Parent unit: 2405 - 2475 MHz

Crystal controlled PLL synthesizer

zHM 2742 - 2042 :tinu yde8

Maximum power allowed by FCC and IC. Actual operating range may vary according to environmental conditions at the time of use.

# CONNECT AND CHARGE THE BATTERY

### Install the parent unit battery

The parent unit runs on rechargeable battery or AC power. To continuously monitor your baby, keep the parent unit connected to AC power. With the battery alone, the parent unit can cordlessly run for a short time only.

# **□** NOTES

Use only the battery supplied with this product.

If the parent unit will not be used for a long time, disconnect and remove the battery to prevent possible leakage

Press down on the battery compartmen cover to pull

Make sure the label THIS SIDE THIS SIDE UP UP is facing up while inserting the battery.

it to AC power when not in use.

To replace the battery, press down on the battery compartment cover and pull it out, then follow the steps above to install the battery.

### Connect the baby monitor

- Use only the power adapters supplied with this product.
- Make sure the baby monitor is not connected to an electric outlet that is controlled by a switch. Connect the power adapters in a vertical or floor mount position only. The adapters' prongs are not
- designed to hold the weight of baby monitor, so do not connect them to any ceiling, under-the-table, or cabinet outlets. Otherwise, the adapters may not properly connect to the outlets. Make sure the parent unit, the baby unit and the power adapter cords are out of reach of children.

### Charge the parent unit battery

When you have connected the parent unit and installed its battery for the first time or after power outage, the parent unit powers on automatically. The battery icon indicates the battery status (see the following table).

- The parent unit battery is fully charged after 3 hours of continuous charging.
  It takes longer to charge the battery when the parent unit is turned on. To shorten the charging time,
- turn the parent unit off while charging.
- The standby time varies depending on the sensitivity level you set, your actual use and the age of the battery

Battery indicators	BATTERY STATUS	Action
The battery icon is off and displays .	No battery is installed but operates using AC power, or the battery has been installed incorrectly.	Install the parent unit battery. Charge without interruption (at least 30 minutes).
The screen displays 🖾 Battery low at Parent Unit and 🗀. The 💷 light flashes.	The battery has very little charge and may be used for only a short time.	Charge without interruption (about 30 minutes).
The batter vises becomes	The battery is fully shareed	To keep the battery sharmed sennest

This baby monitor is intended as an aid. It is not a substitute for proper adult supervision, and should not be used as such.

### Test your baby monitor

You may test the baby monitor before initial use, and at regular times thereafter.

- ① CAUTION For hearing protection, make sure the parent unit is more
- than 3 feet (1 meter) away from both baby units. If you hear any high-pitched noise, move the parent unit further until the noise stops. You can also press \(\rightarrow\) VoL on the parent unit to reduce the paice.
- . Make sure your baby unit and parent unit are on.
- 2. The parent unit displays images from the baby unit. Speak towards the microphone of the baby unit. You will hear the sound at the parent unit.
- 3. If you have two baby units, press **VIEW** on your parent unit. The screen switches to the other baby unit. Then, repeat step 2.

### ■ Note

When the parent unit displays 2 and then No Link to CAM # (# represents the baby unit number), and the LINK LED light flashes, move the parent unit closer to the baby unit (observe the minimum distance of 3 feet / 1 meter).

Increase the speaker volume of the parent unit if you cannot hear the sounds transmitted from the

### Positioning the baby monitor

### (1) CAUTION

Keep the baby unit out of the reach of your baby. Never place or mount the baby unit inside the baby's crib or playpen.

### □ Note

To avoid interference from other electronic devices, place your baby monitor away from devices such as wireless routers, microwaves, cell phones and computers.

- .. Place the baby unit more than 3 feet (1 meter) away from your baby.
- 2. Adjust the angle of the baby unit camera to aim at your baby.
- 3. Bend down the temperature sensor so that it stays away from baby unit to avoid deviation
- of temperature detection.

- · The default volume of your parent unit is level 4, and the maximum volume is level 7. If you experience
- high-pitched screeching noise from your baby monitor while positioning: Make sure your baby unit and parent unit are more than 3 feet (1 meter) apart, OR
- Lower the volume of your parent unit.

# Operating range

The operating range of the baby monitor is up to 1000 feet (300 meters) outdoors or 160 feet (50 meters) indoors. The actual operating range may vary depending on the environmental conditions and other interferences such as walls, doors and other obstructions.

# USING THE BABY MONITOR

### Power on or off the baby unit

- Slide the ON/OFF switch to OFF to turn off the baby unit. The ON/OFF LED light turns off.

### Power on or off the parent unit

- Press and hold POWER again to turn off the parent unit. The screen turns off.

You can turn on or off the parent unit screen without powering off the parent unit. You can still hear sound from the baby units.

- Press and hold LCD ON/OFF on the parent unit to turn off the screen.
- Press any keys on the parent unit to turn on the screen again.

# To adjust parent unit speaker volume:

Press VOL or VOL on the parent unit at any time when viewing images.

The baby unit speaker volume determines the lullaby volume and talkback volume

transmitted from parent unit.

# To adjust baby unit speaker volume using parent unit:

The baby unit volume can also be adjusted in the parent unit.

- 2. Press v or A to choose Volume on CAM, then press SELECT.
- 3. Press v or A to choose the desired volume level, Level 1 is the softest while Level 5 is the
- loudest. Then, press **SELECT** to confirm your selection. NOTE

Volume adjustment with the parent unit menu is available in Single CAM and Patrol mode only.

The baby monitor has five Iuliabies and four soothing sounds for you to comfort your baby.

- To play lullabies or soothing sounds on the baby unit:
- Press ►/■ on the baby unit to play lullaby.
- Press > on the baby unit to play the next lullaby.
- Press ►/■ again to stop the Iullaby. • Press + VOL - to adjust the volume level of the lullaby on the baby unit.

When the Iullaby stops, press ►/■ again to replay.

# You can play lullabies or soothing sounds on the baby unit by controlling remotely with the

To play lullabies using the parent unit:

- 1. Press **MENU** when the parent unit is idle. 2. Press **∨** or **∧** to choose **Lullaby on CAM**, then press **SELECT**.
- 3. Press **∨** or **∧** to choose **Play Melodies**, then press **SELECT**.
- 4. Press **∨** or **∧** to choose a lullaby, or choose **Play All**, then press **SELECT**.
- If Play All is selected, the five Iullabies will be played one after the other, until all of them are played.
- 5. When the desired lullaby is selected, press **▼** or **∧** to choose **Play**, then press **SELECT**. To play soothing sounds using the parent unit:
- 1. Press **MENU** when the parent unit is idle.
- 2. Press **∨** or **∧** to choose **Lullaby on CAM**, then press **SELECT**.
- 3. Press **v** or **∧** to choose **Play Soothing Sounds**, then press **SELECT**.
- 4. Press **∨** or **∧** to choose a soothing sound, then press **SELECT**.
- 5. Press **∨** or **∧** to choose **Play**, then press **SELECT**.

- Lullaby playback control is available in **Single CAM** and **Patrol** mode only.
- · The lullaby playback on the baby unit will be paused when receiving talkback from the parent unit.
- To stop lullabies or soothing sounds using the parent unit:
- 1. Press **MENU** when the parent unit is idle.
- 2. Press **∨** or **∧** to choose **Lullaby on CAM**, then press **SELECT**.
- 3. Press **∨** or **∧** to choose **Stop**, then press **SELECT**.

### To set auto timer for lullabies:

While the baby unit is playing a lullaby or soothing sound, the auto timer feature automatically stops the Iuliaby or soothing sound after playing for 15/30/45/60 minutes. You can set auto timer for lullabies with the parent unit.

- 1. Press **MENU** when the parent unit is idle.
- 2. Press **∨** or **∧** to choose **Lullaby on CAM**, then press **SELECT**.
- 3. Press **∨** or **∧** to choose **Auto Timer**, then press **SELECT**.
- 4. Press ♥ or ▲ to choose the desired Iullabies duration, then press **SELECT** to confirm your selection. After 15/30/45/60 minutes, the lullaby or soothing sound will stop automatically.

### Set the language

You can select a language (English, French or Spanish) to be used in all screen displays.

1. Press **MENU** when the parent unit is idle.

# Adjust the sound sensitivity of the baby unit

You can choose to hear sounds from the baby unit all the time, or to hear sounds that exceed a certain level. You can use the parent unit to adjust the microphone sensitivity of your baby unit. The higher the sensitivity level, the more sensitive the baby unit is in detecting sounds for transmitting to the parent unit. The VOX sensitivity level is preset to HIGHEST.

VOX SENSITIVITY LEVEL	Highest	High	Medium	Low	Lowest
DESCRIPTION	The parent unit speaker is constantly on, and you will hear all sounds (including background noises) from your baby's room.	The parent unit speaker turns on for soft babbling and louder sounds from your baby. It remains quiet when your baby sleeps soundly.	The parent unit speaker turns on for loud babbling and louder sounds from your baby. It remains quiet when your baby makes soft sounds.	The parent unit speaker turns on for crying and louder sounds from your baby. It remains quiet when your baby makes soft sounds.	The parent unit speaker turns on for loud crying or screeching sounds from your baby. It remains quiet when your baby makes soft sounds.

- 1. Press **MENU** when the parent unit is idle. 2. Press **∨** or **∧** to choose **VOX Sensitivity**, then press **SELECT**.
- If you have two baby units, the system prompts you to choose the desired baby unit or both baby units, press **∨** or **∧** to choose **ALL CAM** or **CAM** #, then press **SELECT**.
- Press V or A to choose the desired sensitivity level, then press SELECT to confirm your selection
- 兴 TIPS You can adjust the baby unit placement to improve the sound detection.

# LIMITED WARRANTY

The manufacturer of this VTech Product warrants to the holder of a valid proof of purchase ("Consumer" or "you") that the Product and all accessories provided in the sales package ("Product") are free from defects in material and workmanship, pursuant to the following terms and conditions, when installed and used normally and in accordance with the Product operating instructions. This limited warranty extends only to the Consumer for Products purchased and used in the United States of America and Canada.

During the limited warranty period, VTech's authorized service representative will repair or replace at VTech's option, without charge, a Materially Defective Product. If we repair the Product, we may use new or refurbished replacement parts. If we choose to replace the Product, we may replace it with a new or refurbished Product of the same or similar design. We will retain defective parts, modules, or equipment. Repair or replacement of the Product, at VTech's option, is your exclusive emedy. VTech will return the repaired or replacement Products to you in working condition. You should expect the repair of How long is the limited warranty period?

# or (b) the time remaining on the original one-year warranty; whichever is longer

This limited warranty does not cover: . Product that has been subjected to misuse, accident, shipping or other physical damage, improper installation, abnormal operation or handling, neglect, inundation, fire, water or other liquid intrusion; or

4. Product to the extent that the problem is caused by use with non-VTech accessories; or 5. Product whose warranty/quality stickers, product serial number plates or electronic serial numbers have been removed, altered or rendered illegible; or

7. Product returned without a valid proof of purchase (see item 2 below); or 8. Charges for installation or set up, adjustment of customer controls, and installation or repair of systems outside the unit.

To obtain warranty service in the USA, please visit our website at www.vtechphones.com or call 1 (800) 595-9511. In Canada, go to www.vtechcanada.com or call 1 (800) 267-7377. NOTE: Before calling for service, please review the user's manual - a check of the Product's controls and features may save

Except as provided by applicable law, you assume the risk of loss or damage during transit and transportation and are responsible for delivery or handling charges incurred in the transport of the Product(s) to the service location. VTech will return repaired or replaced Product under this limited warranty. Transportation, delivery or handling charges are prepaid. VTech assumes no risk for damage or loss of the Product in transit. If the Product failure is not covered by this limited warranty, or proof of purchase does not meet the terms of this limited warranty. VTech will notify you and will request that you authorize the

cost of repair prior to any further repair activity. You must pay for the cost of repair and return shipping costs for the repair of Products that are not covered by this limited warranty. What must you return with the Product to get warranty service? Return the entire original package and contents including the Product to the VTech service location along with a
description of the malfunction or difficulty; and

3. Provide your name, complete and correct mailing address, and telephone number.

This warranty is the complete and exclusive agreement between you and VTech. It supersedes all other written or oral communications related to this Product. VTech provides no other warranties for this Product. The warranty exclusively describes all of VTech's responsibilities regarding the Product. There are no other express warranties. No one is authorized to make modifications to this limited warranty and you should not rely on any such modification. State/Provincial Law Rights: This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state or province to province. Limitations: Implied warranties, including those of fitness for a particular purpose and merchantability (an unwritten warranty that the Product is fit for ordinary use) are limited to one year from the date of purchase. Some states/provinces do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. In no event shall VTech be liable for any indirect, special, incidental, consequential, or similar damages (including, but not limited to lost profits or revenue, inability to use the Product or other associated equipment, the cost of substitute equipment, and claims by third parties) resulting from the use of this Product. Some states/provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

# Please retain your original sales receipt as proof of purchase.

automatically. The images from the baby unit are in black and white, and o appears on the screen.

When the infrared LEDs are on, the images are in black and white. This is normal.

# INSTALL THE LENS (OPTIONAL)

Your baby monitor comes with a wide-angle lens. You can install the lens to view more of your

mounting instructions.

What will VTech do if the Product is not free from defects in materials and workmanship during the limited warranty period

he limited warranty period for the Product extends for ONE (1) YEAR from the date of purchase. If VTech repairs or replaces a Materially Defective Product under the terms of this limited warranty, this limited warranty also applies to the repaired or replacement Product for a period of either (a) 90 days from the date the repaired or replacement Product is shipped to you

What is not covered by this limited warranty?

Product that has been damaged due to repair, alteration or modification by anyone other than an authorized service 3. Product to the extent that the problem experienced is caused by signal conditions, network reliability, or cable or antenna

Product purchased, used, serviced, or shipped for repair from outside the United States of America or Canada, or used for commercial or institutional purposes (including but not limited to Products used for rental purposes); or
