

User’s manual VM980

Accessory Wi-Fi HD Camera for use with VTech model VM981/VM991

Congratulations

on purchasing your new VTech product.
Before using this product, please read
Important safety instructions.

This manual has instructions on how to set up
your new camera unit. For complete instructions
on using the camera unit, see the installation
guide and online app manual of the HD video
monitor.

What’s in the box

Overview

1	Light sensor
2	Infrared LEDs Allow you to see clearly in a dark surrounding.
3	Camera lens
4	LED indicators - Flash orange and blue alternately when the camera unit is in pairing mode. - Orange is steady on when the camera unit is connecting to the Internet. - Orange and blue are steady on when the camera unit is idle. - Flash orange and blue slowly during video streaming. - Flash orange and blue quickly and alternately when the camera unit is updating its firmware.
5	Microphone
6	Power jack
7	Pair/reset button Press and hold for three seconds to enter pairing mode.

Connect

NOTES

- Use only the power adapter supplied with this product.
- Make sure the electrical outlet is not controlled by wall switch.
- The power adapter is intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet outlet.
- Make sure the camera unit and the power adapter cord are out of reach of children.

Connect the camera unit

Wi-Fi connection

NOTES

- Before you connect the camera unit, make sure you have Internet access and a Wi-Fi router (**IEEE 802.11 b/g/n**). Charges apply and service plan may vary for Internet access. Router is not included.
- To maintain compliance with the FCC’s RF exposure guidelines, place the IP camera unit at least 20cm from nearby persons.

- Connect the power adapter to the camera unit and a power supply.

- Place the camera unit at a desired place.

NOTE

- To turn off the camera unit, unplug the camera unit from the power supply.

Before use

How the system works

The Wi-Fi router (not included) provides Internet connectivity to your HD video monitor system. It serves as a communicating channel between your camera unit and parent unit, allowing you to monitor and/or control your camera unit wherever you are.

Test the location for the camera unit

Before you install your camera unit, you need to test which of your selected monitoring areas within the house have good Wi-Fi signal strength. After you have connected your parent unit to a Wi-Fi network, you can use your parent unit’s Wi-Fi signal strength indicator to assist in checking. Once you have identified the suitable location, you can install your camera unit. Adjust the distance between your camera unit and the Wi-Fi router if needed.

TIP

- Depending on surroundings and obstructing factors, such as the effect distance and internal walls have on signal strength, you may experience reduced Wi-Fi signal. To improve the Wi-Fi signal strength, adjust the distance or direction of your parent unit. Check with your parent unit again.

Pair new camera unit

Each newly purchased camera unit (**VM980**) must be paired to the parent unit of the HD video monitor system (**VM981** or **VM991**).

Refer to the online app manual in your parent unit on how to pair your camera unit to your system.

Protect your privacy and online security

VTech cares about your privacy and peace of mind. That’s why we’ve put together a list of industry-recommended best practices to help keep your wireless connection private and your devices protected when online. We recommend you carefully review and consider complying with the following tips.

Ensure your wireless connection is secure.

- Before installing a device, ensure your router’s wireless signal is encrypted by selecting the “WPA2-PSK with AES” setting in your router’s wireless security menu.

Change default settings.

- Change your wireless router’s default wireless network name (SSID) to something unique.
- Change default passwords to unique, strong passwords. A strong password:
 - Is at least 10 characters long.
 - Is complex.
 - Does not contain dictionary words or personal information.
 - Contains a mix of uppercase letters, lowercase letters, special characters and numbers.

Keep your devices up to date.

- Download security patches from manufacturers as soon as they become available. This will ensure you always have the latest security updates.
- If the feature is available, enable automatic updates for future releases.

Disable Universal Plug and Play (UPnP) on your router.

- UPnP enabled on a router can limit the effectiveness of your firewall by allowing other network devices to open inbound ports without any intervention or approval from you. A virus or other malware program could use this function to compromise security for the entire network.

For more information on wireless connections and protecting your data, please review the following resources from industry experts:

- Federal Communications Commission: Wireless Connections and Bluetooth Security Tips – www.fcc.gov/consumers/guides/how-protect-yourself-online.
- U.S. Department of Homeland Security: Before You Connect a New Computer to the Internet – www.us-cert.gov/hcas/tips/ST15-003.
- Federal Trade Commission: Using IP Cameras Safely – <https://www.consumer.ftc.gov/articles/0382-using-ip-cameras-safely>.
- Wi-Fi Alliance: Discover Wi-Fi Security – <http://www.wi-fi.org/discover-wi-fi/security>.

Locate the online app manual

To access the online app manual from the parent unit:

- Tap to display the side menu.

- Tap **Help**.

- Tap **App manual** to read the online app manual.

General product care

To keep this product working well and looking good, follow these guidelines:

- Avoid putting it near heating appliances and devices that generate electrical noise (for example, motors or fluorescent lamps).
- DO NOT expose it to direct sunlight or moisture.
- Avoid dropping the product or treating it roughly.
- Clean with a soft cloth.
- DO NOT immerse the camera unit in water and do not clean it under the tap.
- DO NOT use cleaning spray or liquid cleaners.
- Make sure the camera unit is dry before you connect it to the mains again.

Storage

When you are not going to use the camera for some time, store the camera unit and the adapter in a cool and dry place.

Important safety instructions

When using your equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury, including the following:

- Follow all warnings and instructions marked on the product.
- Adult setup is required.
- This home monitor is intended as an aid. It is not a substitute for home security supervision and should not be used as such.
- This product is not intended for use as a medical monitor.
- Do not use this product near water. For example, do not use it next to a bath tub, wash bowl, kitchen sink, laundry tub or swimming pool, or in a wet basement or shower.
- Use only the adapters included with this product. Incorrect adapter polarity or voltage can seriously damage the product. Power adapter: Input 100-240V AC 50/60Hz; Output: 5V DC 1000mA.
- The power adapter is intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet outlet.

8. For pluggable equipment, the socket-outlet (power adapter) shall be installed near the equipment and shall be easily accessible.
9. Unplug this product from the wall outlet before cleaning. Do not use liquid or aerosol cleaners. Use a damp cloth for cleaning.
- 10.Do not cut off the power adapters to replace them with other plugs, as this causes a hazardous situation.
- 11.Do not allow anything to rest on the power cords. Do not install this product where the cords may be walked on or crimped.
- 12.This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply in your home, consult your dealer or local power company.
- 13.Do not overload wall outlets or use an extension cord.
- 14.Do not place this product on an unstable table, shelf, stand or other unstable surfaces.
- 15.This product should not be placed in any area where proper ventilation is not provided. Slots and openings in the back or bottom of this product are provided for ventilation. To protect them from overheating, these openings must not be blocked by placing the product on a soft surface such as a bed, sofa or rug. This product should never be placed near or over a radiator or heat register.
- 16.Never push objects of any kind into this product through the slots because they may touch dangerous voltage points or create a short circuit. Never spill liquid of any kind on the product.
- 17.To reduce the risk of electric shock, do not disassemble this product, but take it to an authorized service facility. Opening or removing parts of the product other than specified access doors may expose you to dangerous voltages or other risks. Incorrect reassembling can cause electric shock when the product is subsequently used.
- 18.You should test the sound reception every time you turn on the units or move one of the components.
- 19.Periodically examine all components for damage.
- 20.Be aware of possible loss of privacy while using public airwaves. Conversations may be picked up by other nursery monitors, cordless phones, scanners, etc.
- 21.Children should be supervised to ensure that they do not play with the product.
- 22.The small parts of this monitor can be swallowed by babies or small children. Keep these parts out of reach of children.

23.The product is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

SAVE THESE INSTRUCTIONS

Cautions

- Use and store the product at a temperature between 32°F and 104°F.
- Do not expose the product to extreme cold, heat or direct sunlight. Do not put the product close to a heating source.
- Other electronic products may cause interference with your IP camera. Try installing your IP camera as far away from these electronic devices as possible: wireless routers, radios, cellular telephones, intercoms, room monitors, televisions, personal computers, kitchen appliances and cordless telephones.

Precautions for users of implanted cardiac pacemakers

Cardiac pacemakers (applies only to digital cordless devices):

Wireless Technology Research, LLC (WTR), an independent research entity, led a multidisciplinary evaluation of the interference between portable wireless devices and implanted cardiac pacemakers. Supported by the U.S. Food and Drug Administration, WTR recommends to physicians that:

Pacemaker patients

- Should keep wireless devices at least six inches from the pacemaker.
- Should NOT place wireless devices directly over the pacemaker, such as in a breast pocket, when it is turned ON.

WTR’s evaluation did not identify any risk to bystanders with pacemakers from other persons using wireless devices.

Electromagnetic fields (EMF)

This VTech product complies with all standards regarding electromagnetic fields (EMF). If handled properly and according to the instructions in this user’s manual, the product is safe to be used based on scientific evidence available today.

- Ils ne doivent PAS placer le téléphone sans fil directement sur le stimulateur cardiaque, tel que dans une poche de chemise, lorsque celui-ci est en marche.

L’étude effectuée par l’organisme WRS n’a pas identifié de risque pour les détenteurs de simulateurs cardiaques causés par les gens qui utilisent dispositifs sans fil à proximité de ceux-ci.

Champs électromagnétiques (EMF)

Ce produit de VTech est conforme à toutes les normes se rapportant aux champs électromagnétiques (EMF) standard. Si vous le manipulez correctement en suivant les instructions de ce guide, son utilisation sera sécuritaire pendant de nombreuses années, selon les meilleures évidences scientifiques dont nous disposons aujourd’hui.

Limited warranty

What does this limited warranty cover?

The manufacturer of this VTech Product warrants to the holder of a valid proof of purchase (“Consumer” or “you”) that the Product and all accessories provided in the sales package (“Product”) are free from defects in material and workmanship, pursuant to the following terms and conditions, when installed and used normally and in accordance with the Product operating instructions. This limited warranty extends only to the Consumer for Products purchased and used in the United States of America and Canada.

What will VTech do if the Product is not free from defects in materials and workmanship during the limited warranty period (“Materially Defective Product”)?

During the limited warranty period, VTech’s authorized service representative will repair or replace at VTech’s option, without charge, a Materially Defective Product. If we repair the Product, we may use new or refurbished replacement parts. If we choose to replace the Product, we may replace it with a new or refurbished Product of the same or similar design. We will retain defective parts, modules, or equipment. Repair or replacement of the Product, at VTech’s option, is your exclusive remedy. VTech will return the repaired or replacement Products to you in working condition. You should expect the repair or replacement to take approximately 30 days.

How long is the limited warranty period?

The limited warranty period for the Product extends for ONE (1) YEAR from the date of purchase. If VTech repairs or replaces a Materially Defective

FCC and IC regulations

FCC Part 15

This equipment has been tested and found to comply with the requirements for a Class B digital device under Part 15 of the Federal Communications Commission (FCC) rules. These requirements are intended to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications to this equipment not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

To ensure safety of users, the FCC has established criteria for the amount of radio frequency energy that can be safely absorbed by a user or bystander according to the intended usage of the product. This product has been tested and found to comply with the FCC criteria. The camera unit shall be installed and used such that parts of all persons’ body are maintained at a distance of approximately 8 in (20 cm) or more.

This Class B digital apparatus complies with Canadian requirement: CAN ICES-3 (B)/NMB-3(B)

Industry Canada

This device complies with Industry Canada licence-exempt RSS standard(s).

Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference, including interference that may cause undesired operation.

Product under the terms of this limited warranty, this limited warranty also applies to the repaired or replacement Product for a period of either (a) 90 days from the date the repaired or replacement Product is shipped to you or (b) the time remaining on the original one-year warranty; whichever is longer.

What is not covered by this limited warranty?

This limited warranty does not cover:

- Product that has been subjected to misuse, accident, shipping or other physical damage, improper installation, abnormal operation or handling, neglect, inundation, fire, water or other liquid intrusion; or
- Product that has been damaged due to repair, alteration or modification by anyone other than an authorized service representative of VTech; or
- Product to the extent that the problem experienced is caused by signal conditions, network reliability, or cable or antenna systems; or
- Product to the extent that the problem is caused by use with non-VTech accessories; or
- Product whose warranty/quality stickers, product serial number plates or electronic serial numbers have been removed, altered or rendered illegible; or
- Product purchased, used, serviced, or shipped for repair from outside the United States of America or Canada, or used for commercial or institutional purposes (including but not limited to Products used for rental purposes); or
- Product returned without a valid proof of purchase (see item 2 on the next page); or
- Charges for installation or set up, adjustment of customer controls, and installation or repair of systems outside the unit.

How do you get warranty service?

To obtain warranty service in the USA, please visit our website at www.vtechphones.com or call 1-844-848-8324 (1-844-84-VTECH). In Canada, go to www.vtechcanada.com or call 1-888-211-2005.

NOTE: Before calling for service, please review the user’s manual - a check of the Product’s controls and features may save you a service call.

Except as provided by applicable law, you assume the risk of loss or damage during transit and transportation and are responsible for delivery or handling charges incurred in the transport of the Product(s) to the service location. VTech will return repaired or replaced Product under this limited warranty. Transportation, delivery or handling charges are prepaid. VTech assumes no risk for damage or loss of the Product in transit. If the Product failure is not covered by this limited warranty, or proof of purchase does not meet the terms of this limited warranty, VTech will notify you and will request that you authorize the cost of repair

The term “IC:” before the certification/registration number only signifies that the Industry Canada technical specifications were met.

This product meets the applicable Industry Canada technical specifications.

RF radiation exposure statement

The camera unit complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. The camera unit should be installed and operated with a minimum distance of 8 in (20 cm) between the main unit and all persons’ body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. This equipment complies also with Industry Canada RSS-210 with respect to Canada’s Health Code 6 for Exposure of Humans to RF Fields.

For cETL compliance only

Mesures de sécurité importantes

Lorsque vous utilisez votre appareil, vous devriez toujours suivre certaines mesures de précaution de base afin de réduire les risques d’incendie, d’électrocution et de blessures corporelles, dont ceux qui suivent:

- Observez toutes les instructions et mises en garde inscrites sur l’appareil.
- L’installation par un adulte est requise.
- Ce moniteur résidentiel est conçu à titre d’aide seulement. Il ne remplace pas les systèmes de surveillance résidentiels et ne doit pas être utilisé comme tel.
- Ce produit n’est pas conçu pour être utilisé en tant que moniteur médical.
- N’utilisez pas cet appareil près de l’eau ni de toute autre source d’humidité, par exemple, près d’une baignoire, cuve à lessive, évier de cuisine, dans un sous-sol humide ni près d’une piscine, dans un soussol humide ou une douche.
- N’utilisez que les adaptateurs inclus avec ce produit. L’utilisation d’un adaptateur dont la polarité ou la tension serait inadéquate risque d’endommager sérieusement le produit et mettre votre sécurité en péril. Adaptateur secteur de la caméra : Entrée 100-240V CA 50/60 Hz; Sortie : 5 V CC 1500 mA.
- Lorsqu’ils sont branchés dans une prise de courant, les adaptateurs secteur ont été conçus pour être orientés correctement, soit à la verticale ou au plancher. Les broches n’ont pas été conçues pour supporter le poids du bloc d’alimentation et le maintenir en place si celui-ci

prior to any further repair activity. You must pay for the cost of repair and return shipping costs for the repair of Products that are not covered by this limited warranty.

What must you return with the Product to get warranty service?

- Return the entire original package and contents including the Product to the VTech service location along with a description of the malfunction or difficulty; and
- Include a “valid proof of purchase” (sales receipt) identifying the Product purchased (Product model) and the date of purchase or receipt; and
- Provide your name, complete and correct mailing address, and telephone number.

Other limitations

This warranty is the complete and exclusive agreement between you and VTech. It supersedes all other written or oral communications related to this Product. VTech provides no other warranties for this Product. The warranty exclusively describes all of VTech’s responsibilities regarding the Product. There are no other express warranties. No one is authorized to make modifications to this limited warranty and you should not rely on any such modification.

State/Provincial Law Rights: This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state or province to province.

Limitations: Implied warranties, including those of fitness for a particular purpose and merchantability (an unwritten warranty that the Product is fit for ordinary use) are limited to one year from the date of purchase. Some states/provinces do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. In no event shall VTech be liable for any indirect, special, incidental, consequential, or similar damages (including, but not limited to lost profits or revenue, inability to use the Product or other associated equipment, the cost of substitute equipment, and claims by third parties) resulting from the use of this Product. Some states/provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

Please retain your original sales receipt as proof of purchase.

est branché dans une prise au plafond, sous une table ou dans un meuble.

8. Pour les appareils raccordés, la prise de courant (de l’adaptateur secteur) doit être installée près de l’équipement et doit être facilement accessible.
9. Débranchez ce produit de la prise de courant avant de procéder au nettoyage. N'utilisez pas de nettoyeurs en aérosols. Utilisez un chiffon humide pour le nettoyer.
- 10.Ne coupez pas les cordons d’alimentation pour remplacer les fiches, car ceci peut présenter un danger potentiel.
- 11.Ne laissez aucun objet reposer ni appuyer sur le cordon d’alimentation. N’installez pas cet appareil dans un endroit où l’on risque d’écraser le cordon d’alimentation ou de le piétiner.
- 12.Ne faites fonctionner cet appareil qu’avec le type d’alimentation indiqué sur l’étiquette. Si vous ne connaissez pas le type d’alimentation que vous possédez à votre domicile, consultez votre marchand ou votre compagnie locale d’électricité.
- 13.Ne surchargez pas les prises de courant murales ni les rallonges électriques.
- 14.Ne placez pas cet appareil sur un chariot, meuble, trépidé, support de montage ni table chancelants.
- 15.Les trous et ouvertures du boîtier, situés à l’arrière de l’appareil ou sous celui-ci, servent à aérer l’appareil. Pour l’empêcher de surchauffer, ne bloquez sous aucun prétexte ces ouvertures et n’empêchez pas l’aération adéquate de l’appareil en le plaçant sur un lit, divan, tapis ou toute autre surface similaire. De même, ne le positionnez pas à proximité ni au-dessus d’une source de chaleur ou d’un calorifère. De plus, ne placez pas l’appareil dans un endroit avant de vous assurer qu’il y ait une bonne circulation d’air.
- 16.N'enfoncez jamais d'objets à travers les ouvertures de cet appareil, car ils pourraient entrer en contact avec des points de tension dangereux ou causer des courts-circuits qui peuvent dégénérer en incendies ou en risques d’électrocution. Ne renversez jamais de liquide dans ce produit.
- 17.Afin de réduire les risques d’électrocution, ne démontez pas cet appareil, mais apportez-le dans un centre de service autorisé. L’ouverture du boîtier ou le retrait de toutes pièces que contient cet appareil, à l’exception de l’accès autorisé à certaines portes ou ouvertures, risque de vous exposer à des points de tension dangereux ou d’autres dangers. Un remontage incorrect peut par la suite présenter des risques d’électrocution.
- 18.Vous devriez tester la réception chaque fois que vous mettez l’appareil en fonction.
- 19.Examinez les composantes afin de vérifier si celles-ci ne sont pas endommagées.
