'électrocution, ne démontez pas l'appareil. Apportez-le plutôt à un centre de service qualifié s'il doit être réparé. En enlevant le couvercle, vous vous exposez à des tensions dangereuses ou autres dangers similaires. Un remontage inadéquat peut provoquer une électrocution lors d'une utilisation ultérieure de l'appareil. Débranchez l'appareil avant de procéder au nettoyage. Utilisez un chiffon humide et doux.
13. Ne surchargez pas les prises de courant et les rallonges.
14. Débranchez cet appareil de la prise de courant et communiquez avec le département de service à la clientèle de VTech dans les cas suivants :
    - Lorsque le cordon d'alimentation est endommagé ou écornée.
    - Si du liquide a été échappé dans l'appareil.
    - Si l'appareil a été exposé à la pluie ou à l'eau.
    - Si l'appareil ne fonctionne pas normalement en respectant les instructions de fonctionnement. Réglez uniquement les commandes indiquées dans les instructions de fonctionnement. Les réglages incorrects des autres commandes pourraient provoquer un dommage qui pourrait exiger un travail exhaustif de la part d'un technicien autorisé afin de rétablir le fonctionnement normal de l'appareil.
    - Si le produit a été échappé et que le socle et/ou le combiné a été endommagé.
    - Si le produit affiche une nette diminution de sa performance.
15. Évitez d'utiliser un téléphone (autre qu'un sans fil) pendant un orage. Les éclairs peuvent être à l'origine d'une électrocution.
16. N'utilisez pas le téléphone pour rapporter une fuite de gaz à proximité de la fuite. En certaines circonstances, une flammèche pourrait être provoquée lorsque l'adaptateur est branché à une prise de courant, ou lorsque le combiné est déposé sur le socle. Ceci est un événement commun associé à la fermeture d'un circuit électrique. L'utilisateur ne devrait pas brancher le téléphone à une prise de courant, et ne devrait pas déposer le combiné chargé sur le socle, si le téléphone se trouve à proximité d'un endroit comportant des concentrations de gaz inflammables, à moins que la ventilation soit adéquate. Une flammèche dans cet endroit pourrait provoquer un incendie ou une explosion. De tels événements pourraient comprendre: des endroits où l'on utilise de l'oxygène médical sans ventilation adéquate; des gaz industriels (dissolvants de nettoyage, des vapeurs d'essence, etc.); une fuite de gaz naturel, etc.
17. Ne placez pas le combiné de votre téléphone près de votre oreille lorsqu'en mode de conversation.
18. Ces adaptateurs ont été conçus pour être orientés en position verticale ou montés au sol. Les broches ne sont pas conçues pour maintenir l'adaptateur en place si celui-ci est branché dans une prise de courant au mur sous une table/ armoire.
19. Pour le MATÉRIEL RACCORDÉ PAR PRISE DE COURANT, le socle de prise de courant doit être installé à proximité du matériel et doit être aisément accessible.
20. ⚠ MISE EN GARDE: Il peut y avoir un risque d'explosion si vous utilisez le mauvais type de piles pour le téléphone. N'utilisez que les piles rechargeable incluse ou les piles de rechange (8T183342/8T283342). N'incinérez pas les piles. Celles-ci risqueraient d'exploser. Mettre au rebut les batteries usagées conformément aux instructions du fabricant. Débrancher les lignes téléphoniques avant le remplacement des piles.
    - Évitez d'utiliser la batterie dans les conditions suivantes:
      » des températures extrêmes faibles ou élevées auxquelles une batterie peut être soumise pendant l'utilisation, le stockage ou le transport;
      » Remplacement d'une batterie par un type incorrect pouvant supprimer une protection;
      » mise au rebut d'une batterie dans un feu ou dans un four chaud, ou écrasement mécanique ou coupure d'une batterie, susceptible de provoquer une explosion;
      » maintien d'une batterie dans un environnement à très haute température pouvant provoquer une explosion ou la fuite de liquide ou de gaz inflammables;
      » batterie soumise à une pression de l'air extrêmement faible pouvant provoquer une explosion ou la fuite de liquide ou de gaz inflammables.
    - N'utilisez que les adaptateurs inclus avec ce produit. L'utilisation d'un adaptateur dont la polarité ou la tension serait inadéquate risque d'endommager sérieusement le produit et mettre votre sécurité en péril.
    - La plaque signalétique appliquée est située au bas ou à proximité du produit.

CONSERVEZ CES INSTRUCTIONS

Pile
- N'utilisez que la pile incluse ou l'équivalent.
- Ne jetez pas la pile au feu. Vérifiez les instructions spécifiques de mise aux rebus auprès des autorités locales.
- N'ouvrez pas et ne mutilez pas la pile. L'électrolyte qui s'en échapperait est corrosif et pourrait causer des brûlures ou des blessures aux yeux ou à la peau. L'électrolyte est toxique si avalé.
- Soyez prudents lorsque vous manipulez les piles afin d'éviter les courts-circuits provoqués par des matériaux conducteurs.
- Rechargez la pile incluse avec cet appareil, selon les instructions et limites spécifiées dans ce guide d'utilisation.

Stimulateurs cardiaques implantés dans l'organisme
Les simulateurs cardiaques (s'applique uniquement aux téléphones numériques sans fil) :
L'organisme "Wireless Technology Research, LLC (WTR)", une firme de recherche indépendante, a mené une évaluation pluridisciplinaire des interférences entre les téléphones sans fil portatifs et les stimulateurs cardiaques implantés dans l'organisme. Appuyée par l'Administration des aliments et drogues (FDA) des États-Unis, la firme WTR recommande aux médecins :

Avis aux détenteurs de stimulateurs cardiaques
- Ils doivent tenir le téléphone sans fil à une distance d'au moins six pouces du stimulateur cardiaque.
- Ils ne doivent PAS placer le téléphone sans fil directement sur le stimulateur cardiaque, tel que dans une poche de chemise, lorsque celui-ci est en marche.
- Ils doivent utiliser le téléphone sans fil en l'appuyant sur l'oreille qui se trouve dans la direction opposée au stimulateur cardiaque.
L'étude effectuée par l'organisme WRS n'a pas identifié de risque pour les détenteurs de simulateurs cardiaques causés par les gens qui utilisent un téléphone sans fil à proximité de ceux-ci.

À propos des téléphones sans fil
Confidentialité : Les mêmes caractéristiques qui constituent des avantages pour les téléphones sans fil affichent également des restrictions. Les appels téléphoniques sont transmis entre le combiné sans fil et le socle par le biais d'ondes radio ; il y a donc la possibilité que vos conversations téléphoniques sans fil soient interceptées par des équipements de réception radio se trouvant dans la portée du combiné sans fil. Pour cette raison, vous ne devez pas percevoir les communications téléphoniques sans fil comme étant aussi confidentielles que celles des téléphones à cordons.
Alimentation électrique : Le socle de ce téléphone sans fil doit être branché à une prise électrique fonctionnelle. La prise électrique ne doit pas être contrôlée par un interrupteur mural. Les appels ne pourront pas être effectués du combiné sans fil si le socle est débranché ou mis hors tension ou si le courant est coupé.
Possibilité d'interférences aux télévisions : Certains téléphones sans fil fonctionnent sur des fréquences pouvant causer des interférences aux téléviseurs et aux magnétoscopes. Pour réduire ou prévenir de telles interférences, ne placez pas le socle du téléphone sans fil près ou sur un téléviseur ou magnétoscope. S'il y a présence de parasites, il est conseillé d'éloigner le téléphone sans fil du téléviseur ou du magnétoscope afin de réduire possiblement les interférences.
Piles rechargeables : Manipulez les piles avec soin afin de ne pas les court-circuiter avec des bagues, bracelets ou clés. Les piles ou le conducteur peut surchauffer et causer des blessures. Respectez la polarité adéquate entre la pile et le chargeur.
Les piles-piles rechargeables à l'hydrure métallique de nickel : Jetez ces blocs-piles de manière écologique et sécuritaire. Ne les incinérez pas et ne les percez pas. Tel que les autres piles de ce type, elles pourraient dégager une matière toxique qui pourrait causer des blessures corporelles si elles sont brûlées ou percées.

The RBRC seal
[RBRC recycle logo]
The RBRC seal on the Ni-MH battery indicates that the cost of recycling the battery can be reclaimed by VTech Communications, Inc. is voluntarily participating in an industry program to collect and recycle these batteries at the end of their useful lives, when taken out of service within the United States and Canada.
The program provides a convenient alternative to placing used Ni-MH batteries into the trash or municipal waste, which may be illegal in your area.

VTech's participation makes it easy for you to drop off the spent battery at local retailers participating in the program or at authorized VTech product service centers. Please call 1 (800) 8 BATTERY® for information on Ni-MH battery recycling and disposal bans/restrictions in your area. VTech's involvement in this program is part of its commitment to protecting our environment and conserving natural resources.

The RBRC Seal and 1 (800) 8 BATTERY® are registered trademarks of Call2recycle, Inc.

FCC, ACTA and IC regulations

FCC Part 15
NOTE: This equipment has been tested and found to comply with the requirements for a Class B digital device under Part 15 of the Federal Communications Commission (FCC) rules. These requirements are intended to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
WARNING: Changes or modifications to this equipment not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Privacy of communications may not be ensured when using this device.

To ensure safety of users, the FCC/ISEDC has established criteria for the amount of radio frequency energy that can be safely absorbed by a user or bystander according to the intended usage of the product. This product has been tested and found to comply with the FCC/ISEDC criteria. The handset may be safely held against the ear of the user. For body worn operation, this handset has been tested and meets the FCC/ISEDC RF exposure guidelines when used with the accessories supplied or designated for this product. Use of other accessories may not ensure compliance with FCC/ISEDC RF exposure guidelines.

Industry Canada
This device contains licence-exempt transmitter(s)/ receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

telephone base must be installed and used such that parts of the user's body other than the hands are maintained at a distance of approximately 20 cm (8 inches) or more.
This Class B digital apparatus complies with Canadian requirement:
CAN ICES-3 (B)/NMB-3(B).

FCC Part 68 and ACTA
This equipment complies with Part 68 of the FCC rules and with technical requirements adopted by the Administrative Council for Terminal Attachments (ACTA). The label on the back or bottom of this equipment contains, among other things, a product identifier in the format US:AAAEQ##TXXXX. This identifier must be provided to your telephone service provider upon request.

The plug and jack used to connect this equipment to premises wiring and the telephone network must comply with applicable Part 68 rules and technical requirements adopted by ACTA. A compliant telephone cord and modular plug is provided with this product. It is designed to be connected to a compatible modular jack that is also compliant. An RJ11 jack should normally be used for connecting to a single line. See the installation instructions in the user's manual.

The Ringer Equivalence Number (REN) is used to determine how many devices you may connect to your telephone line and still have them ring when you are called. The REN for this product is encoded as the 6th and 7th characters following the US: in the product identifier (e.g., if ## is 03, the REN is 0.3). In most, but not all areas, the sum of all RENs should be five (5.0) or less. For more information, please contact your telephone service provider.

This equipment must not be used with Party Lines. If you have specially wired alarm dialing equipment connected to your telephone line, ensure the connection of this equipment does not disable your alarm equipment. If you have questions about what will disable alarm equipment, consult your telephone service provider or a qualified installer.

If this equipment is malfunctioning, it must be unplugged from the modular jack until the problem has been corrected. Replacement to this telephone equipment can only be made by the manufacturer or its authorized agents. For replacement procedures, follow the instructions outlined under the Limited Warranty.

If this equipment is causing harm to the telephone network, the telephone service provider may temporarily discontinue your telephone service. The telephone service provider is required to notify you before interrupting service. If advance notice is not practical, you will be notified as soon as possible. You will be given the opportunity to correct the problem and the telephone service provider is required to inform you of your right to file a complaint with the FCC. Your telephone service provider may make changes in its facilities, equipment, operation, or procedures that could affect the proper functioning of this product. The telephone service provider is required to notify you if such changes are planned.

If this product has memory dialing locations, you may choose to store emergency telephone numbers (e.g., police, fire, medical) in these locations. If you do store or test emergency numbers, please:
Remain on the line and briefly explain the reason for the call before hanging up.
Perform such activities in off-peak hours, such as early morning or late evening.

(1) This device may not cause interference, including interference that may cause undesired operation of the device.

Privacy of communications may not be ensured when using this telephone.

The term "IC:" before the certification/registration number only signifies that the Industry Canada technical specifications were met.

The Ringer Equivalence Number (REN) for this terminal equipment is 0.1. The REN indicates the maximum number of devices allowed to be connected to a telephone interface. The termination of an interface may consist of any combination of devices subject only to the requirement that the sum of the RENs of all the devices not exceed five.

This product meets the applicable Innovation, Science and Economic Development Canada technical specifications.

California Energy Commission battery charging testing instructions
This instruction is set up to comply with the energy-conserving standards right out of the box. These instructions are intended for California Energy Commission (CEC) compliance testing only. When the CEC battery charging testing mode is activated, all telephone functions, except battery charging, will be disabled.

To activate the CEC battery charging testing mode:
1. Unplug the telephone base power adapter from the power outlet. Make sure all handsets are plugged with charged batteries before proceeding.
2. While you press and hold 📢/FIND HANDSET, plug the telephone base power adapter back to the power outlet.
3. After about 20 seconds, when the IN USE light starts flashing, release 📢/FIND HANDSET and then press it again within two seconds. The process takes up to one minute to complete. When the phone successfully enters the CEC battery charging testing mode, the IN USE light turns off and all handsets display To register HS... and ...see manual alternately.

To deactivate the CEC battery charging testing mode:
1. Unplug the telephone base power adapter from the power outlet, and then plug it back in. Then the telephone base is powered up as normal.
2. Place the handset in the telephone base to register it back. The handset displays Registering.... If the registration is successful, the handset screen displays Registered and beeps. The handset is registered with the telephone base.

Limited warranty

What does this limited warranty cover?
The manufacturer of this VTech Product warrants to the holder of a valid proof of purchase ("Consumer" or "you") that the Product and all accessories provided in the sales package ("Product") are free from defects in material and workmanship, pursuant to the following terms and conditions, when installed and used normally and in

accordance with the Product operating instructions. This limited warranty extends only to the Consumer for Products purchased and used in the United States of America and Canada.

What will VTech do if the Product is not free from defects in materials and workmanship during the warranty period ("Materially Defective Product")?
During the limited warranty period, VTech's authorized service representative will replace at VTech's option, without charge, a Materially Defective Product. If we replace the Product, we may use new or refurbished replacement parts. If we choose to replace the Product, we may replace it with a new or refurbished Product of the same or similar design. We will retain defective parts, modules, or equipment. Replacement of the Product, at VTech's option, is your exclusive remedy. VTech will return the replacement Products to you in working condition. You should expect the replacement to take approximately 30 days.

How long is the limited warranty period?
The limited warranty period for the Product extends for ONE (1) YEAR from the date of purchase. If VTech replaces a Materially Defective Product under the terms of this limited warranty, this limited warranty also applies to the replacement Product for a period of either (a) 90 days from the date the replacement Product is shipped to you or (b) the time remaining on the original one-year warranty; whichever is longer.

What is not covered by this limited warranty?
This limited warranty does not cover:
1. Product that has been subjected to misuse, accident, shipping or other physical damage, improper installation, abnormal operation or handling, neglect, inundation, fire, water or other liquid intrusion; or
2. Product that has been subjected to contact with liquid, water, rain, extreme humidity or heavy perspiration, sand, dirt or the like, but then only to the extent the damage was not caused by incorrectly securing the waterproof handset's protective elements, for example, failure to properly close a seal), or such protective elements are damaged or missing (e.g. a cracked battery door), or subjecting a Product to conditions beyond its stated specifications or limits (e.g. 30 minutes in 1 meter of fresh water).
3. Product that has been damaged due to repair, alteration or modification by anyone other than an authorized service representative of VTech;
4. Product to the extent that the problem experienced is caused by signal conditions, network reliability, or cable or antenna systems;
5. Product to the extent that the problem is caused by use with non-VTech accessories;
6. Product whose warranty/quality stickers, product serial number plates or electronic serial numbers have been removed, altered or rendered illegible;
7. Product purchased, used, serviced, or shipped for repair from outside the United States of America or Canada, or used for commercial or institutional purposes (including but not limited to Products used for rental purposes);
8. Product returned without a valid proof of purchase (see item 2 below); or
9. Charges for installation or set up, adjustment of customer controls, and installation or repair of systems outside the unit.

How do you get warranty service?
To obtain warranty service in the United States of America, please visit our web site at www.vtechphones.com or call 1 (800) 595-9511. In Canada, go to phones.vtechcanada.com or call 1 (800) 267-7377.

NOTE: Before calling for service, please review the user's manual - a check of the Product's controls and features may save you a service call.

Except as provided by applicable law, you assume the risk of loss or damage during transit and transportation and are responsible for delivery or handling charges incurred in the transport of the Product(s) to the service location. VTech will return replaced Product under this limited warranty. Transportation, delivery or handling charges are prepaid. VTech assumes no risk for damage or loss of the Product in transit. If the Product failure is not covered by this limited warranty or the Product failure is not covered by this limited warranty. If the Product failure is not covered by this limited warranty, VTech will notify you and reinform you that authorize the cost of replacement prior to any further replacement activity. You must pay for the cost of replacement and return shipping costs for the replacement of Products that are not covered by this limited warranty.

What must you return with the Product to get warranty service?
1. Return the entire original package and contents including the Product to the VTech service location along with a description of the malfunction or difficulty; and
2. Include a "valid proof of purchase" (sales receipt) identifying the Product purchased (Product model) and the date of purchase or receipt; and
3. Provide your name, complete and correct mailing address, and telephone number.

Other limitations
This warranty is the complete and exclusive agreement between you and VTech. It supersedes all other written or oral communications related to this Product. VTech provides no other warranties for this Product. The warranty exclusively describes all of VTech's responsibilities regarding the Product. There are no other warranties which extend beyond the terms of this limited warranty. No one is authorized to make modifications to this limited warranty and you should not rely on any such modification.

State/Provincial Law Rights: This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state or province to province. Limitations: Implied warranties, including those of fitness for a particular purpose and merchantability (an unwritten warranty that the Product is fit for ordinary use) are limited to one year from the date of purchase. Some states/provinces do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. In no event shall VTech be liable for any consequential, incidental, consequential, or similar damages (including, but not limited to lost profits or revenue, inability to use the Product or other equipment, the cost of substitute equipment, and claims by third parties) resulting from the use of this Product. Some states/provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

Please retain your original sales receipt as proof of purchase.
