

## **VTech Completes Interoperability Testing with Flowroute to Deliver Certified VoIP Solutions**

*The partnership strengthens Flowroute's commitment to provide an advanced suite of innovative SIP-based solutions for enterprises worldwide*

SEATTLE, Wash. – July 19, 2016 – [Flowroute Inc.](#), the leading provider of advanced calling and messaging services for SaaS-based companies, today announced successful interoperability certification with [VTech](#), a global leader and manufacturer of SIP-based phones. The certification efforts verify compatibility and document configuration recommendations for VTech's SIP-based ErisTerminal<sup>®</sup> business and ErisStation<sup>®</sup> conference phones used in conjunction with Flowroute's communications services. VTech joins the growing list of elite technology companies that have achieved certified membership in the [Flowroute's Technology Partner program](#).

"By completing interoperability testing with Flowroute, we can provide our customers with reliable, high-quality voice experiences," Graham Williams, vice president, Business Phones Division, VTech Communications. "Certifying with Flowroute ensures our customers save time and money by mitigating deployment and operating issues, allowing them to focus on what's really important – running their businesses."

The success of the interoperability testing assures high-performance operation of VTech's SIP-based business and conference phones with Flowroute's communications services, giving businesses the confidence to combine these modern communication technologies and benefit from the highest performance communication solution available.

"Our customers depend on us to ensure their businesses stay connected, which is why call quality and reliability are at the heart of Flowroute's communications services," said Dan Nordale, chief marketing officer at Flowroute. "We're excited to partner with a company like VTech that shares our commitment to providing innovative, high-quality solutions at an affordable price."

### **About VTech**

VTech provides a diverse collection of telecommunication products that elevate the business consumer experience through state-of-the-art technology and design. The Group's business phones scale from small operations to enterprise-level corporations. They are sold through a wide network of trusted partners and are backed by industry-leading warranties and U.S.-based training and support. The company has recently added an award-winning collection of SIP phone systems, featuring compatibility with hosted and open-source PBX platforms.

Founded in 1976, VTech is the world's largest manufacturer of cordless phones and the global leader in electronic learning products from infancy through toddler and preschool. It also provides highly sought-after contract manufacturing services. VTech's mission is to design, manufacture and supply innovative and high-quality products in a manner that minimizes any impact on the environment, while creating sustainable value for its stakeholders and the community.
