RM5762 Wi-Fi 1080p Pan & Tilt Video Monitor

VTech Wi-Fi HD Video Monitor allows you to stay close to your baby when you are on the move or

This monitor is Wi-Fi enabled, which uses your home wireless network to stream live video and audio through the HD camera unit and 5-inch color screen parent unit. It allows you to maintain a constant

You can also monitor from your smartphone and mobile tablet.

VTech Wi-Fi HD Video Monitor uses MyVTech Baby 1080p app to let you instantly see and hear what's happening with your baby from anywhere in the world. The app can be downloaded from the App Store or the Google Play™ Store, directly from your smartphone or mobile tablet.

Quick start guide

Set up Wi-Fi connection

Press **∨** or **∧** to highlight your preferred and secured 2.4GHz Wi-Fi network with good signal strength, then press **SELECT**.

- You must select a password-protected network.

Enter the password of the Wi-Fi network. Press ▲, ▼, ◀ or > to highlight the character, then press **SELECT**. When done, press \land , \lor , \lt or \gt to highlight Next, then press SELECT.

■ Note

After you have set up the Wi-Fi connection, the parent unit may auto-prompt you for update. For details, please see Auto-prompt for software and firmware updates on the back.

vtech®

Add camera

After connecting the parent unit to your Wi-Fi network, the system will help you add your camera. Follow the instructions shown on screen, then press < or > to highlight Next, then press SELECT.

Once your camera is located, the system will connect the camera via the same Wi-Fi network that your parent unit has connected to. When the camera is successfully added to your parent unit, the parent unit displays the camera image.

Basic operation

Use the menu

Press **MENU/SELECT** to enter the menu, choose a menu item, or save a setting. You can use the parent unit menu for advanced setting or operations, such as to play or stop the camera unit lullaby, or adjust the sound detection setting.

While in the menu:

- Press ∧, ∨, < or > to scroll among the menu options.
- Press MENU/SELECT to select an item.
- Press -VOL to return to the idle screen.

While in the submenu, press **<** to return to the pervious menu.

Main menu:

Adjust speaker volume

Press -VOL / VOL+ to adjust your parent unit speaker volume. It determines the volume of sound transmitted from your camera unit.

Zoom

Press \bigoplus or \bigcirc to zoom in or out.

Talk to your baby unit

Press and hold TALK to speak to your parent unit. Your voice is transmitted to the baby unit.

Basic operation

Turn off the screen

Press LCD ON/OFF to switch off the screen. You can still hear sound from the camera unit.

Parent unit settings

- 1. Press **MENU** when the parent unit is idle.
- 2. Press \wedge , \vee , \triangleleft or \triangleright to choose **General Settings**, then press **SELECT**.

Auto-prompt for software and firmware updates

To ensure that your HD video monitor is always at its best performance, the parent unit will prompt you to update its software and the camera unit's firmware when there are new versions available.

Press MENU. The new software will then be installed automatically. When the software update is complete, the parent unit will restart.

NOTE

Updates are available only when the parent unit is connected to AC power.

Read the online manual for complete operation instructions

Driven by system updates, the software, online manual, and online FAQs will be updated periodically.

> For latest information and supports, go and check the online manual and online FAQs.

- 1. Press **MENU** when the parent unit is idle.
- 2. Press **∨** or **∧** to choose **General Settings**, then press **SELECT**.

Press **y** or **∧** to choose **About/Help**, then press SELECT.

Press \vee or \wedge to choose **Help**, then press **SELECT**.

Press **∨** or **∧** to choose **User manual**, then press **SELECT**.

Press v or A to choose RM5762, then press SELECT. Use your smartphone or mobile device to read the online parent unit manual on our product support web page.
