Congratulations

on purchasing your new VTech product. Before using this baby monitor, please read the Important safety instructions For support, shopping, and everything new at VTech, visit our website at www.vtechphones.com. In Canada, visit www.vtechcanada.com.

hat does HD Video Monitor do?

VTech 5" Smart Wi-Fi 1080p Pan & Tilt Monitor allows you to stay close to your baby when you are on the move or away. This monitor is Wi-Fi enabled, using your home wireless network to stream live video and audio through the 1080p baby unit and 5-inch color screen parent unit. It allows you to maintain a constant connection to your baby.

You can also monitor from your smartphone and mobile tablet. VTech 5" Smart Wi-Fi 1080p Pan & Tilt Monitor uses MyVTech Baby Pro app to let you instantly see and hear what's happening with your baby from anywhere in the world. The app can be downloaded from the App Store or the Google PlayTM Store.

| Internet connection | 1.5 Mbps @ 720p or 2.5 Mbps @1080p upload bandwidth per baby unit |

DOWNLOAD APP FOR MOBILE ACCESS

Download the free **MyVTech Baby Pro** mobile app and install it to a mobile device, then use your mobile device and the mobile app to monitor your areas remotely.

1. Press MENU/SELECT when the parent unit is idle.

2. Go to Connect Mobile Phone

3. Scan the QR code in the parent unit to download the app into your mobile device if you have not installed the app yet. 4. Follow the instructions in the mobile app to set up and pair your baby

Alternatively, you can download the mobile app from the App Store or Google Play store.

Install MyVTech Baby Pro mobile app

1. Browse the App Store 🙆 or the Google Play store 🝺

2. Search for the mobile app with the keyword "myvtech baby pro".

3. Download and install the MyVTech Baby Pro mobile app to your mobile device.

Scan the QR codes on the right to get the app.

• Make sure your mobile device meets the minimum requirement for the mobile app.

Minimum requirement

unit to the mobile app.

The mobile app is compatible with: Android[™] 6.0 or later; and

iOS 12 or later.

After installing the mobile app, follow the instructions in the mobile app and parent unit to set up and pair your baby unit.

In your mobile device:

1. Tap of to run the mobile app in your mobile device, and then create a user account.

2. We recommend that you use common webmail services, such as Google Gmail for registration of your user account. Check your email (and Spam folder), and activate your new camera account via the email link, then sign in to your account.

3. Follow the instructions in the mobile app to pair the camera. Tap oxdot , then **Add Camera** in the mobile app to get started.

optimised to deliver the best possible viewing result.

With Auto mode connection, the parent unit will automatically select the most reliable

connection mode (Direct or Wi-Fi) when connecting to the baby unit(s). Mobile app access will not be interrupted in Auto mode. ■ Notes

When both parent unit and app are viewing the camera simultaneously, the video quality will be

PROTECT YOUR PRIVACY AND ONLINE SECURITY

VTech cares about your privacy and peace of mind. That's why we've put together a list of industry-recommended best practices to help keep your wireless connection private and your devices protected when online. We recommend you carefully review and consider complying with the following tips.

Ensure your wireless connection is secure.

• Before installing a device, ensure your router's wireless signal is encrypted by selecting the "WPA2-PSK with AES" setting in your router's wireless security menu. Change default settings.

 Change your wireless router's default wireless network name (SSID) to something unique. • Change default passwords to unique, strong passwords. A strong password:

- Is at least 10 characters long. Is complex.

Does not contain dictionary words or personal information.

- Contains a mix of uppercase letters, lowercase letters, special characters and numbers. Keep your devices up to date.

• Download security patches from manufacturers as soon as they become available. This will ensure you always have the latest security updates.

• If the feature is available, enable automatic updates for future releases. Disable Universal Plug and Play (UPnP) on your router.

network devices to open inbound ports without any intervention or approval from you. A virus or other malware program could use this function to compromise security for the

UPnP enabled on a router can limit the effectiveness of your firewall by allowing other

Test the sound level and position the baby monitor

Testing the sound level of the baby monitor

■ Note · This baby monitor is intended as an aid. It is not a substitute for proper adult supervision, and should not be used as such.

① CAUTION

For hearing protection, make sure the parent unit is more than 3 feet away from the baby unit. If you hear any high-pitched noise from the parent unit, move the parent unit further until the noise stops. You can also press **VOL** – on the parent unit to lower or mute the noise.

Positioning the baby monitor

Keep the baby unit out of the reach of your baby. Never place or mount the baby unit inside the baby's crib or playpen.

1. Place the baby unit more than 3 feet away 2. Adjust the angle of the baby unit to aim from your baby.

3. To avoid causing high-pitched screeching noise from your baby monitor

- Make sure your baby unit and parent unit are more than 3 feet apart; OR
- Turn down the volume of your parent unit.

TEST THE LOCATION FOR THE BABY UNIT

If you plan to install your baby unit in a designated location, and use your home Wi-Fi network to connect your video monitor, you need to test which of your selected monitoring areas within the house have good Wi-Fi signal strength. After you have powered on your parent unit, you can use your parent unit's Wi-Fi signal strength indicator to assist in checking. Once you have identified the suitable location, you can install your baby unit. Adjust the distance between your baby unit and the Wi-Fi router if needed.

Depending on surroundings and obstructing factors, such as the effect distance and internal walls have on signal strength, you may experience reduced Wi-Fi signal. To improve the Wi-Fi signal strength, adjust the distance or direction of your parent unit. Check with

To ensure that your baby monitor is always at its best performance, the parent unit will prompt you to update its software and the baby unit firmware when there are new versions available.

AUTO SOFTWARE AND FIRMWARE UPDATE

- Follow the instructions on the parent unit screen to update your baby monitor. If you skip the updates, the parent unit and baby unit will be updated automatically when the parent unit is powered off, and then powered on again.
- To check if your device is running on the latest software or to update your device software, go to

Connect your baby monitor to Wi-Fi

You must connect your video monitor to your secured home Wi-Fi network in order to receive the latest software and firmware updates. To set it up, go to:

4. Place the baby unit on the wall mount bracket, and then slide it forward until it locks into place. Align the holes on the wall mount bracket with the screws on the wall, and slide the wall mount bracket down until it locks into place.

tighten the screws until only 1/4 inch of

the screws are exposed.

GENERAL PRODUCT CARE

To keep this product working well and looking good, follow these guidelines:

- \cdot Avoid placing it near heating appliances and devices that generate electrical noise (for example, motors or fluorescent lamps).
- DO NOT expose it to direct sunlight or moisture.
- · Avoid dropping the product or treating it roughly. Clean with a soft damp cloth.
- · DO NOT immerse the parent unit and the baby unit in water and do not clean them under the tap.
- · DO NOT use cleaning spray or liquid cleaners. \cdot Make sure the parent unit and the baby unit are dry before you connect them to the mains again.

· Clean the USB charging port of dust, dirt, and lint regularly.

STORAGE

When you are not going to use the video monitor for some time, store the parent unit, the baby unit and the adapters in a cool and dry place.

1. Disconnect the power to the baby unit.

3. Reboot the parent unit.

FCC and IC regulations

FCC Part 15

NOTE: This equipment has been tested and found to comply with the requirements for a Class B digital device under Part 15 of the Federal Communications Commission (FCC) rules. These requirements are intended to provide reasonable protection agains harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio vision reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the erference by one or more of the following measures

Reorient or relocate the receiving antenna.

the user's authority to operate the equipment

This Class B digital apparatus complies with Canadian requirement:

Increase the separation between the equipment and receive connect the equipment into an outlet on a circuit different from that to which the receiver is connected. consult the dealer or an experienced radio/TV technician for help. WARNING: Changes or modifications to this equipment not expressly approved by the party responsible for compliance could void

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired o ensure safety of users, the FCC has established criteria for the amount of radio frequency energy that can be safely absorbed by user or bystander according to the intended usage of the product. This product has been tested and found to comply with the F criteria. The baby unit shall be installed and used such that parts of all persons' body are maintained at a distance of approximately 8 in (20 cm) or more. The transmitter and antenna of the parent unit shall be held at least 1 in (2.5 cm) from your face.

Industry Canada

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions: (1) This device may not cause interference. (2) This device must accept any interference, including interference that may cause undesired operation of the device. The term "IC:" before the certification/registration number only signifies that the Industry Canada technical specifications were met.

RF radiation exposure statemen The product complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. The baby unit should be installed and operated with a minimum distance of 8 in (20 cm) between the baby unit and all persons' body. Use of other accessories

may not ensure compliance with FCC RF exposure guidelines. This equipment complies also with Industry Canada RSS-102 with respect to Canada's Health Code 6 for Exposure of Humans to RF Fields.

This video monitor meets the California Energy Commission (CEC) regulations for energy consumption. Your video monitor is set up to

- 'huhai Great Power Energy Co., Ltd. 9. Lorsqu'ils sont branchés dans une prise de courant, les adaptateurs secteur ont été conçus pour être orientés correctement, soit à la verticale ou au plancher. Les broches n'ont pas été conçues pour supporter le poids du bloc d'alimentation et le maintenir en place si celuici est branché dans une prise au plafond, sous une table ou dans un meuble.
- Pour les appareils raccordés, la prise de courant (de l'adaptateur secteur) doit être installée près de l'équipement et doit être acilemént accessible. Débranchez ce produit de la prise de courant avant de procéder au nettoyage. N'utilisez pas de nettoyants en aérosols. Utilisez un chiffon humide pour le nettoyer.

 Ne coupez pas les cordons d'alimentation pour remplacer les fiches, car ceci peut présenter un danger potentiel.
- Ne laissez aucun objet reposer ni appuyer sur le cordon d'alimentation. N'installez pas cet appareil dans un endroit où l'on risque d'écraser le cordon d'alimentation ou de le piétiner
- 14. Ne faites fonctionner cet appareil qu'avec le type d'alimentation indiqué sur l'étiquette. Si vous ne connaissez pas le type d'alimentation que vous possédez à votre domicile, consultez votre marchand ou votre compagnie locale d'électricité. L'équipement doit être fourni à partir d'un acquiescement gauche identifié d'USB aux conditions de la source d'énergie
- 16. Ne surchargez pas les prises de courant murales ni les rallonges

un endroit avant de vous assurer qu'il y ait une bonne circulation

 Ne placez pas cet appareil sur un chariot, meuble, trépied, support de montage ni table chancelants. Support de montage in table chancelants.

18. Les trous et ouvertures du boîtier, situés à l'arrière de l'appareil ou sous celui-ci, servent à aèrer l'appareil. Pour l'empêcher de surchauffer, ne bloquez sous aucun prétexte ces ouvertures et n'empêchez pas l'aération adéquate de l'appareil en le plaçant sur un lit, divan, tapis ou toute autre surface similaire. De même, ne le positionnez pas à proximité ni au-dessus d'une source de chaleur ou d'un calorifère. De plus, ne placez pas l'appareil dans un endroit avant de vous assurer qu'il v ait une honne circulation.

- appareil, car ils pouraient entre en contact avec des cer appareil, car ils pourraient entrer en contact avec des points de tension dangereux ou causer des courts-circuits qui peuvent dégénérre en incendies ou en risques d'électrocution. Ne renversez jamais de liquide dans ce produit. Observez toutes les instructions et mises en garde inscrites sur
 - 20. Afin de réduire les risques d'électrocution, ne démontez pas ce appareil, mais apportez-le dans un centre de service autorisé. Louverture du boîtier ou le retrait de toutes pièces que contier cet appareil, à l'exception de l'accès autorisé à certaines portes ou ouvertures, risque de vous exposer à des points de tension dangereux ou d'autres dangers. Un remontage incorrect peut par la suite présenter des risques d'électrocution. Vous devriez tester la réception chaque fois que vous mettez
 - Examinez les composantes afin de vérifier si celles-ci ne sont pas encommagees.
 Il existe un très faible risque de perte de confidentialité avec certains appareils électroniques (autres écoute-bébés, téléphones sans fils etc.). Pour l'éviter, s'assurer que le produit n'a jamais été utilisé avant l'achat, réinitialiser l'unité de façon périodique, éteindre l'écoute-bébé quand il n'est pas en cours d'utilisation.
- Les enfants devraient être supervisés afin de vous assurer qu'ils ne jouent pas avec l'appareil. Les petites pièces de ce moniteur peuvent être avalées par les bébés ou les petits enfants. Veuillez tenir ces pièces hors de portée des enfants. pile dans un environnement à température extrêmement evée peut entraîner une explosion ou la fuite d'un liquide ou 'un gaz inflammable. Une pile soumise à une pression d'air Le produit n'est pas conçu pour être utilisé par des personnes (incluant des enfants) aux capacités physiques, sensorielles ou mentales réduites ou qui manquent d'expérience et de connaissances, à moins qu'on leur ait donné suffisamment de supervision ou d'instructions relativement à l'utilitation de

CONSERVEZ CES INSTRUCTIONS Utilisez et entreposez le produit à une température entre 0 $^\circ$ C 32 $^\circ$ F) et 40 $^\circ$ C (104 $^\circ$ F). Risque de brûlure, risque d'incendie, risque d'explosion associé à une mauvaise manipulation de la batterie.

xtrêmes, ainsi qu'à la lumière directe du soleil. Ne l'installez pas rès d'une source de chauffage. Avertissement - Risque de strangulation -Les enfants se sont ETRANGILES dans des cordons. Gardez ce cordon hors de portée des enfants (à plus de 0,9 m). N'enlevez pas cette étiquette. Ne jamais placer le moniteur à l'intérieur du berceau ou du parc de bébé. Ne jamais couvrir le moniteur ou l'unité (s) portative avec un article tel une serviette ou une couverture. D'autres produits électroniques peuvent causer des interférences auprès de votre caméra IP.
