RM7756-2HD 7" Smart Wi-Fi 1080p

RM7756HD

Video Monitor

For more support information

Congratulations

on purchasing your new VTech product. Before using this baby monitor, please read the Important safety instructions For support, shopping, and everything new at VTech, visit our website at www.vtechphones.com. In Canada, visit www.vtechcanada.com.

hat does HD Video Monitor do?

VTech 7" Smart Wi-Fi 1080p Video Monitor allows you to stay close to your baby when you are on the move or away. This monitor is Wi-Fi enabled, using your home wireless network to stream live video and audio through the 1080p baby unit and 7-inch color screen parent unit. It allows you to maintain a constant connection to your baby.

You can also monitor from your smartphone and mobile tablet. VTech 7" Smart Wi-Fi 1080p Video Monitor uses MyVTech Baby Pro app to let you instantly see and hear what's happening with your baby from anywhere in the world. The app can be downloaded from the App Store or the Google PlayTM Store.

IMPORTANT SAFETY INSTRUCTIONS

The applied nameplate is located at the bottom of the baby unit's base. When using your equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and

- injury, including the following: Follow all warnings and instructions marked on the product.
- 4. This product is intended as an aid. It is not a substitute for responsible and proper adult supervision and should not be

3. CAUTION: Do not install the baby unit at a height above 6.5

This VTech product complies with all standards regarding electromagnetic fields (EMF). If handled properly and according to the instructions in this user's manual, the product is safe to be used based on scientific evidence available today.

WHAT'S IN THE BOX

Your baby monitor package contains the following items. Save your sales receipt and original packaging in the event warranty service is necessary.

For mobile access:

MyVTech	Baby Pro	mobile app)

Quick start guide

Network		Wi-Fi	
Wi-Fi ro	ıter	2.4GHz 802.11 b/g/n	
Internet	connection	1.5 Mbps @ 720p or 2.5 Mbps @1080p upload bandwidth per baby unit	

monitor your areas remotely. 1. Press **MENU** when the parent unit is idle.

DOWNLOAD APP FOR MOBILE ACCESS

Download the free **MyVTech Baby Pro** mobile app and install it to a

mobile device, then use your mobile device and the mobile app to

- 3. Scan the QR code in the parent unit to download the app into your mobile device.
- 4. Follow the instructions in the mobile app to set up and pair your baby unit to the mobile app.

Alternatively, you can download the mobile app from the App Store or Google Play store.

Install MyVTech Baby Pro mobile app

- 1. Browse the App Store 🙆 or the Google Play store 🝺
- 2. Search for the mobile app with the keyword "myvtech baby pro".
- 3. Download and install the MyVTech Baby Pro mobile app to your mobile device.

Scan the QR codes on the right to get the app.

NOTE

 Make sure your mobile device meets the minimum requirement for the mobile app.

Minimum requirement The mobile app is compatible with:

- Android[™] 6.0 or later; and
- iOS 12 or later.

After installing the mobile app, follow the instructions in the mobile app and parent unit to set up and pair your baby unit.

In your mobile device:

- 1. Tap to run the mobile app in your mobile device, and then create a user account. 2. We recommend that you use common webmail services, such as Google Gmail for
- registration of your user account. Check your email (and Spam folder), and activate your new camera account via the email link, then sign in to your account.

3. Follow the instructions in the mobile app to pair the camera. Tap =, then Add Camera in the mobile app to get started.

You can reset the parent unit by pressing the **RESET** key at the back of the unit

Insert a pin into the **RESET** hole on the back of the parent unit, and then press the key inside.

Testing the sound level of the baby monitor

This baby monitor is intended as an aid. It is not a substitute for proper adult supervision, and should not be used as such.

Test the sound level and position the baby monitor

① CAUTION

For hearing protection, make sure the parent unit is more than 3 feet away from the baby unit. If you hear any high-pitched noise from the parent unit, move the parent unit further until the noise stops. You can also press VOL – on the parent unit to lower or mute the noise.

Increase the parent unit speaker volume if you cannot hear the sounds transmitted from the baby unit.

Positioning the baby monitor

- Keep the baby unit out of the reach of your baby. Never place or mount the baby unit inside the baby's
- Place the baby unit more than 3 feet away from your baby

3. To avoid causing high-pitched screeching noise from your baby monitor:

- Make sure your baby unit and parent unit are more than 3 feet apart; OR
- · Turn down the volume of your parent unit.

TEST THE LOCATION FOR THE BABY UNIT

If you plan to install your baby unit in a designated location, and use your home Wi-Fi network to connect your video monitor, you need to test which of your selected monitoring areas within the house have good Wi-Fi signal strength. After you have powered on your parent unit, you can use your parent unit's Wi-Fi signal strength indicator to assist in checking. Once you have identified the suitable location, you can install your baby unit. Adjust the distance between your baby unit and the Wi-Fi router if needed.

your parent unit again

MOUNT THE BABY UNIT (OPTIONAL)

- Check for reception strength and camera angle of the baby unit before drilling the holes.
- The types of screws and plugs you need depend on the composition of the wall You may need to purchase the screws and plugs separately to mount your baby units.

other screw in the top hole.

3. Align the wall mount bracket and screws with

the holes in the wall as shown. Tighten the screw

in the middle hole first, so that the wall mount

bracket position is fixed. You can tighten the

4. Place the baby unit on the wall mount bracket

and then slide it forward until it locks into place.

Connect the power adapter to the baby unit.

1. Place the wall mount bracket on a wall and then use a pencil to mark two holes in parallel. Remove the wall mount bracket and drill two holes in the wall (5.5mm drill bit).

- 2. If you drill the holes into a stud, go to step 3.
- If you drill the holes into an object other than a stud, insert the wall plugs into the holes. Tap gently on the ends with a hammer until the wall plugs are flush with the wall.

3. Insert the screws into the holes and tighten the screws until only 6.5mm inch of the screws are exposed.
