Bicom Systems certifies interoperability with VTech
Affordable VTech IP phones to integrate with PBXware 4.1.2

HOLLYWOOD, FLA. – 12 July 2017 – Bicom Systems, in partnership with VTech Communications, Inc., a global leader and manufacturer of SIP-based phones, recently completed certification of four new ErisTerminal® SIP phones in anticipation of the upcoming release of PBXware 4.1.2. Characterized by innovation and high quality, the VTech telephones will integrate seamlessly with PBXware, giving users a wider range of options.

"Thanks to the dedication and teamwork from VTech, we can guarantee full interoperability of these phones with PBXware 4.1.2," commented Eldar Avdic, Hardware and End Points Manager at Bicom Systems.

Auto provisioning and certification have been completed on four VTech SIP phone models including:
- VSP715 ErisTerminal SIP Deskset: supports up to 2 SIP accounts
- VSP725 ErisTerminal SIP Deskset: supports up to 3 SIP accounts
- VSP736 ErisTerminal SIP Deskset: supports up to 6 SIP accounts
- VSP600 ErisTerminal SIP DECT Base Station and Cordless Handset: supports up to 6 cordless handsets

VTech ErisTerminal SIP phones are available in feature-rich desktops, as well as convenient cordless models. They leverage different cloud, hosted and open-source telephony solutions without negatively impacting network traffic. These models offer high-quality audio and support for multiple lines. The DECT 6.0 platform provides a clear connection, while making the system mobile and easily expandable with additional cordless accessories.

"Our diverse product portfolio scales from small offices to enterprise level corporations," said Ernie Levenson, president, VTech Communications, Inc. "We're excited PBXware users will have access to a wide range of offerings that add flexibility and increase productivity in the workplace."

Looking forward, Bicom Systems and VTech will continue working together to bring exciting new solutions to the market. Several distributors are already lined up for the upcoming IP Key Systems products.

Stay tuned for Bicom's upcoming release of PBXware 4.1.2.

About Bicom Systems

Bicom Systems is the only Unified Communications provider with all of the pieces to start and grow a telephony company. Established in 2003 with the first ever open-

standards, turnkey telephony platform, Bicom Systems synergizes telephony, mobility, security, and billing on rock-solid stability to support partners around the world to grow their businesses. Seven highly-featured products integrate seamlessly to boost sales, growth, and profit, topped off with gloCOM, a desktop and mobile Unified Communications app that enhances and simplifies business communications.
