VC2610

Baby Unit Floor Stand
(for use with VC2105 5" Smart Nursery
Over-the-Crib Mount Monitor)

For more support information:

VC2610

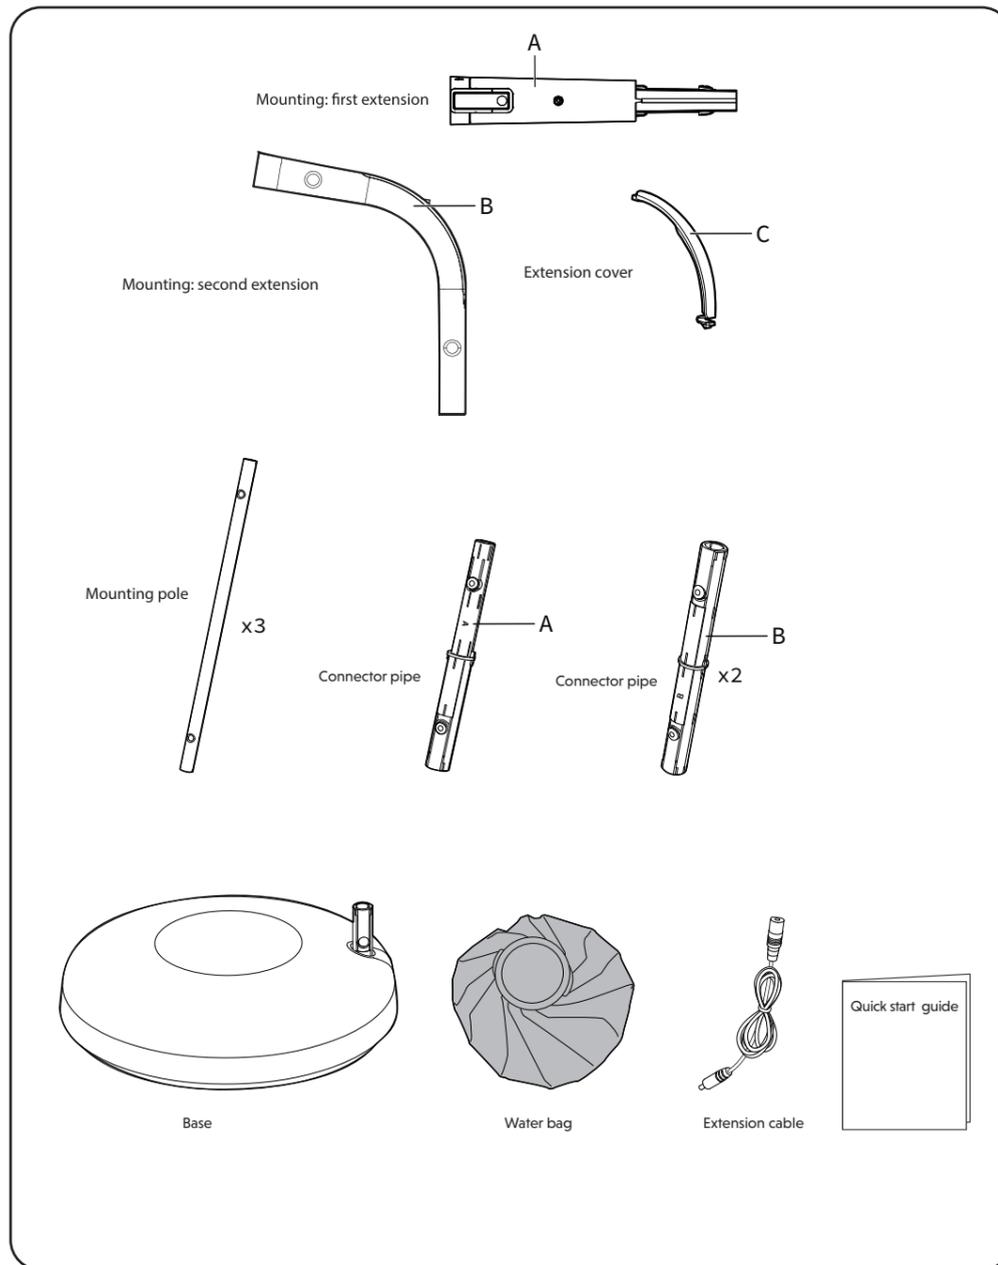

⚠ CAUTIONS

- Adult setup is required.
- Children should be supervised to ensure that they do not play with the product.
- The small parts of this device can be swallowed by babies or small children. Keep these parts out of reach of children.
- The product is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

📄 NOTE

- VC2610 is the floor stand accessory of VC2105. Install VC2610 with VC2105.
- For the best position of viewing, please place the floor stand in the middle of the long side beside the crib.

You can also call our Customer Support at 1-844-848-8324 (1-844-84-VTECH) [in US] or 1-888-211-2005 [in Canada] for help.

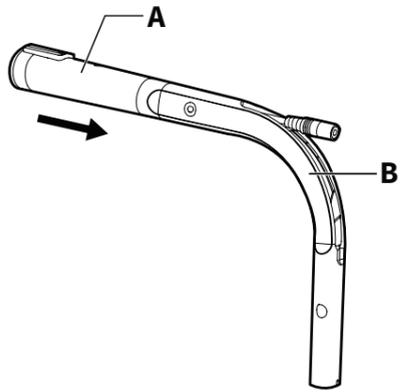

VC2610

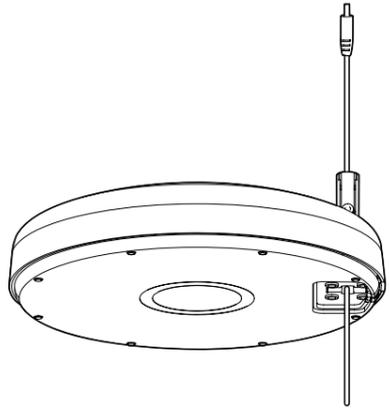

INSTALL THE FLOOR STAND

1. Insert the First extension (A) onto the Second extension (B), aligning the slot in between. Make sure the DC socket is out on opening of the Second extension and ready for connection.

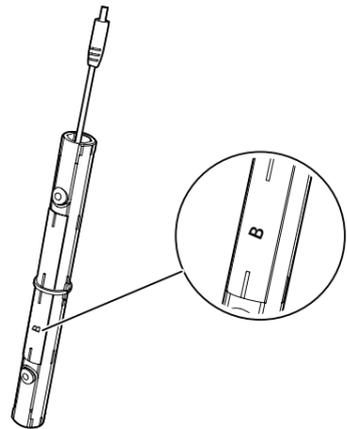

2. Let the cable jack of the Extension cable pass through from the back of the base.

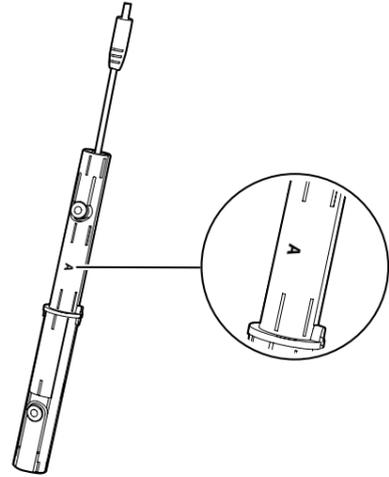

3. Pick one pole and pass the cable jack through the pole, then connect the pole with the Base.

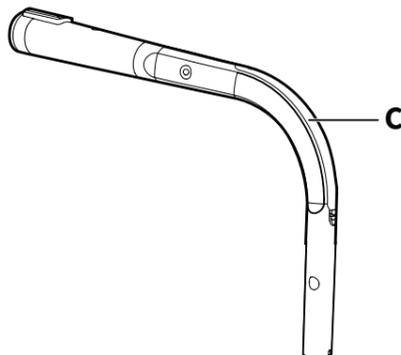

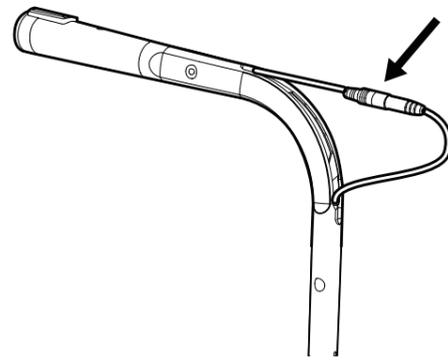

4. Pass the cable jack through the connector pipe (B), the second pole, the second connector pipe (B), and the third pole in turn. Align the slot between the poles and connector pipes (B) and connect all three poles firmly with the pipes.

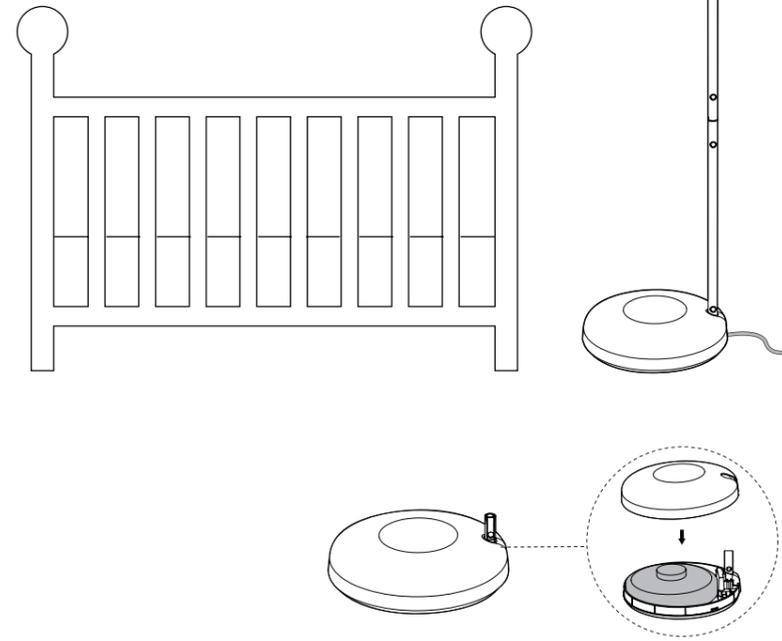

5. Pass the cable jack through the connector pipe (A), then connect the pipe with the third pole.

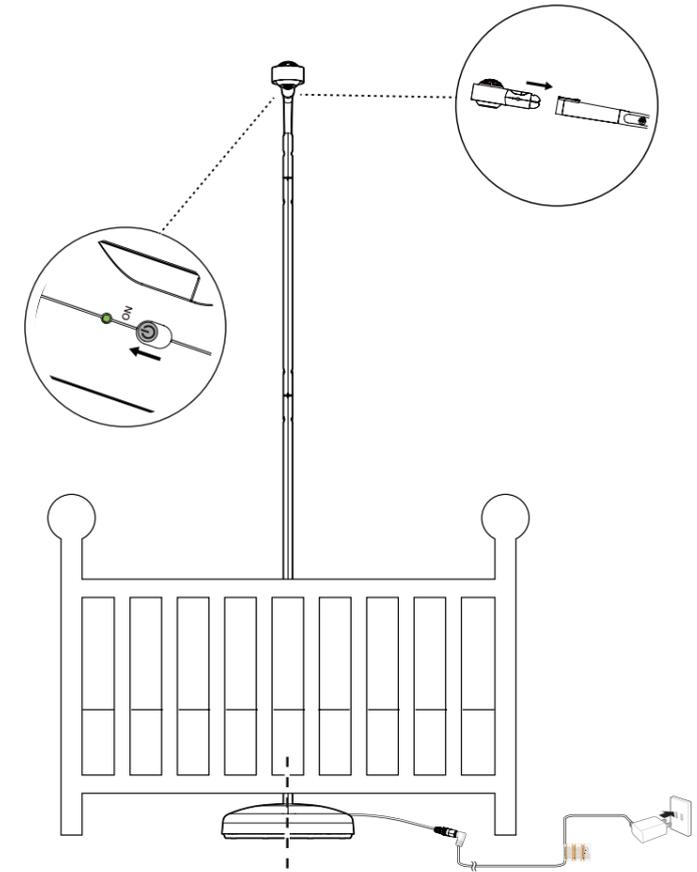

6. Connect the cable jack with the DC socket, then secure the cable with the Extension cover (C).

7. Place the floor stand near the crib. Open the base cover, and put the water bag with water filled into the base to prevent the stand from falling. Then, cover the base cover.

8. Install the Baby Unit onto the First extension (A). Connect the adapter to the end of the cable and the power supply to power up the Baby Unit. Slide the switch to **ON** to power your Baby Unit on.

Center of the crib (long side)

Floor stand installation is completed.
