

FOR IMMEDIATE RELEASE

360 Networks Announces Snom D7XX Series SIP Phones Are Now Certified With ComXchange

Dane, Wis. / Beaverton, Ore. May 24, 2019 – 360 Networks, maker of the ComXchange phone systems designed specifically for the hospitality industry and Snom Americas, a leading manufacturer of professional and enterprise IP phones today announced interoperability certification of Snom® D7XX Series SIP desktop and admin phones with the ComXchange platform.

After extensive testing, the following four new Snom models, featuring color screens and paperless speed dials, have performed to the desired specifications and rigorous demands of ComXchange.

Snom SIP Deskset Series:

- D785 SIP Color Deskset
- D735 SIP Color Deskset
- D717 SIP Color Deskset
- D7 Expansion Module

“We are proud to offer our customers another option of a high-quality telephone, especially from Snom Americas, a strong partner of ours,” stated Doug Schwartz, CEO of 360 Networks.

Snom Americas is also proud to earn the certification. “We are excited to promote these Snom SIP phones with all the ComXchange customers. There's a strong demand based on price points, and features, and we'd like to maximize this as much as we can,” explained Chad Collins, vice president of sales, Americas, Snom Americas.

Cost-effective and easy to use, the Snom D7XX Series SIP desksets (D717, D735 and D785) seamlessly scale from small hotel offices to hospitality call center businesses. Snom Americas backs the D7XX Series with North American based sales, technical and support teams, as well as industry-leading three-year warranties. These robust phones include customizable color LCD screens and dedicated feature keys to enable convenient call handling. Zero touch provisioning allows for easy installation.

The Snom D785 SIP Color Deskset helps people manage and delegate calls on a daily basis. Employees can easily handle multiple calls via a 4.3-inch color LCD screen, 10 clear lines of information and four soft keys. The D785 can also simultaneously support up to 12 SIP lines or accounts from a single setup. A second LCD screen gives users access to four pages of six self-labeling feature keys for instant access to programmable functions, eliminating the requirement for an additional side car deployment.

About 360 Networks

360 Networks is a leading provider of telephone systems to the hospitality industry. ComXchange, their flagship product, can operate as both an on-premise or cloud-based solution, giving the hotelier the option to choose the one that best matches their business needs. Utilizing a modular approach, along with industry leading innovation, the ComXchange system can handle the needs of both boutique hotels or very large campuses and is installed at over 500 locations nationwide.

About Snom Americas

A leading premium brand for innovative professional and enterprise VoIP phones, Snom Americas provides a diverse collection of telecommunication products that elevate the business consumer experience through state-of-the-art technology and design. These business phones are sold through a wide network of trusted partners and are backed by industry-leading warranties and U.S.-based training and support. Snom Americas was launched in 2019, after the acquisition of the German VoIP leader Snom Technology GmbH by VTech Holdings Limited in 2016. The Snom Americas product line includes color desksets, cordless phones, headsets, wireless conference phones (coming soon) and public broadcasting systems.

Founded in 1976, VTech is the largest manufacturer of residential phones in the US and the global leader in electronic learning products from infancy through toddler and preschool. It also provides highly sought-after contract manufacturing services. VTech's mission is to design, manufacture and supply innovative and high-quality products in a manner that minimizes any impact on the environment, while creating sustainable value for its stakeholders and the community.
