IMPORTANT SAFETY INSTRUCTIONS

When using your equipment, basic safety precautions should always be followed to reduce the risk of fire,

electric shock and injury, including the following: . Follow all warnings and instructions marked on the

The applied nameplate is located at the bottom of the

- Adult setup is required CAUTION: Do not install the baby unit at a height
- 4. This product is not a substitute for adult supervision of the Inis product is not a substitute for adult supervision of the infant. Supervision of the infant is the parent's or caregiver's responsibility. This product could cease operating, and therefore you should not assume it will continue working properly for any given period of time. Further, this is not a medical device and should not be used as such. This product is intended to assist you in supervising your baby
- Do not use this product near water. For example, do not use it next to a bath tub, wash bowl, kitchen sink, aundry tub or swimming pool, or in a wet basemen
- **6. CAUTION:** Use only the battery provided. There may be a risk of explosion if a wrong type of battery is used for the parent unit. The battery cannot be subjected to high or low parent unit. The battery cannot be subjected to high of low extreme temperature and low air pressure at high altitude during use, storage or transportation. Disposal of battery into fire or a hot oven, or mechanically crushing or cutting or the battery can result in an explosion. Leaving the battery in an extremely high temperature surrounding environment can result in an explosion or the leakage of flammable liquid of cas. Battery subjected to extremely low air pressure may of gas. Battery subjected to extremely low air pressure may result in an explosion or the leakage of flammable liquid o gas. Dispose of used battery according to the information in The RBRC seal.
- Use only the adapters included with this product. Incorrect adapter polarity or voltage can seriously damage the product.

 Power adapter information:
- Parent unit output: 5V DC 1A VTech Telecommunications Ltc Model: VT05EUS05100 Baby unit output: 5V DC 600mA. VTech Telecommunications Ltd. Model: VT05EUS05060
- Rechargeable battery information: Zhuhai Great Power Energy Co., Ltd. Li-ion battery, 3.6V, 2600mAh, 9.36Wh; Model: ICR18650-2.6Ah-3.6V-1S1P
- The power adapters are intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet
- For pluggable equipment, the socket-outlet shall be installed near the equipment and shall be easily
- Unplug this product from the wall outlet before cleaning Do not use liquid or aerosol cleaners. Use a damp cloth
- Do not cut off the power adapters to replace them with other plugs, as this causes a hazardous situation. Do not allow anything to rest on the power cords. Do not install this product where the cords may be walked
- 13. This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply in your home, consult your dealer or local power company. 14. Do not overload wall outlets or use an extension cord.
- Do not place this product on an unstable table, shelf, stand or other unstable surfaces. . This product should not be placed in any area where
- proper ventilation is not provided. Slots and openings in the back or bottom of this product are provided for ventilation. To protect them from overheating, these openings must not be blocked by placing the product on a soft surface such as a bed, sofa or rug. This product should never be placed near or over a radiator or heat register.

Never push objects of any kind into this product through the slots because they may touch dangerous voltage points or create a short circuit. Never spill liquid of any kind on the product.

expose you to dangerous voltages or other risks Incorrect reassembling can cause electric shock when the product is subsequently used. You should test the sound reception every time you turn on the units or move one of the components.

- Periodically examine all components for damage. There is a very low risk of privacy loss when using certain electronic devices, such as baby monitors, cordless telephones, etc. To protect your privacy, make sure the product has never been used before purchase, reset the baby monitor periodically by powering off and then powering on the units, and power off the baby monitor if you will not use it for
- Children should be supervised to ensure that they do not play with the product.
- The product is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

SAVE THESE INSTRUCTIONS

- Use and store the product at a temperature between 32°F and 104°F. Do not expose the product to extreme cold, heat or direct sunlight. Do not put the product close to a
- eating source. Batteries should not be exposed to excessive heat such as bright sunshine or fire.
- as bright surstime.

 Warning—Strangulation Hazard—
 Children have STRANGLED in cords.
 Keep this cord out of the reach of

 Keep this cord out of the reach of not remove this tag. Never place the baby unit(s) inside the baby's crib or
- olaypen. Never cover the baby unit(s) or parent unit with anything such as a towel or a blanket.
- Will anything such as a lower of a blanker.

 Other electronic products may cause interference with your baby monitor. Try installing your baby monitor as far away from these electronic devices as possible: wireless routers, radios, cellular telephones, intercoms, room monitors, televisions, personal computers, kitchen appliances and

WHAT'S IN THE BOX

CONNECT THE BABY MONITOR

NOTES

- The rechargeable battery in the parent unit is built-in. Use only the power adapters supplied with this product.
- Make sure the baby monitor is not connected to a switch-controlled electric outlet.
- Connect the power adapters in a vertical or floor mount position only. The adapters' prongs are not
- designed to hold the weight of a baby monitor, so do not connect them to any ceiling, under-thetable, or cabinet outlets. Otherwise, the adapters may not properly connect to the outlets. Make sure the parent unit, the baby units and the power adapter cords are out of reach of children.
