WHAT'S IN THE BOX

CONNECT AND CHARGE THE BATTERY

2

Install the parent unit battery

The parent unit runs on rechargeable battery or AC power. To continuously monitor your baby, keep the parent unit connected to AC power. With the battery alone, the parent unit can cordlessly run for a short time only.

Use only the battery supplied with this product. If the parent unit will not be used for a long time, disconnect and remove the battery to prevent possible leakage.

Replace the battery To replace the battery, press down on the battery compartment cover and pull it out, then follow the steps above to install the battery.

Connect the baby monitor

Use only the power adapters supplied with this product

Press down

on the battery

compartmen

cover to pull

it out.

- Make sure the baby monitor is not connected to an electric outlet that is controlled by a switch. Connect the power adapters in a vertical or floor mount position only. The adapters' prongs are not designed to hold the weight of baby monitor, so do not connect them to any ceiling, under-the-table, or cabinet outlets. Otherwise, the adapters may not properly connect to the outlets.
- Make sure the parent unit, the baby unit and the power adapter cords are out of reach of children.

Charge the parent unit battery

When you have connected the parent unit and installed its battery for the first time or after power outage, the parent unit powers on automatically. The battery icon indicates the battery status (see the following table). **I**NOTES

- The parent unit battery is fully charged after 3 hours of continuous charging It takes longer to charge the battery when the parent unit is turned on. To shorten the charging time,
- turn the parent unit off while charging. The standby time varies depending on the sensitivity level you set, your actual use and the age of the battery.

BATTERY INDICATORS	BATTERY STATUS	Αςτιον
The battery icon is off and displays 🏠.	No battery is installed but operates using AC power, or the battery has been installed incorrectly.	Install the parent unit battery. Charge without interruption (at least 30 minutes).
The screen displays 🖾 Battery Iow at Parent Unit and 🗀. The 🛲 light flashes.	The battery has very little charge and may be used for only a short time.	Charge without interruption (about 30 minutes).
The battery icon becomes solid III.	The battery is fully charged.	To keep the battery charged, connect it to AC power when not in use.

USING THE BABY MONITOR (CON'T)

2. Press **v** or **A** to choose Language, then press SELECT.

3. Press **v** or **A** to choose **English**, **Français** or **Español**, then press **SELECT** to confirm your selection.

Adjust LCD brightness

You can change the brightness of the parent unit screen from Level 1 to Level 5. The LCD brightness is preset to **Level 3**.

- 1. Press **MENU** when the parent unit is idle.
- 2. Press v or A to choose LCD, then press SELECT.
- 3. Press **SELECT** again to choose **Brightness**.
- 4. Press V or A to choose the desired level of brightness, then press **SELECT** to confirm your selection.

Every time the parent unit is turned on, it displays a baby unit in **Single CAM** mode. If there

The screen displays image of a single baby unit in full screen.

A single cam view that transitions to a different baby unit every 10 seconds.

are two baby units in your system, you can also monitor your baby in Patrol or Split mode.

Turn on and off the dim mode

The dim mode is preset to on to help you save the parent unit power. Your parent unit display will dim automatically after 10 minutes of inactivity, in which there is neither key pressed nor alert received from the baby unit.

1. Press MENU when the parent unit is idle.

Monitoring mode * for VM351-2 only

You can choose the desired monitoring mode.

1. Press **MENU** when the parent unit is idle.

• Press **VIEW** to view the next baby unit.

In Single CAM or Patrol mode:

- 2. Press v or A to choose LCD, then press SELECT.
- 3. Press **v** or **A** to choose **Dim mode**, then press **SELECT**.
- 4. Press v or A to choose On or Off, then press SELECT to confirm your selection.

preset brightness level. After 10 minutes of inactivity, it will dim again

The screen displays all baby units.

3. Press v or A to choose Single CAM, Patrol or Split, then press SELECT.

2. Press **v** or **A** to choose **Monitoring Mode**, then press **SELECT**.

■NOTE • While the screen is dimmed, any keypress or alert message will trigger the screen to return to the

3. Press ∨ or ∧ to choose On or Off, then press SELECT to confirm your selection.

PARENT UNIT OVERVIEW

DO NOT expose it to direct sunlight or moisture

- Avoid dropping the product or treating it roughly. Clean with a soft cloth.
- DO NOT immerse the parent unit and the baby unit in water and do not clean them under the tap.
- DO NOT use cleaning spray or liquid cleaners. Make sure the baby unit and parent unit are dry before you connect them to the mains again.

STORAGE

When you are not going to use the baby monitor for some time, remove the rechargeable battery from the parent unit. Store the parent unit, the baby unit and the adapters in a cool and dry place

FREQUENTLY ASKED QUESTIONS

Below are the questions most frequently asked about the baby monitor. If you cannot find the answer to your question, visit our website at www.vtechphones.com, or contact 1 (800) 595-9511 for customer service.

Why does the	Try the following (in the order listed) for common cure:
baby monitor not respond normally?	 Disconnect the power to the baby units and the parent unit. Remove the batteries in the parent unit. Then, install the batteries again. Wait a few seconds before connecting power back to the baby units and the parent unit.
	 Turn on the baby units and the parent unit. Wait for the parent unit to synchronize with the baby units. Allow up to one minute for this to take place.
Why don't the power-on light of the baby unit and parent unit go on when I switch on the units?	Perhaps the parent unit is not connected to the power. Insert the appliance plug into the parent unit and put the adapter in a wall socket. Then, <u>press and hold</u> POWER to switch on the parent unit and to establish connection with the baby unit.
	Perhaps the baby unit is not connected to the power. Insert the appliance plug into the baby unit and put the adapter in a wall socket. Then, slide the ON/OFF switch to ON to switch on the baby unit and to establish connection with the parent unit.
Why doesn't my parent unit charge while connected to AC power?	Make sure the power is not controlled by a wall switch.
	Make sure the battery is correctly installed in your parent unit.
	You may have used the battery for a long time. Replace a new battery.
Why is my screen in black and white?	The screen is in black and white during night-time or in a dark room when the night vision feature is activated. This is normal.
Why do I get glare or blurry display on my screen when viewing my baby at night?	During night-time or in a dark room, the surroundings and other interfering factors, like lightings, objects, colors and backgrounds may affect the image quality on your parent unit screen. Adjust the baby unit's angle or place the baby unit at a higher level to prevent glare and blurry display.
Why does the baby monitor produce a high-pitched noise?	 The parent unit and baby units may be too close to each other. Move the parent unit away from the baby units until the noise stops; OR Turn down the volume of your parent unit.
Why does the parent unit beep?	The baby units may be out of range. Move the parent unit closer to the baby units (but not less than 3 feet).
	The parent unit may not have enough charge for the parent unit to perform normally. Charge the battery in the parent unit for up to 3 hours.
	If your parent unit is in Split mode, some of your baby units may detect sounds.
	The temperature of your baby's room may be too high or too low.
Why does the parent unit beep/vibrate frequently in Split mode?	You may have set the VOX sensitivity level to Highest when the sound alert (and vibration) feature is turned on. The parent unit notifies you of all sounds including background noise with beeps (and vibration). Adjust the VOX sensitivity to a lower level.
Why does the parent unit react too quickly to other sounds?	The baby unit also picks up other sounds than those of your baby. Adjust the VOX sensitivit level to a lower level or lower the parent unit speaker volume.
Why don't I hear a sound/ Why can't I hear my baby cry?	The parent unit speaker volume may be too low. Press VOL I to increase the volume.
	You may have set a low VOX sensitivity level. See Adjust the sound sensitivity of the baby unit to set to a higher level.

IMPORTANT SAFETY INSTRUCTIONS

When using your equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury, including the following:

- Follow all warnings and instructions marked on the product. Adult setup is required.
- This product is not a substitute for adult supervision of the infant. Supervising the infant is the parent's or caregiver's responsibility. This product could cease operating, and therefore you should not assume it will continue working properly for any given period of time. Further, this is not a medical device and should not be used as such. This product is intended to assist ou in supervising your baby.
- . Do not use this product near water. For example, do not use it next to a bath tub, wash bowl, kitchen sink, laundry tub or ng pool, or in a wet basement or showe 5. CAUTION: Use only the batteries indicated in this manual. There may be a risk of explosion if a wrong type of battery is used for the parent unit. Use only the supplied rechargeable battery or replacement battery pack (BI198555/BI298555) for the parent un not dispose of batteries in a fire. They may explode. Dispose of used battery according to the information in **The RBRC® sea**l.
- Use only the adapters included with this product. Incorrect adapter polarity or voltage can seriously damage the product. Baby unit power adapter: Output: 5V DC 600mA; Parent unit power adapter: Output: 5V DC 1A.
- The power adapters are intended to be correctly oriented in a vertical or floor mount position. The prongs are not qned to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet outlet
- 8. For pluggable equipment, the socket-outlet shall be installed near the equipment and shall be easily accessible Unplug this product from the wall outlet before cleaning. Do not use liquid or aerosol cleaners. Use a damp cloth for cleaning.
- .0. Unplug the power cords before replacing batteries.
- 1. Do not cut off the power adapters to replace them with other plugs, as this causes a hazardous situation. 2. Do not allow anything to rest on the power cords. Do not install this product where the cords may be walked on or crimped.
- 8. This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply in your home, consult your dealer or local power company.
- 14. Do not overload wall outlets or use an extension cord.
- 15. Do not place this product on an unstable table, shelf, stand or other unstable surfaces. 16. This product should not be placed in any area where proper ventilation is not provided. Slots and openings in the back or bottom of this product are provided for ventilation. To protect them from overheating, these openings must not be blocked by placing the product on a soft surface such as a bed, sofa or rug. This product should never be placed near or over a radiator or heat register.
- 17. Never push objects of any kind into this product through the slots because they may touch dangerous voltage points or create a short circuit. Never spill liquid of any kind on the product. 18. To reduce the risk of electric shock, do not disassemble this product, but take it to an authorized service facility.
- Opening or removing parts of the product other than specified access doors may expose you to dangerous voltages or other risks. Incorrect reassembling can cause electric shock when the product is subsequently used. 19. You should test the sound reception every time you turn on the units or move one of the components
- 20. Periodically examine all components for damage 21. Be aware of possible loss of privacy while using public airwaves. Conversations may be picked up by other nursery nonitors, cordless phones, scanners, etc.
- 22. Children should be supervised to ensure that they do not play with the product. 23. The product is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance

by a person responsible for their safety. SAVE THESE INSTRUCTIONS

- Use and store the product at a temperature between 32°F and 104°F. Do not expose the product to extreme cold, heat or direct sunlight. Do not put the product close to a heating source.
- Batteries should not be exposed to excessive heat such as bright sunshine or fire. Make sure the baby unit(s) and the adapter cord(s) are always out of reach of the baby, at least 3 feet away from the
- baby or crib, to avoid a possible strangulation hazard. Never place the baby unit(s) inside the baby's crib or playpen. Never cover the baby unit(s) or parent unit with anything such as a towel or a blanket.
- Other electronic products may cause interference with your baby monitor. Try installing your baby monitor as far away from these electronic devices as possible: wireless routers, radios, cellular telephones, intercoms, room monitors, televisions, personal computers, kitchen appliances and cordless telephones.

- This equipment has been tested and found to comply with the requirements for a Class B digital device under Part 15 of the Federal Communications Commission (FCC) rules. These requirements are intended to provide reasonable protection against narmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause narmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help. WARNING: Changes or modifications to this equipment not expressly approved by the party responsible for compliance
- could void the user's authority to operate the equipment
- This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may
- To ensure safety of users, the FCC has established criteria for the amount of radio frequency energy that can be safely absorbed by a user or bystander according to the intended usage of the product. This product has been tested and found to comply with the FCC criteria. The baby unit shall be installed and used such that parts of all persons' body are maintained at a distance of approximately 8 in (20 cm) or more. The transmitter and antenna of the parent unit shall be held at least 1 in (2.5 cm) from your

This Class B digital apparatus complies with Canadian requirement:

- The term "IC:" before the certification/registration number only signifies that the Industry Canada technical specifications were
- This product meets the applicable Innovation, Science and Economic Development Canada technical specifications.

RF radiation exposure statement

The baby unit complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. The baby unit should pe installed and operated with a minimum distance of 8 in (20 cm) between the baby unit and all persons' body. Úse of other accessories may not ensure compliance with FCC RF exposure guidelines. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. This equipment complies also with Industry Canada RSS-102 with respect to Canada's Health Code 6 for Exposure of Humans to RF Fields.

Main menu icons Monitoring Mode

- · If you have two baby units, you can select a monitoring mode (Single CAM, Patrol or'Split For VM351-2 only.
- Alert Tone You can set the parent unit to beep when
- the parent unit operates in low battery condition;
- the link between the parent unit and the baby unit is lost; or
- the baby unit detects sounds while in Split mode.
- Language • You can select a language (English, French or Spanish) to be used in all screen displays.
- LCD • You can change the brightness of the parent unit screen, or turn on the Dim Mode to save power
- Rename You can choose a specific name for the baby unit from a pre-defined name list.
- **VOX Sensitivity** 0 With this feature, you can choose to hear sounds from the baby unit all the time, or
- to hear sounds that exceed a certain level. You can use the parent unit to adjust the microphone sensitivity of your baby unit. The higher the sensitivity level, the more sensitive the baby unit is in detecting sounds for transmitting to the parent unit. Sound-activated Screen
- When the baby unit detects no sound, the parent unit screen stays off to save power. Once a sound is detected, the parent unit screen turns on automatically. It will then turn off again after 50 seconds of no sound detection.
- Temperature You can choose to set the maximum/ minimum temperature and turn on the emperature alert tone, so that the parent unit beeps whenever the room temperature
- detected by the baby unit falls outside of the desired temperature range. You can choose to display the temperature in Fahrenheit (°F) or Celsius (°C) on your parent unit
- Lullaby on CAM
- You can choose a lullaby or soothing sound to comfort your baby.

Volume on CAM 6

- You can adjust the volume of baby units which determines the lullaby volume and talkback volume transmitted from parent unit. Vibration
- You can turn on the vibration alert so that the parent unit vibrates when it receives No link alert, Sound alert in split-view or Temperature alert tone after turning on the respective alert tones

CALIFORNIA ENERGY COMMISSION BATTERY CHARGING TESTING MODE

This baby monitor meets the California Energy Commission (CEC) regulations for energy consumption. Your baby monitor is set up to comply with the energy-conserving standards right out of the box. Follow the instructions to install and charge the battery. The CEC battery charging testing mode is activated while charging. Even if the parent unit is paired to baby units, the CEC battery charging testing mode is activated while it is powered off and charging.

FOR CETL COMPLIANCE ONLY

Mesures de sécurité importante

- Lorsque vous utilisez votre appareil, vous devriez toujours suivre certaines mesures de précaution de base afin de réduire les risques d'incendie, d'électrocution et de blessures corporelles, dont ceux qui suivent : Observez toutes les instructions et mises en garde inscrites sur l'appareil.
- Observez foutes les instructions et mises en garde inscrites sur l'appareil. L'installation par un adulte est requise. Ce produit ne remplace pas la surveillance adulte du nourrisson. La supervision du nourrisson est la responsabilité du parent ou de la personne qui s'occupe de l'enfant. Ce produit pourrait cesser de fonctionner et, par conséquent, vous ne devriez pas présumer qu'il continuera de fonctionner correctement pendant une période de temps donnée. De plus, il ne s'agit pas d'un instrument médical et ne devrait pas être utilisé comme tel. Ce produit est destiné à vous aider à superviser votre bébé. N'utilisez pas cet appareil près de l'eau ni de toute autre source d'humidité, par exemple, près d'une baignoire, cuve à lessive, évier de cuisine, dans un sous-sol humide ni près d'une piscine, dans un soussol humide ou une douche. **MISE EN GARDE:** Utilisez unaurement les pies fourmise. Il existe un risque d'explosion si un autre type de batterie est utilisé pour l'unité
- MISE EN GARDE: Utilisez uniquement les piles fournes. Il existe un risque d'explosion si un autre type de batterie est utilisé pour l'unité Parents. N'utilisez que le bloc-piles formies. Il existe un risque d'explosion si un autre type de batterie est utilisé pour l'unité Parents. N'utilisez que le bloc-piles rechargeable inclus ou le bloc-piles de rechange (BT198555/BT298555). N'incinérez pas les piles. Celles-ci risqueraient d'exploser. Jetez les piles usées selon les renseignements suivant le sceau du RBRC[®].

Soyez avisé de la perte de la confidentialité lorsque vous utilisez les ondes publiques. Les conversations peuvent être entendues par d'autres moniteurs de bébé, des téléphones sans fil, des scanneurs, etc.

Les enfants devraient être supervisés afin de vous assurer qu'ils ne jouent pas avec l'appareil. Les produit n'est pas concu pour être utilisé par des personnes (incluant des enfants) aux capacités physiques, sensorielles ou mentales réduites ou qui manquent d'expérience et de connaissances, à moins qu'on leur ait donné suffisamment de supervision ou d'instructions relativement à l'utilisation de l'appareil par une personne responsable de leur sécurité.

CONSERVEZ CES INSTRUCTIONS

N'exposez pas cet appareil à des froids ou des chaleurs extrêmes, ainsi qu'à la lumière directe du soleil. Ne l'installez pas près d'une source de chauffage. Le bloc-piles ne doit pas être exposé à la chaleur excessive telle que la lumière du soleil ou au feu. Assurez-vous que le moniteur et le cordon de l'adaptateur sont toujours hors de portée des enfants, àau moins 1 mètre (3 pieds) de l'enfant ou

Ne jamais placer le moniteur à l'intérieur du berceau ou du parc de bébé. Ne jamais couvrir le moniteur ou l'unité (s) portative avec un article

D'autres équipements électroniques peuvent produire des interférences sur votre moniteur vidéo et audio. Tentez d'installer votre moniteur déo ou audio à l'écart des appareils électroniques tels que des routeurs sans fil, radios, téléphones cellulaires, interphones, moniteurs,

L'organisme 'Wireless' Technology Research, LLC (WTR)', une firme de recherche indépendante, a mené une évaluation pluridisciplinaire des interférences entre les téléphones sans fil portatifs et les stimulateurs cardiaques implantés dans l'organisme. Appuyée par l'Administration de aliments et drogues (FDA) des Etats-Unis, la firme WTR recommande aux médecins:

Ils ne doivent PAS placer le téléphone sans fil directement sur le stimulateur cardiaque, tel que dans une poche de chemise, lorsque celui-ci est en marche. L'étude effectuée par l'organisme WRS n'a pas identifié de risque pour les détenteurs de simulateurs cardiaques causés par les gens qui utilisent dispositifs sans fil à proximité de ceux-ci.

Ne surchargez pas les prises de courant murales ni les rallonges électriques Ne placez pas cet appareil sur un chariot, meuble, trépied, support de montage ni table chancelants Les trous et ouvertures du boîtier, situés à l'arrière de l'appareil ou sous celui-ci, servent à aérer l'appareil. Pour l'empêcher de surchauffer, ne bloquez sous aucun prétexte ces ouvertures et n'empêchez pas l'aération adéquate de l'appareil en le plaçant sur un lit, divan, tapis ou toute autre surface similaire. De même, ne le positionnez pas à proximité ni au-dessus d'une source de chaleur ou d'un calorifère. De plus, ne placez pas l'appareil dans un endroit avant de vous assurer qu'il y ait une bonne circulation d'air.

Itilisez et entreposez le produit à une température entre 0° C (32°F) et 40°C (104°F).

téléphones, ordinateurs personnels, électroménagers et téléphones sans fil.

Avis aux détenteurs de stimulateurs cardiaques
 Vous devriez maintenir les dispositifs sans fil à au moins six pouces du simulateur cardiaque.

Stimulateurs cardiaques implantés dans l'organisme Les simulateurs cardiaques (ne s'applique qu'aux dispositifs numériques sans fil) :

NIGHT VISION

The baby unit has infrared LEDs that allow you to see your baby clearly at night or in a dark room. When the baby unit being viewed detects low light levels, the infrared LEDs are switched on automatically. The images from the baby unit are in black and white, and earrow appears on the screen.

It is normal if you see a short white glare on your parent unit screen as the baby unit is adapting to When the infrared LEDs are on, the images are in black and white. This is normal.

Depending on the surroundings and other interfering factors, like lightings, objects, colors and backgrounds, the video quality may vary. Adjust the baby unit's angle or place the baby unit at a higher level to prevent glare and blurry display

INSTALL THE LENS (OPTIONAL)

Your baby monitor comes with a wide-angle lens. You can install the lens to view more of your baby's room from the parent unit screen. See Install the lens (optional) in the Quick Start Guide for the lens installation instructions.

MOUNT THE BABY UNIT (OPTIONAL)

Your baby monitor comes ready for tabletop use. You can also choose to mount your baby monitor on the wall. See Mount the baby unit (optional) in the Quick Start Guide for the wall

GENERAL PRODUCT CARE

To keep this product working well and looking good, follow these guidelines: Avoid putting it near heating appliances and devices that generate electrical noise (for example, motors or

Champs électromagnétiques (EMF) Ce produit de VTech est conforme à toutes les normes se rapportant aux champs électromagnétiques (EMF) standard. Si vous le manipulez correctement en suivant les instructions de ce guide, son utilisation sera sécuritaire pendant de nombreuses années, selon les meilleures évidences scientifiques dont nous disposons aujourd'hui.

LIMITED WARRANTY

What does this limited warranty cover?

The manufacturer of this VTech Product warrants to the holder of a valid proof of purchase ("Consumer" or "you") that the Product and all accessories provided in the sales package ("Product") are free from defects in material and workmanship, pursuant to the following terms and conditions, when installed and used normally and in accordance with the Product operating instructions. This limited warranty extends only to the Consumer for Products purchased and used in the United States of America and Conada.

What will VTech do if the Product is not free from defects in materials and workmanship during the limited warranty period

During the limited warranty period, VTech's authorized service representative will repair or replace at VTech's option, without charge, a Materially Defective Product. If we repair the Product, we may use new or refurbished replacement parts. If we choose to replace the Product, we may replace it with a new or refurbished Product of the same or similar design. We will retain defective parts, modules, or equipment. Repair or replacement of the Product, at VTech's option, is your exclusive emedy. VTech will return the repaired or replacement Products to you in working condition. You should expect the repair of lacement to take approximately 30 days

How long is the limited warranty period?

The limited warranty period for the Product extends for ONE (1) YEAR from the date of purchase. If VTech repairs or replaces a Materially Defective Product under the terms of this limited warranty, this limited warranty also applies to the repaired or replacement Product for a period of either (a) 90 days from the date the repaired or replacement Product is shipped to you or (b) the time remaining on the original one-year warranty; whichever is longer

What is not covered by this limited warranty? This limited warranty does not cover:

Product that has been subjected to misuse, accident, shipping or other physical damage, improper installation, abnormal operation or handling, neglect, inundation, fire, water or other liquid intrusion; or Product that has been damaged due to repair, alteration or modification by anyone other than an authorized service

3. Product to the extent that the problem experienced is caused by signal conditions, network reliability, or cable or antenna

4. Product to the extent that the problem is caused by use with non-VTech accessories; or Product whose warranty/quality stickers, product serial number plates or electronic serial numbers have been removed, altered or rendered illegible; or

6. Product purchased, used, serviced, or shipped for repair from outside the United States of America or Canada, or used for commercial or institutional purposes (including but not limited to Products used for rental purposes); or 7. Product returned without a valid proof of purchase (see item 2 below); or 8. Charges for installation or set up, adjustment of customer controls, and installation or repair of systems outside the unit.

How do you get warranty service?

To obtain warranty service in the USA, please visit our website at www.vtechphones.com or call 1 (800) 595-9511. In Canada, go to www.vtechcanada.com or call 1 (800) 267-7377.

NOTE: Before calling for service, please review the user's manual - a check of the Product's controls and features may save

Except as provided by applicable law, you assume the risk of loss or damage during transit and transportation and are responsible for delivery or handling charges incurred in the transport of the Product(s) to the service location. VTech will return repaired or replaced Product under this limited warranty. Transportation, delivery or handling charges are prepaid. VTech assumes no risk for damage or loss of the Product in transit. If the Product failure is not covered by this limited warranty, or proof of purchase does not meet the terms of this limited warranty. VTech will notify you and will request that you authorize the cost of repair prior to any further repair activity. You must pay for the cost of repair and return shipping costs for the repair of Products that are not covered by this limited warranty.

What must you return with the Product to get warranty service?

Return the entire original package and contents including the Product to the VTech service location along with a description of the malfunction or difficulty; and

2. Include a "valid proof of purchase" (sales receipt) identifying the Product purchased (Product model) and the date of

3. Provide your name, complete and correct mailing address, and telephone number.

This warranty is the complete and exclusive agreement between you and VTech. It supersedes all other written or oral communications related to this Product. VTech provides no other warranties for this Product. The warranty exclusively describes all of VTech's responsibilities regarding the Product. There are no other express warranties. No one is authorized to make modifications to this limited warranty and you should not rely on any such modification. State/Provincial Law Rights: This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state or province. Limitations: Implied warranties, including those of fitness for a particular purpose and merchantability (an unwritten warranty that the Product is fit for ordinary use) are limited to one year from the date of purchase. Some states/provinces do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. In no event shall VTech be liable for any indirect, special, incidental, consequential, or similar damages (including, but not limited to lost profits or revenue, inability to use the Product or other associated equipment, the cost of substitute equipment, and claims by third parties) resulting from the use of this Product. Some states/provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

Please retain your original sales receipt as proof of purchase.
