- third-party adaptors. 13. Do not allow anything to rest on the power cords. Do not install this product where the cords may be walked on or
- 14. The product should only be operated from a power source indicated on the power adaptor label or marking. If you are unsure of the type of power supply in your home, consult your dealer or electricity supply provider
- 15. Do not overload wall outlets or use an extension cord. 16. Do not place this product on an unstable table, shelf, stand or other unstable surfaces
- 17. This product should not be placed in any area where prope ventilation is not provided. Any slots or openings in the back or bottom of this product are provided for ventilation. To protect from overheating, openings must not be blocked by placing the product on a soft surface such as a bed, sofa radiator or heat source.

# **IMPORTANT SAFETY INSTRUCTIONS**

Never insert any objects through any apertures or slots in the product as this can be dangerous and cause damage to the battery or other internal parts. Never spill any liquids on the

- 19. To reduce the risk of electric shock, do not disassemble this product, but take it to an authorized service facility. Disassembling or removing parts of the product other than battery replacement via a battery door (if applicable) may expose igerous voltages or other risks.
- 20. You should test the sound reception every time you turn on ne units or move one of the components.
- Periodically examine all components for damage. There is a very low risk of privacy loss when using certain electronic devices, such as baby monitors, cordless tele-phones, etc. To protect your privacy, make sure the product has never been used before purchase, reset the baby monitor periodically by powering off and then powering on the units, and power off the baby monitor if you are not
- intending to use it for some time. Children should be supervised to ensure that they do not play with the product
- 24. The small parts of this monitor can be swallowed by babies or small children. Keep these parts out of reach of children. 25. The product is not intended for use by persons (including children) with reduced physical, sensory or mental capabili-ties, or lack of experience and knowledge, unless they have

### SAVE THESE INSTRUCTIONS

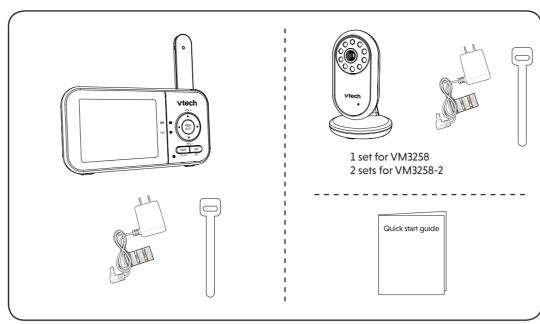

been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

- Use and store the product at a temperature between 32°F (0°C) and 104°F (40°C). Mishandling batteries can cause burn, fire or explosion
- Batteries should not be exposed to excessive heat such as bright sunshine or fire.
- Do not expose the product to extreme cold, heat or direct sunlight. Do not place the product close to a
- Warning—Strangulation Hazard—Children have STRANGLED in cords. Keep this cord out of the reach of children (more than 3 ft (0.9m) away). Do not remove warning label on the adapter cord. Never place the camera unit(s) inside the baby's crib or playpen. Never cover the camera unit(s) or parent unit with
- anything such as a towel or a blanket. Other electronic products can cause interference to your parent unit and baby unit. Try installing your baby unit as far away as possible from the following electronic devices: wireless routers, radios, mobile telephones, intercoms, room monitors, televisions, personal computers, kitchen appliances (e.g. microwave ovens) and cordless telephones
- Precautions for users of implanted cardiac pacemakers Cardiac pacemakers (applies only to digital cordless devices Wireless Technology Research, LLC (WTR), an independent research entity, led a multidisciplinary evaluation of the Administration, WTR recommends to physicians that:
- Pacemaker patients Should keep wireless devices at least six inches from the
- pacemaker.
  Should NOT place wireless devices directly over the pacemaker, such as in a breast pocket, when it is turned ON. WTR's evaluation did not identify any risk to bystanders with pacemakers from other persons using wireless devices.

# Electromagnetic fields (EMF)

This VTech product complies with all standards regarding electromagnetic fields (EMF). If handled properly and according to the instructions in this user's manual, the product is safe to be used based on scientific evidence available today

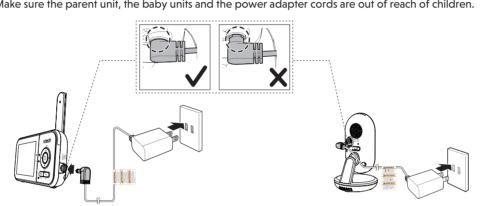

# WHAT'S IN THE BOX

# CONNECT THE BABY MONITOR

## NOTES

- The rechargeable battery in the parent unit is built-in. Use only the power adapters supplied with this product.
- Make sure the baby monitor is not connected to a switch-controlled electric outlet.
- Connect the power adapters in a vertical or floor mount position only. The adapters' prongs are not
- designed to hold the weight of a baby monitor, so do not connect them to any ceiling, under-thetable, or cabinet outlets. Otherwise, the adapters may not properly connect to the outlets.
- Make sure the parent unit, the baby units and the power adapter cords are out of reach of children.

# Charge the parent unit battery

When you have connected and turned on the parent unit, the battery will be charged automatically.

### Notes ■ Notes ■ Notes ■ Notes Notes

· Before using the baby monitor for the first time, charge the parent unit battery for 12 hours. When the parent unit battery is fully charged, the battery icon becomes solid **....** 

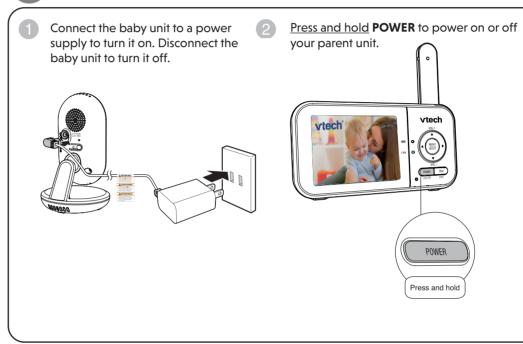

CONNECT THE BABY MONITOR (CONT'D)

- It takes longer to charge the battery when the parent unit is turned on. To shorten the charging time, turn the parent unit off while charging.
- The standby time varies depending on the sensitivity level you set, your actual use and the age of

The battery icon indicates the battery status (see the following table)

Difference in the second	DATTERY STATUS	ACTION
Battery indicators	Battery status	Action
The screen displays . The !!! light flashes.	The battery has very little charge and may be used for only a short time.	Charge without interruption (about 30 minutes).
The battery icon becomes solid .	The battery is fully charged.	To keep the battery charged, connect it to AC power when in use.

# POWER ON OR OFF THE BABY MONITOR

# · Keep the baby unit out of the reach of your baby. Never place or mount the baby unit inside the baby's crib or playpen.

POSITIONING THE BABY MONITOR

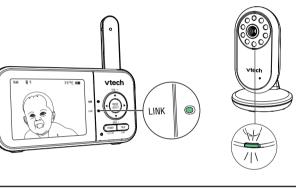

# (!) CAUTION

- The default volume of your parent unit is level 5. If you experience feedback noise from your baby monitor while

# MOUNT THE BABY UNIT ON DRY WALL (OPTIONAL)

Not Included

■ Note

You will need to purchase the following

items separately to mount your baby unit:

2 screws 👂 2 anchors

 The types of screws and anchors you need depend on the composition of the wall.

Make sure they are the same distance apart

as the wall mount holes on the baby unit.

Drill two holes in the wall (7/32 inch drill bit)

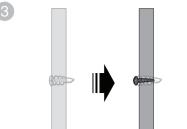

If you drill the holes into a stud, go to step 3

If you drill the holes into an object other than

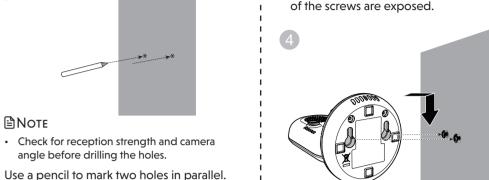

a stud, insert the wall anchors into the holes.

Tap gently on the ends with a hammer until

the wall anchors are flush with the wall.

Insert the screws into the holes and tighten the screws until only 1/4 inch

Align the wall mount holes on the baby unit with the screws on the wall. Slide the baby unit down until it locks into place.

Adjust the camera angle.

# Q<sub>8∆</sub> Frequently asked questions

Below are the questions most frequently asked about the baby monitor

Why does the baby monitor not respond normally?

Try the following (in the order listed) for common cure: 1. Disconnect the power to the baby units and the parent unit. 2. Wait a few seconds before connecting power back to the baby units and the parent unit.

3. Turn on the baby units and the parent unit.

Perhaps the parent unit is not connected to the power. Insert the adapter plug into

the parent unit and insert the adapter in a wall socket. Then, press and hold POWER to
